It will be tax free in the hands of recipients and Company will have to pay Corporate tax thereon in the sum of Rs.28.83 lacs.

4. MANAGEMENT DISCUSSION AND ANALYSIS:

A. Business Overview:

The Company's turnover at Rs.183.94 crores recorded an increase of about 7% over that of the previous year. The Operating Profit for the

year (before interest, depreciation and tax) recorded about 19% increase over the previous year. This has been mainly due to rigorous cost reduction as well as productivity enhancement measures implemented by the Company in addition to the reduction in the raw material prices in the global market. The profit before tax for the year, after absorbing Rs.40 lacs towards Voluntary Retirement Schemes was Rs.11.97 crores.

During the year sales quantity of your Company has increased by about 9% to 417 million pieces. Production quantity was 432 million pieces which is 47 million pieces more than previous year.

B. Industry Structure and Development:

Battery Industry has for quite some time shown the signs of higher growth rate and both D segment and AA segment are estimated to grow further in the coming years. Infact double digit growth is expected in AA segment in the coming years. Looking at the spurt in demand in the recent past, the Company has started import and marketing of AAA size batteries in India to cater to the growing requirement of the Customers. However per capita consumption continues to remain low as compared to several developing countries. However, strong growth opportunities would attract new players in the market, and liberalised imports may lead to influx of imported batteries, particularly Chinese batteries.

Your Company also anticipates intensified competition in the domestic market. Further, in the coming year Value Added Tax (VAT) will result in a net increase in tax outgo, thus creating pressure on the bottom line.

In order to meet these challenges and to benefit from growth opportunities, your Company has taken aggressive steps in the areas of new product development, product up-gradation, cost reduction etc. By continuing such efforts in this direction, your Directors are confident of bringing in significant improvement on all fronts.

C. Research & Development:

Increased globalization has made the sale of products and retainment of customers, highly competitive. The need of the hour is high customer satisfaction and value for money from the product. Keeping the above objective as paramount, the research and development activities were focused into attending major customer complaints/suggestions in order to retain customer satisfaction. Your Directors are pleased to inform that the above efforts have lead to considerable reduction of customer complaints. Your company has started launching products of better quality and new aesthetic look as per customer requirements. In particular, we have developed batteries for special applications operatable at different environmental condition to cater defence requirement. Similarly, efforts have been made to make cost effective products through design changes without affecting the quality.

Pursuant to the applicable Rules read with Section 217(1)(e) of the Companies Act, 1956, details relating to Conservation of Energy. Technology Absorption, Foreign Exchange earning and out-go are given in the Annexure forming part of this Report.

D. Exports:

Your Company has continued, during the year under review, to put in all possible efforts to boost exports. It has earned valuable foreign exchange to the tune of Rs.7.59 crores (previous year Rs. 8.72 crores). Price continues to be a key factor and the international events have cast a shadow. Despite this, fresh initiatives are planned to improve the Company's export activities.
