Economy**Global Economy**

For Calendar Year (CY) 2020, the global growth is at 2.9% with advanced economies having growth of 1.7% while emerging and developing economies having growth of 3.7% with India's growth at 4.2%. With the onset of the COVID-19 pandemic in the 1st quarter of CY 2020, there is a high and rising human cost worldwide. Fiscal and monetary authorities are increasingly stepping up the level of support to their respective economies. The global capital markets have continued to function well through the current period of significant market volatility, interest rate cuts and diverse global stimulus packages..

Outlook

This health crisis, never seen before, has posed definite challenges on economic activity. The uncertainty from COVID-19 will remain for the foreseeable future. Banks and capital markets institutions have no choice but to remain hyper vigilant and rewrite their business continuity playbooks as circumstances change. While it is reassuring to see some aggressive fiscal and monetary policy responses around the world already, clarity on how these actions will stabilize markets and accelerate the path to normalcy is slowly emerging, and in some cases yet to emerge..

Domestic Economy

In India, growth softened in 2019 as economic and regulatory uncertainty, together with concerns about the health of the non-banking financial sector, weighed on demand. The GDP growth for 2019-20 touched 4.2% vis-

à-vis 6.1% in 2018-19. During the year under review, headline Consumer Price Index (CPI) inflation had moved up to 7.6% in January 2020, highest since July 2014.. It is expected that inflation may recede except for any supply disruptions and settle well below the 4% mark by the second half of Financial Year (FY) 2020-21. In its 7th bi-monthly monetary policy, Reserve Bank of India continuing with its measures to alleviate financial stress, announced additional measures to provide liquidity support which apart from reducing the policy rates and injecting liquidity also permitted providing moratorium by financial institutions to its custom-ers. The Reserve Bank cut policy rates taking the key repo rate to its lowest ever 4%. India's wholesale prices posted biggest fall in more than four years, signaling weak demand, and opening room for the Reserve Bank to further cut interest rates.

Industry Overview

The NBFC sector continued to experience liquidity problems in the FY 2019-20 with the spreads over the G-Sec also continuing to widen for the sector. The risk-appetite further weakened in the third quarter of FY 2019-20 due to uncertainties caused by Corona Virus (COVID-19). This led to funding primarily being available to companies having strong parentage, brand and business model, robust corporate governance and conservative ALM.
