Dear Shareowners,

I have a mixed feeling while presenting this report – Firstly; I would like to express our solidarity for those affected at recent Bomb blast in Mumbai, Tsunami in Japan and elsewhere in the world. The terrible event that hit Japan brought to the forefront the inborn quality of the Japanese, who in an unspeakable calamity showed rare character, discipline and determination; a lesson for all of us to learn from. On the other hand, our Men in Blue gave us tremendous joy and satisfaction when they brought back home the Cricket World Cup after 28 years!

On the business front, your company concluded FY11 with revenues at ₹ 548 crore, led by the publication business which grew 8% at ₹ 299 crore and stationery segment grew by 2% at ₹ 244 crore. The balance revenue of ₹ 5 crore was from other sources. However with the syllabus change continuing in the State of Maharashtra in FY12 and Gujarat likely to follow suit, the company expects good growth for the publications segment over the next few years. And on Stationery front, company's restructuring initiatives for domestic markets have shown encouraging results in FY11 resulting in double digit growth in this segment. The situation looks more promising in FY12 with steady improvement in margins. However the overall performance of the stationery segment was lower than what we had anticipated as a result of exports taking a beating as fierce competition from other markets and currency fluctuations did not allow us to offer finer prices to the customers.

The progress in e-learning activity was almost at par with expectation. Now that the company has completed the full range of primary & secondary state level curriculum in Maharashtra & Gujarat, substantial improvement is expected in FY12 performance. Your company is confident that with more and more schools including this module in their day-to-day teaching activities, this segment will gain impetus and your company with its strong brand and relationship built over many decades will create a sustainable long term business model.

The last decade belonged to the Information technology, communication and entertainment sector, but this decade will belong to education and innovation – i.e. innovation in any field. Education sector is a high priority thrust area for the Government of India. Current literacy rate in India is close to 60% and the Government wants it to be close to 85% in the next 5 years. Simultaneously Education field is growing much faster in various services, be it school education, Coaching activities including vocational trainings provides huge opportunities not only to grow but also to service the society. Navneet is hopeful of participating in these activities directly and/or indirectly.

With the opportunities opening up in this sector on account of increased government spends, willingness by parents to spend on quality education and the improving student-enrolment ratio, the scope for players like Navneet to deliver education based products is so large that we are confident of reaching our target of ₹ 1000 crore revenue mark in next couple of years.

Shivji K. Vikamsey

Dividend Policy :

Keeping in line with the low capital expenditure requirements for the business, the company continues with its liberal dividend policy and accordingly the company declared and paid interim dividend of 30% or ₹ 0.60 ps per share. The company has now proposed dividend of 40% or ₹ 0.80 ps per share. The dividend as proposed alongwith the interim dividend already paid works out to 50% pay out (including dividend distribution tax) for FY10-11. Depending on the capital expenditure requirements for newer initiatives this could change. However, the company expects that a 25% dividend payout will continue.

Wealth Creation for Shareholders :

Over the years by following sound business policies and taking prudent investment decisions Navneet has successfully created a Net worth of ₹ 339 crore. Further, the shareholders have been consistently receiving a handsome dividend every year.

Business Overview / Outlook :

Publications Segment :

Revenues from publications business grew 8% on a y-o-y basis at ₹ 299 crore. However with the syllabus change continuing in the state of Maharashtra and Gujarat from FY12 the company expects good growth for the publications segment over the next few years.

Stationery Segment :

On Stationery front, revenues grew at 2% on a y-o-y basis at ₹ 240 crore which was lower than Company's expectations as exports took a beating. However the restructuring initiatives for domestic markets have shown encouraging results in FY11 resulting in double digit growth in domestic market. The situation looks more promising in FY12 with steady improvement in margins. Exports look bleak as competition from other markets and currency fluctuations are the main bottlenecks to offer better prices to the customers.

Other Segments:

The revenue of ₹ 5.1 crore from other segment comprises mainly of revenue generation from windmills.

Operating margins and its likely improvement:

Operating margins (before Other Income) stood at ₹ 126 crore in FY11 (22.99% of sales) as compared to ₹ 110 crore in FY10 (21.16% of

sales) on account of efficiency in the Material Consumption, Marketing, Sales promotion and Admn.exp.

Capex plans for the current year:

The company is in the process of expanding its storage facilities to cater to its increased volumes and may also invest in some additional office premises for its various activities and some minor additions to the plant.

Update on eSense-an e-initiative by Navneet :

The aggressive marketing drive has seen considerable improvement in the numbers of eSense. The company has received encouraging response for its classroom oriented e-learning modules in Gujarat and Maharashtra. As this e-learning module is gaining acceptance from student and teacher community in both states, the company has accelerated its efforts on production and marketing. In FY 10-11 the company has sold its classroom teaching module to 487 institutions and is confident of achieving significant improvement in the number of school enrollments by the end of FY12. Also by creating full range of primary & secondary state level curriculum in Maharashtra & Gujarat, your company is on fast track to achieve a good performance for FY12.

Update on the Spanish acquisition:

Spanish acquisition was to promote children books products in European markets. With recessionary trends continuing for last couple of years and likely to continue further, your company has decided to keep Spanish office as only marketing office going forward. With this change the company has achieved deductions in its costs. However, it still believes in the potential of IPRs of Grafalco.

Future Growth Drivers, Opportunities, Risks :

The size of the Indian education space is estimated at USD 25.6 bn, which is slated to grow at a rate of 22% per annum. Growth is expected across segments, most prominently in K-12 and higher education, valued at USD 11.5 bn and USD 8.6 bn, respectively. The growth rates could be higher in case regulatory changes are introduced. (Edelweiss-Indian Education Report).

Demand for education is set to rise in India in the years to come due to:

- Population in the working group set to increase substantially.

- We are increasingly becoming a knowledge economy a shift from Rural or Agriculture based economy. This changing structure creates the need for better education system.
- Increasing income levels lead to higher aspirations which in turn lead to a demand for not just education, but “quality” education.

Navneet is ready to ride the growth curve on the basis of the ride of the middle class and its income organically or inorganically. Further, the huge demand-supply gap in quality education means that innovators will stand to gain. Navneet aims to continue its focus on providing quality education through its strong content. Further, we'll aim to improve our profits by improving our efficiency all across the board and strong internal controls.

Risk Factors :

Competition from Other Players :

The Education Business is one of the high growth and happening industry. The Company operates in highly competitive environment that is subject to innovations, changes and varying levels of resources available to each player in each segment of business. This may be a matter of concern if the Company does not adapt to the changing face of the Industry. The Company has been keeping itself abreast of latest changes in the industry to implement the same in its operation to keep itself ahead of competition.

High Input Cost :

The persisting inflationary pressure could certainly increase the Company's input costs. With the company's policy to keep the prices of its products within affordable range of the masses could adversely affect the company's profits. However the Management is keenly monitoring the cost at each level and shall take appropriate steps to limit its cost to the minimum level and pass on if necessary.

Regulatory Risk :

Government's recent pronouncement of removing the export subsidy came as big setback to Company's export operation. If there is also the pressure of exchange rate from the competitive countries, the Company might need to relook at its export model in future.

The company relies on intellectual property rights and Proprietary rights which may not be adequately protected under current laws. Further, in view of the kind of business in which Company is, it may be subjected to defamation suits, which may have adverse effect on its business.

Regulatory enactments are monitored regularly and the Company shall be de-risking its Education business model from time to time. Further, all necessary legal vetting is done by the management to ensure that Intellectual Property Rights relating to contents/rights have requisite protection.

Corporate Social Responsibility :

Your Company continues to use eco-friendly materials for most of its major products catering to environmental needs and also continues with its corporate social responsibility initiative and donates mainly in areas of medical aid, education and rehabilitation programmes. For FY11 the company donated ₹ 2.74 crore.

The management will continue to fulfill its social responsibility on an ongoing basis towards society in whatever best possible manner.

Internal Controls :

The Company has in place adequate internal control systems, commensurate with its size and nature of operations so as to ensure smoothness of operations and compliance with applicable legislation. The Company has a well-defined system of management reporting and periodic review of business to ensure timely decision-making.

Industrial Relations :

Industrial Relations were cordial at all locations. In a challenging environment and business conditions, the support from the workforce was positive throughout.

Cautionary Statement :

The Management Discussion and Analysis describing the Company's outlook, projections, expectations and estimates regarding future performance are based on current economic scenario. The management believes this scenario to follow as per its expectation to the best of its knowledge at the time of preparation of this report. However, these economic conditions are subject to uncertainties, which could cause actual results to differ materially from those which may be indicated in the above analysis.

(1) COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

The Corporate Governance at Navneet is a combination of several factors to achieve the objectives of transparency, full disclosure, a system of checks and balances between the shareholders, directors, auditors and the management. The Company continuously strives to attain higher levels of accountability, transparency, responsibility and fairness in all aspects of its operations. Navneet's basic philosophy behind an endeavour towards better Corporate Governance is to enrich the value of shareholders by achieving business excellence. Your Company is committed to the principles of good Corporate Governance.
