MESSAGE FROM THE MANAGING DIRECTOR

It is with great pleasure that I present to you the Company's 27th Annual Report for FY19 against the backdrop of India becoming the world's fastest growing economy. At the onset, I would like to thank each shareholder of our Company who has shown utmost trust and confidence on the business model, its management and its business strategy. This trust has led the Company in serving 10,00,000 borrowers in 10 states all over the country. With 62% of Indian population, living in the rural areas gives us the opportunity to serve them even well by enhancing our operations model and leveraging our distribution network, providing tailor-made products for customers and focus of financial inclusion. India is set to have approximately 800 million phone users in India by the end of 2019, due to which we feel a growing need of shifting to e-commerce and digitalizing our business model. As this would not only make it easier for customers but also will make the process of sanctioning loan more efficient and transparent.

I take great pride in announcing that our Company is the first Company to sign a Co-origination Loan Agreement with State Bank of India with a vision of empowering the AGRI, MSME segment and small businesses. We have signed our first Co-origination Loan Agreement with State Bank of India. The goal of this collaboration is to introduce a new platform for the last mile customer. The loan ticket is designed at Rs 10,000 to Rs 2 lakh. The company expects to disburse 200,000 loan applications in FY20. This is a great milestone achieved as with collaboration. we will be able to expand in a much bigger way with a greater force in serving our customers.

With the crisis hit non-banking financial sector, it is understandable to be skeptical about how this will affect the growth of our Company. Firstly, the RBI governor has recently come out with draft guidelines for a robust liquidity framework for NBFCs. Which will give a major boost to the sector and will also help in expansion and making sure the non-banking financial sector is an integral part of the India's booming economy. Continued implementation of structural and financial sector reforms with efforts to reduce public debt and have continuous liquidity in the market to promote self employment, income generation and business development remain essential to secure the Indian economy's growth prospects. The current finance minister Mrs. Nirmala Sitharaman held consultations with financial and capital market stakeholders. Through this it can be understood that the new government is very optimistic about the sector and wants to play a huge role in opening up the horizons for the sector to reach greater heights.

In the near future, we plan to expand and improve our pan India footprint in existing geographies as well as enter new territories that hold new opportunities for the products we deal in. These regions shall provide steady business over the next couple of years as we leverage our existing strengths to grow with a more concerted effort. I would like to assure all the stakeholders that we, team Paisalo, are working with great dedication and commitment to increase value for our stakeholders and the community we serve at large.

At PAISALO, we are very conscious that accelerated growth in our businesse cannot come at the cost of deteriorating environment, social inequality or unfaithful governance. How we do our business is as important as what we do. We remain deeply committed to reducing our environmental footprint and creating positive social impact, while upholding the highest standards of governance and stakeholder returns. Demonstrating trust and integrity in everything we undertake is a reflection of our broader commitment to governance. Our Corporate Governance practices ensure the best interests of our stakeholders are continuously met and satisfied, helping us deliver what our stakeholders expect of PAISALO – the highest possible standards of professional ethics.

Technology today is an extremely important and unique feature across businesses. A strong technological backbone and foundation is now a solvency factor rather than a standout. PAISALO uses technology as the stepping stone to evolve and grow business effectively and efficiently. With PAISALO focusing on ease and customer centric growth with the help of technology and digital becoming the new competitive edge factor, our focus has been to digitally transform business of PAISALO as well provide a technological solution so simple, effective and efficient that it makes the customer experience unique, robust and trustworthy. Over the last one year several initiatives have been undertaken to implement robust, scalable and trustworthy technological architecture which will become the foundation and stepping stone for automated artificial intelligence and machine learning integrated processes that will drive PAISALO efficiency and provide a seamless and easy experience to the borrower.

Lastly, we marked the end of another remarkable year and I would like to thank the Management Team for their firm belief and commitment in the expansion of the Company I would also like to extend my deepest gratitude to the employees for their invaluable contributions to the Company. On behalf of Team Paisalo, I would like to give special thanks to our shareholders, funders, bankers and customers for their continued support and loyalty towards our Company.

With Best Wishes **Sunil Agarwal**Managing Director

PAISALO believes in breaking barriers & limitations to create a positive difference & value for our stakeholders beyond traditional boundaries of doing business.

India definitely remains as a sweet spot for investors as there is huge potential for growth and we are committed to our stakeholders to add value by questioning status quo, challenging current practices and thereby creating opportunities.

We are in a constant search of knowledge and keep on asking ourselves. Can we come up with a better way?

At PAISALO our belief of overcoming limitations has continually inspired us to work towards raising our own benchmark.

PAISALO has always emerged a winner by coming up with its OWN WAY - a sustainable and better way.

PAISALO aims to be Available - Aware - Affordable
