EXPLANATORY STATEMENT

The following explanatory statement, as required under Section 173 of the Companies Act, 1956 sets out all material facts relating to the items of special business mentioned in the accompanying notice dated 31st August 2011

Item No. 5

Mrs. Aartii Topiwaala was appointed as an Additional Director of the Company on 31st day of March, 2011 by the Board of Directors of the Company. According to the provisions of section 260 of the Companies Act, 1956 she holds office only upto the ensuing Annual General Meeting. As required by Section 257 of the Companies Act, 1956, a notice has been received from a Member signifying his intention to propose her appointment as a Director along with a deposit of Rupees Five Hundred. The Board considers it desirable that the Company should continue to avail her services.

None of the Directors except Mr. HitteshBT may be deemed to be concerned or interested in the above resolution.

Item No. 6

Mr. HitteshBT has been in the cosmetics industry for past 19 years. He was appointed as the Managing Director of the Company on 1st August 2005. He has contributed massively in elevating the Company to its current level. Keeping in mind his outstanding work and his role in increasing the profitability and improvement of the overall performance of the Company, the

Board of Directors are considering increase in his salary from 1st April 2011, subject to the approval of the Shareholders of the Company and the Central Government in terms of Section 310 of the Companies Act, 1956 read with Schedule XIII. The Board of Directors has passed a resolution for increase in his remuneration on 10th August 2011 and has approved following increment subject to approval of Members and Central Government as required:

Proposed Remuneration:

- A) Salary: Rs. 72,00,000/- per annum
- B) Perquisites (Including allowances) – Rs. 28,00,000 per annum
- C) Commission @ 5% of the net profit of the Company

The above recommendation has been approved by the Remuneration Committee at its meeting held on 10th August 2011.

The above variation in the terms of remuneration of Mr. HitteshBT as mentioned in Item No. 6 of the Notice will be treated as an abstract under Section 302 of the Companies Act, 1956.

The Members are requested to consider and approve the above proposal for increase in the remuneration of Mr.HitteshBT. None of the Directors except Mr. HitteshBT and Ms. Aartii Topiwaala are concerned or interested in the said resolution.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economy, Industry Structure and Development

The year 2010-11, a year after what may be defined as global economy's worst crisis, the Global production and trade bounced back and the financial markets have recovered faster than expected. The Asian market particularly India and China showed good momentum as compared to the industrialized nations which showed below average growth after the previous year's economic slump. As the world's largest democracy and rising power, India has gradually begun to play a larger role on the international stage. According to CSO (Central Statistical Organisation), India's GDP registered an increase of 8.5 percent in the year 2010-11. In case of the agriculture and allied activities sector, the growth in 2010-11 was 6.6 percent, which is much higher than what was anticipated.

As far as the Indian cosmetics industry is concerned, in 2009, it has registered sales of INR 356.6 Billion (US\$ 7.1 Billion) despite the global economic recession. It has witnessed strong growth during past few years and has emerged as one of the industry holding immense future growth potential. The cosmetics industry registered impressive sales worth Rs. 422.3 billion (US\$ 9.3 billion) in 2010. Considering the improved purchasing power and rising fashion consciousness in Indian Population more brands are being launched and industry players are spending readily on the promotional activities to increase consumer awareness. With increased awakening about cosmetics brands, which is evident even in rural India, the industry size will grow significantly and in coming years it is expected to grow by more than 20%.

According to the industry's estimate, the Indian cosmetics sector is expected to witness impressive growth rate in the near future owing to rising beauty concern of both men and women. The industry holds promising growth prospects for both existing and new players. Improvement and strengthening of the Indian economy from 2010 will also pave the way for the growth of consumer demand in Indian cosmetics market in the coming years.

Developments in the Company during the year:

Domestic cosmetics and toiletries industry has been growing at more than 20 per cent over the last few years, but India is a price sensitive market. Companies need to work out innovative strategies to establish a foothold here. Market for Indian traditional cosmetic products like bindis, kumkum and kajal is very large and scattered among the unbranded products from unorganized sectors. In the organized sector, "Shilpa" is one of the leading brands and commands immense brand equity among the consumers.

The Company has started the process to re-launch the existing products with attractive packaging and extensive marketing. In addition to the range of products in traditional cosmetic category for women, the Company has launched products in modern cosmetics for personal care, hair care and skin care for men and women. To broaden the consumer base during the year the Company has taken a major step of tying up with various Modern Trade and Premium outlets.

Encouraged by the initial response of the consumers for the new products in the men and women personal care range and cosmetic range, the Company is planning to come out with further new products in various categories of cosmetics in the year 2011-12. Post this product launch the Company is looking forward to a noteworthy growth in business volume from 2012-13 onwards, as the year 2011-12 will be that of stabilising the positioning of the products launched by the Company after initial push in the year under review.

The Company has already started to work towards setting a state of the art manufacturing facility for traditional and modern cosmetic products for men and women. On completion of this green field project, the Company will have its own manufacturing set up of international standards to manufacture various cosmetics in different categories. This will result in, reduced dependency on third party manufacturers and further cost savings.

Financial Analysis

a. Sales and other income

The Sales and other income of your Company for the year was Rs. 4406.06 lakh as against Rs. 2894.98 lakh in the previous year, showing an outstanding growth of 52% over the previous year.

b. Material Costs

The material costs for the year were Rs. 3229.57 lakh as against Rs. 1898.42 lakh in the previous year. The material costs have increased by 70% due to increase in the costs of various basic materials and procurement of semi finished products to support the increase in the sales volumes.

c. Employment Costs

The expenses pertaining to employment cost has decreased from Rs. 349.17 lakh in the previous year to Rs. 320.89 lakh showing decrease of 8%. The main reason attributing to the same is proper synchronisation of manpower in the organisation.

d. Operational and other expenses

During the year under review, the operational and other expenses, as compared to the previous year, have increased by 10 % from Rs. 408.85 lakh to Rs. 449.22 lakh in 2010-11. The main reason attributing to the same is the increase in overall cost of operation.

e. Interest

The interest paid has increased from Rs. 106.07 lakh in the previous year to Rs. 171.09 lakh in the current year showing an increase of 61 % over the last year. The interest cost has gone up due to upward growth of interest rates and increased utilization of working capital facilities by the Company.

f. Depreciation

The depreciation for the year was Rs. 40.39 lakh as against Rs. 35.92 lakh in the previous year showing an increase of 12 % due to addition of fixed assets.

g. Profit Before Tax

Profit before tax (PBT) stood at Rs. 150.90 lakh as against Rs. 113.43 lakh in the previous year, showing an increase of Rs. 37.47 lakh i.e., 33 %. The increase in the PBT was mainly due to an increase in the sales turnover and increase in other income.

h. Profit After tax

Profit after tax (PAT) stood at Rs. 144.07 lakh as against Rs. 110.40 lakh in the previous year, showing a increase of Rs. 33.67 lakh i.e., 30 %. (Profit after tax taken after deducting of prior period expenses in the current year and previous year also).

OPPORTUNITIES AND THREATS**Opportunities**

The Company's brand is mainly known for bindi and other traditional cosmetic products. However the launch of modern cosmetic products for women under the Company's brand has resulted into higher recognition and acceptance of the product by the user. The Company plans to launch many more modern cosmetics products under the various brands in the coming years.

The cosmetics industry, traditionally believed to target women, has a new target segment: Men. No longer do cosmetics represent a 'women only' market. Many players are coming up with personal care and skin care products for men also. The products under 'Instinct' brand for men in personal care, hair care and skin care category is having tremendous potential. The Company has launched the products in these categories for men and will be coming out with more new products.

The personal care and skin care products which were considered to be for the upper class of the society have now become common for the middle class and even in rural markets. This is mainly due to an increase in the purchasing power. Also, the awareness for skin care and personal care has increased in the consumer's mind.

The overall cosmetics and toiletries industry is having a very huge potential. The Company has planned to launch further personal care products and penetrate into this market.

Threats

The main threat to our brands of traditional cosmetics is from the spurious products dumped in the market by the unorganized sector using our brand names, especially 'Shilpa'. Another threat to 'Shilpa' can be due to the change in consumer behaviour. Even with the apparent growth of the cosmetic industry during the past four decades, there are currently many growing cosmetic companies competing in the market. Additionally, there are also market leaders that dominate the cosmetic industry and also there are many international companies dumping their products in the Indian market. The increased inclination of consumer towards the international products creates stiff and intensifying competition especially to smaller companies.

Outlook

It is believed that India's GDP will continue to grow robustly in coming years. FMCG categories have very good potential to grow, as the current per capita consumption levels are still low, compared even to some other Developing and Emerging economies like China, Indonesia, Thailand, etc. Increased per capita income will also provide opportunities to consumers for brand experiences. Significant upward trends due to global triggers could cause unit prices of products to rise and consequently slow down market growth. Your Company will continue to focus on both development and expansion of markets and share gains as appropriate to secure competitive growth. Underlying volume growth is a key requirement to deliver this. Managing margins through judicious pricing and sustained efficiencies and cost saving will receive constant attention.

Risks and Concerns

Major risks identified are systematically addressed through mitigating actions on a continuing basis. Some of the risks relate to economic volatility, competitive intensity and slower market growth. In order to ensure long term corporate success, it is essential to identify, analyze and find solutions for these risks.

One of the key risks faced by the Company is an increase in the imitation / fake products and brands which can hamper our growth. However, the Company is well aware of these risks and challenges and has put in place mechanisms to mitigate the same.

Internal Control Systems

The Company has an Internal Audit and control system, manned and managed by qualified and experienced people. Company's internal control systems are well commensurate with the nature of its business and the size and complexity of its operations. These are routinely tested and cover all the offices, factories and key areas of business. Significant audit observations and follow up actions thereon are reported to the Audit Committee. Audit Committee reviews the adequacy and effectiveness of the Company's internal control and monitors the implementation of audit recommendations including those relating to strengthening of the Company's systems.

Cautionary Statement

Statements in this Report, particularly those which relate to Management Discussion and Analysis, describing the Company's objectives, projections, estimates and expectations may constitute 'forward looking statements' within the meaning of applicable laws and regulations. Actual results might differ materially from those either expressed or implied.
