National Peroxide Limited

4. Operations :

PEROXYGENS DIVISION

During the year under review, sales of Hydrogen Peroxide in the domestic market showed a small growth over the previous year. However, it is heartening to report that the prices continued to improve during the year. This has helped your Company to improve its bottom line substantially. In spite of stiff competition, your Company continues to maintain its prime position in the market and holds 42% of the market share.

The Pulp & Paper Industry increased its consumption of Hydrogen Peroxide on account of customer's requirements of brighter paper as well as the use of Hydrogen Peroxide in High Density Tower. The Petroleum Refinery Industry has started using Hydrogen Peroxide for waste water treatment and refineries such as Panipat and Mathura are now regularly using Hydrogen Peroxide. It is expected that this increase will help in the growth of the market.

Towards the end of the year, the Newsprint Industry came under pressure due to fall in newsprint prices in international markets. This was due to large quantity of pulp being available at cheaper prices in the international market. This is likely to affect the financial performance during the coming year.

The financial restructuring undertaken during the year was completed and high cost loans were paid off. The Company has already borrowed Rs. 10 crores from Unit Trust of India at cheaper rate.

The focus on cost reduction continued during the year. In spite of technical problems faced in the plant during the year, the overall improvement in specific consumption of various inputs continued. To take benefit of the changes in the MSEB tariff structure, your Company installed additional capacitor banks to improve its power factor. As a result, the unit cost of power reduced during the year.

Employee relations continued to be cordial during the year.

PLASTICS ADDITIVES DIVISION

The Conciliation Settlement Agreement with M/s Barlocher GmbH was signed on 17th June, 2000 and authenticated by the Conciliator. The handing over of the plant to M/s Barlocher India Additives Private Limited was carried out as scheduled on 30th June, 2000. All the approvals required to complete the transaction have been obtained and your Directors are happy to report that the transaction is now substantially complete.

The proceeds received from the sale of Dewas Division were used to pay off high cost loans and this has helped the Company to reduce its interest burden.

5. Status of Sale of Real Estate at Naperol Tower :

During the year under review, your Company sold 121 flats. As a result, only 38 flats remain to be sold which your Company is hopeful of selling in the year 2001-02. The cash generated from the sale of these flats has been used to substantially reduce the debt and consequently the interest burden.

6. Safety & Environment :

The Company continues to maintain a good safety record and has worked 1343 days without Lost Time Injury as on 31st March, 2001. Environmental pollution standards of the concerned State Pollution Control Boards were also met during the year.

7. Insurance :

All properties of the Company, including buildings, plant and machinery, stocks and materials in transit have been adequately insured. The Company has taken public liability insurance policy as per Public Liability Insurance Act, 1991.

8. Fixed Deposits :

Fixed deposits from the public and shareholders, outstanding with the Company at the end of the financial year on 31st March, 2001, stood at Rs. 315.37 lacs, out of which a sum of Rs. 7.55 lacs, relating to 82 depositors, has not been claimed for which disposal instructions had not been received on or before 31st March, 2001 although the respective repayment dates had passed. Since then, deposits amounting to Rs. 3.62 lacs have been withdrawn by 37 depositors.
