| Profit before Depreciation |                                    | 445.00                               |
| and Interest               | 132.69                             | 158.59                               |
| Depreciation               | 61.37                              | 60.02                                |
| Interest                   | 66.26                              | 85.81                                |
| Profit/ (Loss)             | 5.06                               | 12.76                                |
| Cash Profit                | 66.44                              | 72.78                                |
| Provision for MAT          | 0.43                               | 1.48                                 |
| Profit/(Loss) after tax    | 4.63                               | 11.28                                |

In view of the reduced margins due to competition, and increase in other manufacturing costs, the net profit has slightly come down as compared to the previous year.

## 2. PREFORMANCE & PROSPECTS:

Inspite of the adverse market scenario the company has been able to maintain its turnover during the year. During the year the company has concentrated on development of new value added products Like Vege capsules. Your directors are happy to announce that our's is the first company in the country to introduce Vege capsules with inhouse research facilities & the company has applied for a patent and is likely to get it registered.

The marketing tieup entered into for the formulation products of the company is expected to give an impetus to the sales of the company in the comimg years.

The aforesaid developments are likely to contribute immensely to the profitability of the company in the near future.
