OPERATIONS

During the year, the company has kept the unit running for manufacture of goods mainly on job work basis in view of non availability of the working funds. It has earned job work charges of Rs.847.68 lacs has against Rs.630.67 lacs in the previous year. After providing depreciation of Rs.195.43 lacs, loss has come down to Rs.17.90 lacs as against Rs.187.37 lacs in the year 2002-2003.

On reaching the compromise settlement, UTI Bank Ltd has waived interest and principal resulting into profit of Rs.566.63 lacs due to write back. The company's reference to BIFR for rehabilitation is still undecided due to legal and counter-legal actions. In the meanwhile, the action to have compromise settlements with remaining banks and IDBI is expedited. The Recovery Certificates issued by DRT could not be executed on account of a stay brought by the company due to the operation of section 22(1) of Sick Industrial Companies (Special Provisions) Act, 1985. Therefore, there are good chances to bring back the company on profitable basis as the unit is otherwise a viable one.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Overview :

The promoters selected to go into manufacturing and refining castor oil and its derivatives viz HCO, 12 HSA etc keeping in view market perspective. India is a dominating country in production of castor seeds with an average of 65% and Castor Oil an average of 61% out of the world production. India's oil export is an average over 85% out of the world export. The working of the company has not improved. This is possible once the BIFR finalises the Rehabilitation Programme or the compromise settlements are approved by the Banks.

Risk and Concerns :

The company is exposed to credit risk and liquidity risk arising from mismatch of funds borrowed and funds utilized. The company was therefore trying to restructure its liabilities once the BIFR's approval is received. The management has however approached the bankers and financial institution with the compromise settlements even after DRT has passed the Order for issuance of Recovery Certificates. DRT's action is however stayed. During the period, the company operates its unit on job - work basis keeping the workers engaged in its operation.

Internal Control System and their adequacy :

The company has an adequate system of internal control relating to purchase of stores, raw materials and other assets and also for sale of goods. The company has setup an audit committee of the Board comprising of two executive directors and one non executive director. The company has also appointed the firm of Chartered Accountants to carry out internal audit. The internal auditors are analysing the area of risk with a view to strengthen the internal controls.

N. K. Industries Ltd.

Financial and Operational Performance :

The income earned by the company was mainly from the charges received for the job work done for others which was however not adequate. The operational loss included was Rs.80.90 lacs without providing for interest liabilities of Banks and FI. The production of Castor Oil including job work was 39,364 M.T. as against 40,000 M.T. for the previous year. The company is however making its efforts to increase the production so as to utilise the installed capacity to the maximum.

Menpower :

The management is continuously trying to see that the unit runs even on job work basis till either the BIFR finalises the Rehabilitation Programme or the compromise settlements are approved. This alone will help to keep employed the staff and workers of about 300 who have throughout the difficult days co-operated with the management.
