PLANT OPERATIONS

During the year, your company manufactured 13.65 lakh MTs of Urea as against 12.97 lakhs MTs in the previous year. The Plants have been working satisfactorily during the year.

The supply of natural gas and Naphtha was satisfactory throughout the year.

The Dr. Y K Alagh Committee looking into the overall aspect of reassessment of capacity of units manufacturing Urea had submitted its report and the same is yet to be accepted. The Government pending receipt of the recommendations of Dr. Y K Alagh Committee resorted to an Interim Reassessment of capacity of your company's Plants with effect from April 1, 2000. The representations of the Company and other fertilizer manufacturers to withdraw the interim reassessment have not yielded any result.

The Government has over a period of time been withholding subsidy claims of your company under various heads totalling to around Rs.550 Crores. Certain claims have been approved by the Fertilizer Industry Co-ordination Committee (FICC), but the Company is yet to receive payments for the same. This has resulted in a major constriction in the Cash Flow of the Company. The Government has also withheld payments to the Company in view of likely adjustment that it proposes to make in future, on matters yet to be crystallised.

The Occupational Health and Safety Assessment certification audit was completed successfully by M/s. BVQI during the year. The Company has now achieved three systems certifications viz., Quality, Environment and Occupational Health and Safety. The Company also obtained 3 Star rating of 83% marks after a BSC Five Star Health and Safety Management System Audit. The Company has received ISO-14001:1996 Certification from M/s. BVQI for implementation of Environment Management System at NFCL, Kakinada.

The Company has been awarded the NCERT award for the Best Vocational School - Industry Linkage of Andhra Pradesh.

MARKETING

During the year, your company sold 13.24 lakhs MTs of Urea as against 12.84 lakh MTs during the previous year.

The sale of pesticides registered an increase from Rs. 57.35 crores to Rs.60.01 crores.

Your company sold Speciality Fertilizers during the year valued at Rs.8.31 crores.

For economic considerations, your company after detailed deliberation decided to reduce its exposure in the manufacture and marketing of seeds during the year. This caused the turnover of the Seeds Division to substantially reduce to Rs.7.46 crores from Rs.16.29 crores.

ENVIRONMENT

During the year, the Government of Andhra Pradesh had conferred "Vanamitra Award" for the year 1999 for the outstanding efforts made for developing and sustaining Greenbelt.

DEMATERIALIZATION

Your company pursuant to the Notifications dated June 26, 2000 and August 28, 2000 of the Securities and Exchange Board of India making it compulsory for the shares to be in dematerialised form, entered into agreements with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) to enable trading of the shares. The Company's shares can accordingly now be traded in the dematerialised form.

PUBLIC DEPOSITS

The Company has been accepting deposits from the public since the year 1994 and has been repaying the matured deposits / interest on due dates consistently over the years.

The Company, since June 2001, owing to your Company's tight cash flow position, was unable to honour repayment of matured deposits on due dates.

The Company in accordance with Section 58 AA (1) of the Companies Act, 1956, intimated the Company Law Board (CLB) of delay in repayment to 'small depositors'. As the delay had been continuing, the Company has made four applications to the CLB during the period upto December 31, 2001 and your Company has been complying with the Orders of the CLB.

A detailed status report is furnished in the Annexure on Corporate Governance.

CORPORATE GOVERNANCE

Your Company takes pride in the fact that the various recommendations made by the Committee on Corporate Governance were already being practiced by your Company, even before the Committee's recommendations. A detailed Report appears in the Annexure to the Directors' Report.

DIVERSIFICATION

Nagarjuna Oil Corporation Limited (NOCL), a wholly owned subsidiary of the Company, is involved in implementing the Refinery Project at Cuddalore in Tamil Nadu.

NOCL has obtained necessary approvals for the implementation of the Project and is in the process of tying up its equity for achieving financial closure. Your company in view of its commitment to the Project has invested around Rs.530 crores as on March 31, 2002.

Nagarjuna Power Corporation Limited (NPCL) is implementing the 1015 MW Power Plant at Mangalore in Karnataka. NPCL has signed the Power Purchase Agreement with the Karnataka Power Transmission Corporation Limited. In view of the inordinate delay by the Government of Karnataka in approving the Power Purchase Agreement, NPCL chose to seek legal redressal of its grievance and filed a Writ of Mandamus in the High Court of Karnataka seeking direction to the Government of Karnataka to approve the PPA, State Support Agreement and State Guarantee Agreement. The Division Bench of the Karnataka High Court has upheld the decision of the Learned

Single Judge and directed the Government to consider the Proposal of the Company.

Your company invested around Rs.60 crores in the Power Project as on March 31, 2002.

MERGER

The Board of Directors of your Company after due deliberation decided to merge your Company with Nagarjuna Corporation Limited with a share exchange ratio of 1:1. The merger is intended to help reorganise and restructure the various businesses of your company over a period of years.

The reorganisation and restructuring is considered necessary in view of the WTO regime and the new challenges of globalisation. The uncertainties in the Policy Prescriptions for the Urea Industry led to further imponderables on the future of the Urea Industry. The immediate and long-term outlook of the Urea Industry seems uncertain.

Your Company has had a checkered history in the past. Whilst your Company made commendable strides after the fertilizer project was implemented, during the project phase, your Company had to go through punishing obstacles.

After eight odd years of creditable performance, your Company is again saddled with problems due to reasons beyond the powers of your Company. In order to shed this checkered past, the merger of Nagarjuna Fertilizers and Chemicals Limited into Nagarjuna Corporation Limited will enable your Company to acquire a new corporate platform upon which the merged entity would conduct the fertilizer business along with other businesses that may be acquired in the future years to hedge the risks and imponderables of the fertilizer business.

FINANCIAL YEAR

After detailed deliberations, the Board of Directors of your company at their meeting held on April 18, 2002 decided that the financial year shall be from April 01, 2000 to March 31, 2001.

SUBSIDIARY COMPANIES

In respect of Jaiprakash Engineering and Steel Company Limited and Nagarjuna Oil Corporation Limited, subsidiaries of your Company, a statement of the Holding Company's interest in the Subsidiary Companies is enclosed in accordance with Section 212 (2) (a) of the Companies Act, 1956.

PERSONNEL

Your Company continues to enjoy cordial relations with employees at all levels.

Particulars of employees under Section 217 (2A) of the Companies Act, 1956 is annexed.

 - c. Covering 10% of Heat Recovery Steam Generating Unit (HRSG)-C Steam Superheater coils area to bring down fuel gas losses.
 - d. Modifying the configuration of DM water preheater (EE-351) in Ammonia plant-2 from co-current to countercurrent flows.
 - e. Installation of a separator in Urea plant-1 to avoid moisture carryover, in off gases (vent gases in the Medium Pressure section) going to auxiliary boilers as fuel.
 - f. A modification is planned for implementation, for heating Methanation section and/or Synthesis loop in Ammonia-1 with Syn.gas from Ammonia plant-2 to save start up time.
4. **Expenditure on R&D :** No separate record of the expenditure incurred on R&D is maintained.
a) Capital b) recurring c) Total d) Total R&D expenditure as a percentage of total turnover.
- B. Technology absorption, adaptation and Innovation**
1. **Efforts, in brief, made towards technology absorption, adaptation and innovation.**
 - a. A Scheme which had been implemented earlier in Urea Plant -1 to improve the ammonia recovery from the vent gases in the medium pressure section by sending off gases to auxiliary boilers as fuel was successfully replicated in Urea Plant - 2 in June 2000 as a part of ISO-14001 EMS implementation.
 2. Benefits derived as a result of the above efforts ex. Product improvement, cost reduction, product development import substitution etc. Unit-II and complex specific energy consumption on normal running day basis are in decreasing trend.
 3. In case of import technology (imported during the last five years reckoned from the beginning of the financial year), following information may be furnished :
An expansion project was undertaken and Ammonia and Urea Plants of identical capacity as the existing ones were installed and commissioned in March 1998.
 - a) **Technology imported:**
 1. Haldor Topsoe's low energy Ammonia production technology
 2. Snamprogetti's Ammonia stripping technology for Urea production
 3. Giammarco-Vetrocoke process for CO₂ separation in the ammonia plant.
 - b) Year of Import : 1996-97
 - c) Has technology been fully absorbed? : Yes
 - d) If not fully absorbed, areas where this has not taken place, reasons therefor and future plans of action : Not applicable.

**CORPORATE GOVERNANCE REPORT FOR THE PERIOD
APRIL 1, 2000 TO MARCH 31, 2001
Annexure to the Directors Report**

A. COMPANY'S PHILOSOPHY

At Nagarjuna we believe in the philosophy of **SERVING SOCIETY THROUGH INDUSTRY.**

This philosophy is backed by principles of concern, commitment, quality and integrity in all its acts and relationships with stakeholders, customers, associates and community at large which has always propelled the Group towards higher horizons.

At Nagarjuna we continue to strive to transform the business environment we operate in. We are also at work transforming the society around. Our aim is to create an environment which enhances opportunities for all the good things, better health, education and overall quality of living that life has to offer.

At Nagarjuna we believe that it is not the latest technology or management practice (as important as they are) that makes an organisation successful as it ought to be. However, what makes it an enterprise worthy of emulation is that it shapes up the environment in which it grows.

A case in point is the environment around our fertilizer plant. It has the look and feel of a virtual heaven on earth. Around the plant, NFCL has nurtured a densely wooded man-made forest which is the home of over 137 different species of plants and close to 300,000 trees.
