Note : Figures have been regrouped wherever necessary to make the information comparable.

The name of the Company has been changed to Navin Fluorine International Limited with effect from 6th October, 2004. The name now represents the true nature of its core business i.e. manufacturing and selling fluorine chemicals.

During the year, the Company disbursed Rs.495 lacs to complete the obligatory infusion of Rs.9,000 lacs into Mafatlal Industries Limited (MIL) by September 2004, as mandated by the Board for Industrial & Financial Reconstruction (BIFR) through the Sanctioned Scheme of Demerger (SS) of MIL dated 30th October 2002. The entire amount has since been converted into 9,00,00,000 Optionally Convertible Fully Redeemable Non-Cumulative Preference Shares of Rs.10/- each of MIL.

As you are aware, Sulakshana Securities Limited (SSL) was identified through the 'SS' of MIL for the purpose of settling dues worth Rs.25721 lacs of the Term Lenders of MIL by liquidating certain identified assets of equal value, as on the date of the 'SS', within thirty months from that date. The 'SS' mandated that the Company will give a guarantee to the Term Lenders such that any shortfall in their settlement amount will be made good by the Company with rights, as available to a guarantor under Sections 140 and 141 of the Indian Contract Act, over the remaining assets of SSL after completion of the settlement. In this regard, dues valued at Rs.9858 lacs, including interest, to IDBI were settled during the year through a debt-asset swap. The Company gave a Corporate Guarantee for Rs.1000 lacs to IDBI to make good shortfall, if any, between the swap value and the actual consideration at which the lender may sell these assets between the 5th and the 9th year of the date of this debt asset swap. The Company was required to bear, to the extent of Rs.500 lacs, stamp duty, registration and other expenses, pertaining to this debt asset swap. This is expensed out in the Profit & Loss Account under the head 'Exceptional Items'. Amount outstanding to MIL's Secured Term Lenders as on 31st March, 2005, in the books of SSL, therefore, stands at Rs.5276 lacs. The matter is under active consideration and is expected to get settled shortly.

2. INCREASE IN CAPITAL

Pursuant to the 'SS' of MIL, the Company successfully came out with a Rights Issue of 50,49,999 equity shares of Rs.10/- each, in the ratio of 1:1 at a price of Rs.60/- per share including premium. The terms of payment were Rs.30/- per share on application and balance Rs.30/- payable on first and final call within one year. The issue was open between 21st August, 2004 and 24th September 2004. It was oversubscribed by 1.30 times and the subject shares were allotted on 20th October 2004. Consequently, the issued and subscribed share capital of the Company stands increased to 1,00,99,889 equity shares at a face value of Rs.1010 lacs. The Paid up Capital of the Company as on 31st March 2005 is Rs.757.81 lacs.

3. INVESTMENTS :

As mentioned earlier, during the year under review the

entire amount of Rs.9000 lacs funded to MIL was converted into 9,00,00,000 Optionally Convertible Fully Redeemable Non-Cumulative Preference Shares of Rs.10/- each of MIL. Out of the above, 3,00,00,000 Preference Shares were sold at an aggregate value of Rs.30 lacs resulting into a Rs.2970 lacs loss on sale of investment. Further, in view of MIL's negative networth of Rs.39223 lacs as at 30th September, 2004, their last audited Balance Sheet date, it is decided to write down the value of the remaining investment in the aforementioned Preference Shares of MIL to 1 % of their nominal value. The Profit & Loss Account is appropriately charged in this regard under the heading *Exceptional Items*.

During the year the Company invested Rs.15 lacs in the equity shares of SSL making it a wholly owned subsidiary of the Company in terms of the SS.

The Company, during the year, also contributed Rs.80,000/- to the Capital of Urvija Associates, a Partnership Firm, in which the Company has an 80 % share of Profit or Loss.

In 2004-05, the Company is required to publish its Consolidated Financial Statements, comprising of the financial statements of Mafatlal Burlington Industries Limited (MBIL), Sulakshana Securities Limited (SSL), Urvija Associates (UA) and Molex Mafatlal Micron Private Limited (MMMPL). However, the financial data of MMMPL has not been consolidated due to non-availability of it's Audited Accounts.

The Company, has 50% shareholding in MBIL a denim Joint Venture with Burlington Mills, Inc., USA. The Company has exercised its right, as per the Shareholders' Agreement between the JV partners, to acquire the balance shares in MBIL from Burlington Mills, Inc. The matter is currently in Arbitration.

The Company and its wholly owned subsidiary, SSL holds 13.71 lac and 57.49 lac equity shares of MMMPL respectively, which brings the aggregate holding of the Company, including shares held through subsidiary, to 49 % of the paid up equity capital of MMMPL.

4. BORROWINGS :

The 'SS' of MIL envisaged term loans aggregating to Rs.6500 lacs to be raised by the Company to fulfill the obligation of funding MIL. The Company drew down the last tranche of Rs.1000 lacs out of Rs.6500 lacs of term loans tied up during the previous year.

In order to augment the emerging working capital needs the Company also increased the working capital facilities, both fund based and non-fund based, to Rs.2250 lacs.

5. DIVIDEND :

The Board of Directors are pleased to recommend a

dividend of 20% for the year as under :

- Rs.2/- per share on 50,49,999 fully paid equity shares of the nominal value of Rs.10/- each aggregating to Rs. 101 lacs.
- For shares issued during the year 2004-2005, Re.0.89 per share on 6,337 fully paid equity shares of Rs.10/- each and Re.0.45 per share on 50,43,553 partly paid equity shares (Rs.5/- paid-up), pro-rata from the date of allotment, i.e. 20th October, 2004. Aggregate amount of dividend payable on partly paid equity shares issued during the year is Rs.22.52 lacs and on fully paid equity shares is Rs.0.06 lacs.

6. YEAR IN RETROSPECT :

The year ended on 31st March 2005 was a challenging year for your Company which saw a near stagnation in the domestic market and almost all the growth came from the exports.

During the year the US Dollar continued to remain weak vis-à-vis the Indian Rupee. As a result the pressure on export realizations continued. In the home markets your Company had to combat the cascading impact of lower import tariffs and a strong Rupee. The feed stock and raw material prices spiralled up during the current year as a consequence of crude oil price hike and exerted a significant adverse impact on product margins.

In spite of these adverse factors, your Company has managed to grow its top line by 16% and reach a turnover of Rs. 225 crores. This growth could be achieved primarily due to 15% more production of basic raw material HF in a newly commissioned plant and its derivatives. The additional capacity of basic raw material like HF has removed one of the principal hurdles in volume growth and added intrinsic strength to the fluoro chemical business of your Company.

Other significant achievement of your Company was to design, develop and commission one of the largest Fluorobenzene plant in the world. This was done in a record nine months from conceptualising to commissioning. This is the first successful plant in India that has started producing this value added basic specialty intermediate for local and export markets. The other attempt of producing fluorobenzene in India based on Chinese technology was made by our competitor in the late nineties but was aborted due to technoeconomic failures.

Your Company was also successful in inventing a novel process for aminobenzotrifluoride by a unique route that has improved the selectivity of the desired product by six times than the conventional process. This has given a tremendous advantage to the marketing of this product in the international arena.

The specialty chemical business of your company is

technology driven with R&D as its growth engine. This is borne out by the fact that fifteen new products/processes were successfully developed by in house R&D efforts and are now in various stages of commercialization. The specialty product basket has since swelled to fifty five and the range is ever increasing. The result of all this is evident from the export growth of specialty fluorochemicals which was 300%.

Refrigerant gases continue to be the backbone of your company's business and will continue to do so in times to come. Though CFC business is declining as per the requirements of Montreal Protocol and your company is fully compliant, HCFC business is showing definitive signs of growth commensurate with air conditioning industry and is making up partly for the CFC business attrition. There is a growth in CFC substitutes market as well and your company is present with more than 30% share in this future growth area. The substitute growth is led by HFC 134a and your company is contemplating an investment in the manufacturing of this high tech refrigerant gas subject to techno economic feasibility.

Smelter fluorides, which once constituted the core of our business are steadily loosing ground to competitive products like low density aluminum fluoride and recycled bath material. As a result of this shift, the domestic volumes have shown a drastic decline over last year and the Company will be looking more to exports to maintain the volumes.

In April 2004, your Company completed the investment in 2.7 MW Gas based captive power plant with a waste heat recovery system at its Surat unit. It was fully operational during the last year with commensurate benefits of cost of power and the co-generated steam. The waste heat recovery system also helped in augmenting the overall steam balance at the Surat facility.

Your company has prepared a blueprint of Capex and Rs. 63 Crores were invested over the last three years. These were fully funded out of cash flows generated from business. During the current year, your Company plans investment of another Rs 50 crores in Capex.

SAP, the best ERP (Enterprise Resource Planning) is the platform for Sales & Distribution, Materials Management and Financial Information functions since last year. During the year, it went live with Production Planning, Quality Systems, Plant Maintenance and Controlling modules. Consequently, all the major business processes have now been mapped and integrated at all the five regional offices, two manufacturing locations and the Head Office.

Your Company, as always, has been aware of its responsibilities as a good corporate citizen, in health,

safety and environment management. This is demonstrated by the fact that the year under review passed without any major accident in both the manufacturing plants. The industrial relations at both the manufacturing units remained cordial.

7. SUBSIDIARY :

During the year Sulakshana Securities Limited (SSL) has become a wholly owned subsidiary of the Company. As required under Section 212 of the Companies Act, 1956, the audited Balance Sheet as at and the Profit & Loss Account along with the Directors' Report of SSL for the year ended 31.03.2005 is attached herewith.

8. INDUSTRIAL RELATIONS :

The relations between the employees and the Management have remained cordial.

9. INSURANCE :

The properties and insurable interest of your Company like Building, Plant & Machinery, Stocks, etc., are properly insured.

10. PARTICULARS OF EMPLOYEES :

In compliance with the provisions of Section 217(2A) of the Companies Act, 1956, a statement giving requisite information is annexed hereto.

11. ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO :

Additional information on conservation of energy, technology absorption, foreign exchange earnings and outgo as required to be disclosed in terms of Section 217(1)(e) of the Companies Act, 1956 read with the Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 is annexed hereto and forms part of this Report.

12. REPORTS ON CORPORATE GOVERNANCE AND MANAGEMENT DISCUSSION AND ANALYSIS :

As required under the Listing Agreement with Stock Exchanges, reports on "Corporate Governance" as well as "Management Discussion and Analysis" are attached and forms part of the Directors' Report.

13. DIRECTORATE :

Shri A.K. Srivastava and Shri V.P. Mafatlal retire by rotation at the ensuing Annual General Meeting, and being eligible, offer themselves for re-appointment.

14. DIRECTORS' RESPONSIBILITY STATEMENT :

As required under the provisions of Section 217 (2AA) of the Companies Act, 1956, your Directors report that :

- (i) in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures;

- (ii) the directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the Financial Year and of the profit of the Company for the year under review;
- (iii) the directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- (iv) the directors have prepared the annual accounts on a going concern basis.

15. AUDITORS :

At the Annual General Meeting, Members are requested to appoint Auditors for the current year and fix their remuneration. The specific notes forming part of the accounts referred to in the Auditors' Report are self-explanatory and give complete information.

16. APPRECIATION :

The Directors wish to place on record their appreciation of the devoted services of the workers, staff and the officers who have largely contributed to the efficient management of the Company.

For and on behalf of the Board

Chairman

Mumbai

Dated : 27th May, 2005

ANNEXURE TO THE DIRECTORS' REPORT 2004-2005 :

Disclosure of particulars with respect to Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo as required under the Companies (Disclosure of Particulars in the Board of Directors' Report) Rules, 1988.

(1) CONSERVATION OF ENERGY

A) Energy Conservation Measures taken

1. During the year the Company implemented a project to set up an environment friendly 2700 Kwh natural gas based captive power plant with waste heat recovery system. This has come on stream in the month of April 2004 thereby reducing the 'per unit cost' of power and steam substantially.
2. Recycling of flugases for Flourspar drying in new hydrofluoric acid plant thereby reducing the energy norms of the products.
3. Drives of heavy-duty motors are being progressively rationalized to reduce the fixed power consumption losses.

4. Old refrigeration compressor in new hydrofluoric acid plant has been replaced by a new screw type compressor resulting in lower energy consumption.
5. Cooling tower in the BF₃ plant have been revamped to improve energy efficiency.
6. Vacuum pumps are being progressively replaced by steam jet ejectors.

B) ADDITIONAL INVESTMENTS AND PROPOSALS, IF ANY, BEING IMPLEMENTED FOR REDUCTION IN CONSUMPTION OF ENERGY

The 2700 Kwh Captive Power Plant with waste heat recovery system was implemented during the year and has resulted in substantial savings in the per unit power and steam costs.
