OPERATIONS:

The gross income of the Company is ₹11.78 Crores during the current financial year 2017-18 as against ₹12.77 Crores during the previous financial year. The very low turnover is due to the abnormal delay in finalization of tenders by the customers on account of changes in Government of India's policy to encourage indigenous manufacturers under the Make in India Policy. Major tenders were finalized by the customers during the last quarter of financial year 2017-18 only and hence low turnover during current financial year 2017-18.

PROSPECTS:

The order book position of the Company stood at ₹270 Crores as at 31st March, 2018. The raw materials procurement against new orders are in place and expected to be received in first quarter of 2018-19. The manufacturing will be taken up thereafter. The Company expects a turnover of around ₹150 Crores during the financial year 2018-19.

The Exploration and Drilling Activities world over has shown an increase with rise in the crude oil prices, now at 74 USD/ Barrel, thereby increasing the requirement of Tubulars and Drilling Products. In India, the Exploration and Drilling activities continue to remain at steady levels and more drilling and exploration activities are expected with the rise in the crude oil prices.

The Government of India has issued the Steel Policy for Domestically Manufactured Iron and Steel Products, including the Seamless Pipes, under the Make in India Policy. Under the Steel Policy, minimum value addition of 15% has been prescribed with input material to be sourced indigenously. The Processors of the Seamless Pipes have to procure the green pipes from the seamless pipe manufacturers in India.

These Policy changes under Make in India Policy will give the necessary thrust to the domestic Industry including Oil & Gas Sector and indigenous manufacturers of various Tubulars and the Company's products required for the Industry.
