**EXPLANATORY STATEMENT**  
**(Pursuant to Section 173(2) of the Companies Act, 1956)**

5. The Company is presently engaged in manufacturing of OCTG products used in Oil Exploration, Drilling and Production. Since the setting up of Company's facility for manufacturing of OCTG products, the opportunities for Oil Exploration and drilling of Petroleum products has increased tremendously. The Government of India is entrusting Oil exploration and drilling to Private Sector Companies - both Indian and Foreign. In view of these opportunities the Company feels desirable that the company should be able to start these business activities as and when opportunities arise. The Board is of the view that the new business, if carried on, can under the existing circumstances be combined with the business of the Company conveniently and advantageously.

With major investments by multinational companies in India, in the infrastructural projects in the Oil and Gas, Steel, Power, Building and Roads projects etc. the opportunities have grown multifold in these areas. There is a keen competition amongst the state governments to invite such investments not only from multinational companies but also from the world Bank/Asian Development Bank and other International Funding Institutions, thereby manifold increase in the opportunities in various parts of the countries. The magnitude of the infrastructural projects being large it may, at times become necessary for the company to enter into joint venture with Indian/Multinational Companies for such projects.

**Notice to Members (Contd.,)**

---

The present thrust in the global and domestic market is that of the Information Technology and related Computer Hardware/Software projects for which there is a growing demand at home and abroad. The policies of the Government are highly conducive for developing software for Export Market. The Company has, after careful consideration, decided to diversify and has identified the following areas viz computer hardware, software, networking, information technology and related projects including consultancy, training and trade in the related fields in the domestic as well as global markets.

To enable the company to diversify and take up new activities as detailed above, the objects clause contained in the Memorandum of Association has to be altered/amended as detailed in the Resolution. The proposed activities will be in the best interest of the company and its members.

The Board of Directors commend the Resolution for your approval.

6. In the event of the proposed amendment to the objects clause of the Memorandum of Association of the Company being passed by the members at the meeting it would be necessary for the members under section 149 (2A) of the companies Act to accord their approval to the Company for commencing and undertaking the business as set out in the proposed new clauses 7,8 & 9. The directors recommend the Resolution for adoption.

None of the Directors are concerned/or interested in the Resolution in their individual capacity.
