### COMPANY'S PERFORMANCE

Before reviewing the overall performance of the company, we would like to report segment wise performance of the company. The company's activities can be classified under two segments namely Yarn Segment and Garment Segment as per the Accounting Standard 17 issued by the Institute of Chartered Accountants of India. The working performance of each segment is as under:-

### YARN SEGMENT

During the year under review, the Yarn Segment performed reasonably well. The Segment contributed Rs.276.15 towards the turnover of the company out of which Rs. 135.34 crores was Export turnover. The Company earned a profit before tax and interest of Rs.20.49 crores during the year. The higher Cotton prices coupled with lower export realisation adversely affected the Financial performance of the yarn segment.

Your Company continued its Policy on spending on Technology and Modernisation and installed 10000 Spindles of Compact Spinning Machines imported from internationally renowned M/s Riter Machines, Germany, for its spinning plant at Village Simrai, Mandideep, Distt. Raison. The compact Spinning is the latest

technological advancement of ring spinning Yarn and will add further value to the Yarns manufactured by the Company.

### GARMENT SEGMENT

The Garment division contributed Rs. 133.73 crores towards the revenue of the Company as against 200.95 Crores in the previous year. The lower allocation of quotas for the second half of the financial year adversely affected the performance of the Segment. The stiff Global competition coupled with demand shrinkage from Overseas buyers also adversely affected the Exports as well as operating margins, resulting lower profits before tax at Rs. 4.38 crores as against Rs.12.67 crores in the previous year.

However your Management is quite hopeful that quota free business environment w.e.f. 1<sup>st</sup> Jan., 2005, will enable the company to improve its performance in the coming periods, as company will have free access to the World Markets.

Besides, to ensure uninterrupted power supply at cheaper cost, the company has decided to install a Turbine with a capacity of 3.5 M.W. for co-Generation Power Plant at Village Dhandari Kalan, Distt. Ludhiana at a capital outlay of Rs.16 crores approximately, and the same will be met out of internal accruals of the company. The plant is likely to be commissioned by March, 2005. The plant will not only meet the power requirements of the company's plant at Dhandari Kalan but will also help in improving its bottomline.

### OVERALL PERFORMANCE

From the above results, it is apparent that the company has performed reasonably well during the year under review. The company achieved an operating income at Rs.389.03 Crores out of which Rs.210.26 crores was export turnover. Because of its excellent Export performance the company continues to enjoy the status of **GOLDEN TRADING HOUSE**. The company's Export efforts has also been recognised by The Cotton Textile Export Promotion Council as is evident from the timely pronouncement of Award of **TEXPROCIL SILVER TROPHY** to the company, for the outstanding Export performance in Yarn, amongst Mills Exporters for the year 2003-2004.

We would further like to report that inspite of lower operating income/Exports, the Company has been able to improve its Financial performance and earned a net profit of Rs.26.40 crores as against 24.85 crores showing an increase of 6.24% over the previous year. After appropriation of profit as per detail herein above, an amount of Rs.16.99 crores has been transferred to General Reserve thereby increasing the Reserves of the Company at Rs. 553.01 crores on 31<sup>st</sup> March, 2004.

Your Management is quite optimistic that changed Global Scenario of quota free business environment, will offer a big growth opportunity for the Company. Your company has already geared itself to avail the emerging opportunities by building large capacities. We are hopeful that company's core competence and competitive edge achieved through modernisation and upgradation of the Plants will help in further improving its performance. Besides, the expectation of good cotton crop in the current season, the raw cotton prices are likely to soften
