Capital Adequacy Ratio

As on 31.03.2002, the capital adequacy ratio was 14.43% as against National Housing Bank requirement of minimum 12% of total risk weighted assets.

Business Outlook

Over the last few years, the housing finance industry has grown by over 28% per annum. The surge in the demand has been due to stable property prices, declining interest rates and tax benefits.

In the last few years, there has been continuous accretion in housing stock but the country still suffers from acute shortage of dwelling units. The only way to convert this demand into effective demand is through continuation of tax incentives, land reforms, simplification of laws etc. which will ultimately make owning a dwelling unit more affordable. The Government will have to continue housing sector reforms, initiated in the last few years, in an effort to make 'Housing for All' a reality.

The business outlook for 2002-03 is positive but there has been growing competition from the banks that have entered the housing finance business on a big scale. They have also taken over accounts of housing finance companies. Due to low cost of funds, banks have reduced the interest rates considerably. Although, the Company has reduced the interest rates, but it could not be matched with banks due to pressure on margins. The industry needs level playing field such as availability of long term funds at competitive rate, reduction in risk weight on housing loans to 50% as per RBI norms for banks and a favorable pre-payment policy of NHB refinance in order to compete with them.

The recovery in the housing sector will improve after the Government has notified Housing Finance Institutions Debt

Recovery Appellate Tribunal (Financial and Administrative Powers) Rules, 2002 on 7th May, 2002. The summary procedure through specialized Recovery Tribunal will ensure speedy realization of housing loan defaults.

During the last financial year, the Company opened four new branches at Gurgaon, NOIDA, Navi Mumbai and Bangalore. The business response at all the four branches was very encouraging.

With this, the total number of branches has increased to 21. The Company has now expanded its reach in the National Capital Territory, state of Kerala, Karnataka, Maharashtra and newly formed state of Uttranchal. Comments from Comptroller and Auditor General of India (CAG)

The CAG in its report on Annual Accounts 2001-02 commented that the Provision for Non Performing Assets is understated by Rs. 45.57 lacs due to short provision in respect of loan assets, which remained doubtful for more than one year. Your Directors clarify as under:

The CAG comment relates to provisioning in two accounts where the company re-negotiated the terms and entered into settlements. In one account, the borrower was to pay Rs. 251.25 lakh from April 2001 to October 2002 as per settlement and all the installments due upto 31.03.2002 have been received. As per settlement, the account will be adjusted by October 2002. In respect of the other account, the borrower has agreed to deliver the possession of mortgaged property in full satisfaction of company's claim before 31.07.2002 as approved by the Board and the account will stand adjusted by 31st July 2002. MoU has already been signed by the borrower with us in this regard. The NHB's guidelines on Asset classification and provisioning require company to continue with the same asset classification and provisioning norms as were applicable prior to its re-negotiation for re-schedulement and not to upgrade/re-classify such NPA accounts where re-schedulement of loan has been made, until the expiry of one year of satisfactory performance. The Company has acted in accordance with these guidelines.

Further, since both the accounts are expected to be liquidated fully within the current financial year, even the existing provision made at 20% shall have to be written back during the year 2002-03. As such in the opinion of the management there is neither under statement of current liabilities and provisions nor over statement of profits by Rs. 45.57 lakh and creation of additional provision of 10% as suggested by CAG shall be unnecessary.

Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988

There were no foreign exchange earnings during the year.
