a) Review of Operations

The Company's performance during the year has been better than previous year.

The Company's Sales including job charges receipts during the year under review was Rs.756.45 lac as against Rs.114.09 lac of previous year. The production including the job work has decreased to 78.384 M.T. from 932 M.T. in the previous year. However, the trading activities have shown the good performance.

b) Industry structure and Developments

The Company falls in the Textile Sector, which is the largest Industrial Sector in India. It is largest employer in the Manufacturing Sector in India. Exports of Textiles products at around US\$ 13.5 Billion accounting over 25% of total exports of the Country. However the Textile Sector is dominated by the unorganized Sector. One has to compete with this Sector by cutting cost of production as well as focusing on the quality. The Textile Industry after implementation of various remedial measures as the part of economical growth is showing sign of improvement. On the Exports front our Country's position is improving however due to strengthening of Indian currency the export realisation is under pressure.

c) Opportunities and Threats

In USA and EEC Markets there is a rapid consolidation of Manufacturing and retailing activity. Due to which there will be few buyers with muscle power to dictate price and deliver term and therefore supplying Countries and units have to work at optimum costs and provide excellent service. There is also Threat from China and other Countries who are producing large quantities with low overheads, low labor cost and with various concession available to them.

However the production at competitive cost and with good quality will certainly have an edge in Global Market. The concessions offered to the Textile Industry by our Government by cutting custom and excises duties on Textile Machineries and favorable EXIM Policy will help to face challenge in the Global Market.

d) Future Outlook

The long-term outlook for the Yarn Industry is encouraging considering high GDP growth of our Country. However as mentioned above due to shortage of working capital funds the Company could not resume its own production and therefore presently doing Job work only. Company does not have much scope to improve its performance and reap the benefits of improvement in the Yarn Industry. However Company will be certainly benefited by increasing its job work production and by realizing better margin for Job work.

e) Risk and Concerns

Presently the Company is doing job work only, therefore, it does not have much risk and concern for the fluctuation in the Yarn price, which now fluctuates with the change in International prices. There is no risk on the Marketing front. However Company may have to face risk in case it is unable to renew the Job work order or pre-mature-termination of the same.
