Additional Tax on proposed dividend	4,86,870	7,31,250
Transfer to General Reserve	150,00,000	2,00,00,000
Leaving to be carried forward the sum of	34,54,558	28,49,816

**DIVIDEND:**

Your Directors are pleased to recommend payment of dividend on Equity Shares for the year ended 31st March, 1998 at the rate of Rs.1.50 per share. If approved by the shareholders at the forthcoming Annual General Meeting the Dividend will be paid to those shareholders whose names shall appear in the Register of Members as on 14th September, 1998.

**OPERATIONS:**

Your Company achieved a production of 7.90 lac cases during the current year as compared to 8.58 lac cases in the previous 18 months period ended with 31st March 1997, registering a growth of 38.11% on annualised basis. Correspondingly there was an increase of 37.97% in sales on annualised basis, with 8.03 lac cases sale for the year as compared to 8.73 lac cases sale in the previous 18 months period.

Your Company has achieved a profit before tax at Rs.269.60 lacs for the year as compared to Rs.471.16 lacs in the previous 18 months period. The slight fall in profit on annualised basis was mainly due to a four-fold increase in raw materials cost during the year. However, by continuous improvement of efficiencies and cost reduction measures, your company has been able to keep the impact of increase in raw materials cost to the minimum.

During the year your company commenced production of Sacramental Wine in a small way. Your company is taking conscious efforts on a continuous basis to improve efficiencies and control cost at all levels and barring unforeseen circumstances, the year 1998-99 should be a satisfactory year in all respects.

**Pampasar Distillery Limited****ANNEXURE – I TO THE DIRECTORS' REPORT****DISCLOSURES****A. CONSERVATION OF ENERGY**

Your Company continues to give high priority for conservation of energy on an on going basis keeping in view of the national concern for energy conservation.

**1. Energy Conservation Measures taken**

- Utilisation of bio-gas generated from bio-methanation plant in Boiler as fuel thereby reducing the consumption of paddy husk.
- Installation of DM Plant exclusively for new boiler helped in better heat transfer in boilers which, in turn, reduced the blow down water and maintenance works.
- Power purchased from KEB and power generated from T.G set and D.G set are utilised in such a way that the total cost of electrical energy consumed is the lowest.
- Power factor was improved by installation of additional capacitor at appropriate places.
- Improved water quality to reduce vent losses and better heat transfer in condensers in Still house.

**2. Additional investment and proposals, if any, being implemented for reduction of consumption of energy.**

- Proposed to replace the existing 250 KVA T.G set by 500 KVA T.G set matching with the capacity of new boiler.
- Proposed to put star-delta mode switches in motors, which are being under-utilised.

**3. Impact of the measures taken at 1 and 2 above for reduction of energy consumption and consequent impact on cost of production of goods.**

The above-mentioned measures helped in getting quality products at competitive price.

**B. TECHNOLOGICAL ABSORPTION****1. Specific areas in which R&D carried out by the Company**
