S D SHROFF

(Known to all as 'Sasubhai')

He dared.

He cared.

He shared.

His vision to grow the company remains.....

Chairman's Message

Dear Members,

It is always a pleasure to interact with you to share the information relating to the business of the Company, its achievements, hindrances and future plans.

As all are aware, the world has passed through deep financial crisis affecting most of the businesses. Similarly, your Company was also affected. In addition to the Global impact, the Company suffered from the fire in one of its major agro chemicals producing plant at Derabassi, Punjab. The fire damaged not only the stocks and various assets but also affected the overall business of the Company. The rehabilitation work of the said plant took 8-9 months which had a consequential impact on the turnover, margins and liquidity. The Company had to resort to the short term borrowings as a stop gap arrangement. This was a costly process.

No doubt, with your good wishes, we have passed through that stage and are on the recovery path. All efforts are being made to run the plant continuously so that the last year gap in production and sale is reduced with the increased production in the current year. The team is fully dedicated and has assured to fulfill that gap. The priority of the management is to look into the liquidity problem, which should not impede the production plans.

As Gita says, the good and difficult times, like seasons come and go, but the determined leaders continue to endeavor with stability and thoughtful actions.

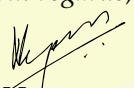

As you are aware that the Company was in the process of infusing equity in the system to ease the liquidity and to pay some high cost debts which were taken for overseas acquisitions few years back. The global financial meltdown and over cautious approach of the investors have delayed the said plan. However, the management is seriously working and hope that during the current year, this will materialise to smoothen the routine functions.

As stated in one of the study, the decade of 2010-2020 is expected to be the golden period for agriculture and agrochemical industry in India. The farmers are more cautious, becoming value and information seekers. This has made them to understand the need to protect farm produce from pests and to fetch lucrative prices. This is a positive trend and your Company will ensure all efforts to make the life of the farmers comfortable. The approach adopted by the Company to manufacture various technical agro chemicals supported with formulation business is the right combination to grow.

Our dream of becoming a 'True Global Company' continues and with all your support, we shall continue to work progressively on this mission.

To conclude, I would like to appreciate the sincerity of all working members of the Company. The support of the bankers and stakeholders had helped us to withstand the difficult time. I, on behalf of my colleagues on the Board, Management, Members of Staff and Operations express deep gratitude to Bankers, Shareholders and all Supporters for their faith in us.

With warm regards,

G. Narayana

Managing Director's Message

Dear Members,

The year 2008-2009 was a difficult one for the Company. The reprieve from the global meltdown began in 2009-10. However, the company suffered a major set back due to fire in one of the key agro chemical manufacturing plant at Derabassi, Punjab in April, 2009. This has affected the turnover of around Rs. 90 crores during the year. The fire not only had an impact on the turnover and bottom line but also disturbed the financial position. The Company started facing severe liquidity problem.

I must thank various bankers and other financiers including suppliers to help the Company in this hour of crisis. My sincere thanks to the buyers of Company's products who understood the problem and have shown confidence in your Company. I must share that the Company has full orders in the current financial year and we should be able to meet the targets as per plan. The bottomline in the year under review may not be encouraging but the outlook as well as efforts to bring back the Company to its normal working and towards further growth are hundred percent. The Agro Chemicals Division should be back on the track in this year and contribute extensively to the growth of the Company.

The available product registrations in India and overseas, mixed product portfolio and efficiency in the manufacturing processes will help the Company to recover fast. There is a tremendous opportunity and to avail the same, the Company is in the process of consolidation of its various activities. This will make the Company more immune to the market turbulence.

The operations of the overseas subsidiary companies have grown. The better results are envisaged in the coming years after proper utilization of the available registrations, products and extensive market. Sintesis Quimica SAIC, Argentina has increased its presence in the local and international Biological Market and have introduced new Insecticides in Soyabean cultivation. The Company is pursuing international alliances with other marketing companies to reach new customers and capture value. Agrichem B.V., the Netherland another subsidiary Company has a wide spread product range in insecticides, herbicides and fungicides with number of registrations in various countries and is expected to perform better in the coming years, with the upbeat mood in Europe.

Our formulation division is maturing and is expected to grow further with manufacturing facility in Baroda and Chiplun in India.

I, on behalf of my team and myself assure all of you that our constant efforts will continue to make all the stakeholders including shareholders happy and feel proud to be associated with the Company.

I would like to place on record my sincere thanks for the full support of all the Directors, their guidance and suggestions to improve the working of the Company. The employees have proved their loyalty with continuous support, patience and commitment to work in the most difficult period. I, on behalf of the management would like to compliment them for their sincerity, loyalty and belongingness.

I, on behalf of the Board of Directors and the 'Team - PCCPL' would like to pay sincere thanks to all of you, the bankers, suppliers, customers and other stakeholders for their unstint support to the Company.

Thanking you,

Shalil Shroff

Carried forward to next year	(5663)	216	(2886)	1226

* Consolidated financial statements for the year ended 31st March, 2010 form part of the Annual Report and Accounts of its Subsidiary Companies.

Figures for the previous year have been regrouped, wherever necessary to make them comparable with figures of the current year.

DIVIDEND

Your Directors have not recommended any dividend for the year 2009-10 keeping in view the loss in the working of the Company.

OPERATIONS

During the year, the total income on standalone basis of the Indian operations was Rs. 325 crores against Rs. 497 crores in the previous year, down by 35%. The decrease in turnover and contribution posted a net loss of Rs. 41.12 crores against the net profit of Rs 5.23 crores in the previous year. The export sales were less at Rs. 107 crores against Rs. 148 crores of last year, also less by 28%.

The year under review was a difficult one. The recession, sluggish export recovery and a slowdown in the financial flow into the economy in the year 2008-09 following the financial crisis remained in the first half of the year under review.

In spite of the beginning of recovery trend in the second half of 2009-10, the Company could not take advantage of the same because of the major fire in one of the agro chemicals plant at Derabassi in April, 2009 (as reported in the last Annual Report). The products affected in the fire were the key products. Rehabilitation work of the said plant could only be completed in December, 2009. The delay in disbursement of claim from the insurance company and non operation of the plant for large part of the year resulted into the liquidity crisis in the Company. The procurement of raw materials and other inputs to achieve full production was not possible in the circumstances. The service of the debts taken for overseas and Indian acquisition put further pressure on the cash
