engineering...

The business of Pennar Industries Limited rides the growth of prominent national sectors like railways, power, logistics and water treatment.

During a weak 2013-14, these sectors reported a slowdown, which inevitably translated into slower growth at Pennar Industries.

And yet, Pennar Industries reported an EBIDTA margin of 7.2 per cent, a cash profit of ₹27.86 crore and a receivables cycle of no more than 89 days of its turnover equivalent.

Passion made all the difference.

٦

.

Parentage

Pennar Industries Limited is a prominent three decade old engineering enterprise respected for its expertise in best-in-class products and services. The Company commissioned its first manufacturing plant at Isnapur (near Hyderabad) in 1988 with an installed capacity to manufacture of 30,000 MTPA of coldrolled steel strips. Headquartered in Hyderabad, Pennar Industries enjoys a pan-India manufacturing presence with six facilities across the country.

In addition to its core business, Pennar

Pennar Engineered Building Systems is

has created two subsidiaries.

Products

Pennar is a multi-location, multiproduct organisation (300,000 MTPA) manufacturing precision engineering products like cold-rolled steel strips, precision tubes, railway wagons/coaches, pre-engineered building systems, sheet metal components, road safety systems, hydraulics and warehousing solutions.

The Company's products service growing needs of downstream sectors like infrastructure, automobiles, power, general engineering and construction among others. The Company doesn't just offer products to customers but turnkey engineering solutions.

Chairman's OVErview

Dear Shareholders,

THE FINANCIAL YEAR OF 2013-14 WAS ONE OF THE MOST CHALLENGING ENCOUNTERED BY YOUR COMPANY IN YEARS.

The country's manufacturing sector was constrained

by expansion challenges, high resource costs, economic slowdown and inadequate infrastructure creation. The automotive and infrastructure sectors, core to the country's manufacturing demand, experienced a demand contraction, coupled with inadequate capacity expansion, economic stagnation, weak customer confidence, persistent inflation and currency volatility.

The fact that your Company

demonstrated a relative resistance to the sectoral trough and a tendency to rebound faster during periods of recovery, is an index of its deep competitiveness. In doing so, Pennar Industries reported a gross turnover of ₹851.7 crore in FY 14, outperforming the country's manufacturing sector.

The core reason for Pennar's

outperformance was its sustained emphasis in transitioning from a fabrication outfit into an engineering organisation. During the slowdown, the Company was faced with the prospect of staggering investments, lying low and waiting for the storm to blow over. On the contrary, Pennar diversified its product range within each segment, increasing its addressable market. The Company introduced products like hydraulic cylinders and pressed components for export as well as CDW tubes and fabricated products. The widened product mix helped extend the Company's risk profile and cushion it against the full brunt of the slowdown.

And nowhere was the Company's counter-cyclical positioning better reflected than in the performance of its subsidiary Pennar Engineered Building Systems Limited, now one of the leading pre-engineering building solutions players in India. PEBSL built a strong order book including significant

strong order book including significant repeat orders from existing customers, showcasing deep customer trust. This trust translated into a superior

Pennar diversified its product range within each segment, increasing its addressable market.

performance: the subsidiary recorded sales worth ₹417.2 crore during the year under review, a 28% growth over the previous year; PEBSL recorded a PBIDT of ₹37.14 crore and a post-tax profit of ₹18.3 crore over the previous year, accounting for 5 per cent of the Company's bottomline. As on March 31, 2014, PEBSL enjoyed an order book of ₹325 crore, indicating attractive revenue visibility and prospects of robust growth ahead.

Pennar Industries widened its business mix through a growing presence in futuristic sunrise businesses. For instance, Pennar's new subsidiary Pennar Enviro Ltd. is engaged in water and waste water treatment projects, fuel additives and water treatment chemicals. The competitive positioning of the subsidiary is reflected in its robust order book from reputed customers (L&T, JSW, SLN Coffee, NSL Group and Kohinoor Group), which should translate into a significant sales improvement in FY15. Even as the year under review was challenging, the outlook for the Indian economy appears encouraging. The 2014 elections brought about a breath of fresh air to the Indian mood, mindset and economy.

The new government has promised

to make significant changes to rebuild the Indian economy, outlining a wider vision for various sectors which should translate into higher investments and quicker projects execution. The result is that India's forex reserves increased significantly following the elections, indicating enhanced confidence from foreign investors, while the IMF projected that India's GDP growth could rebound from 4.7% to 5.4% in FY 15.

The optimism is expected to translate into optimistic realities for various downstream sectors addressed by your Company's businesses. For instance, the Indian Government outlined significant investments in the country's railways sector, sanctioning a higher Plan outlay of ₹65,445 crore with a budgetary support of ₹30,100 crore.

With the feel good factor and

renewed confidence of the manufacturing sector, the economy is expected to revert to its erstwhile growth rate. Your Company plans to strengthen its performance in the current year through fresh product development and wider application of existing products, the combination of both translating into higher profits.

I thank the shareholders for their commitment and promise that your Company shall remain committed to enhance excellence and fortify customer relationships, translating into enhanced value in the hands of all those who hold a stake in the Company.

With best wishes,

Nrupender Rao Chairman

Managing Director's

Dear stakeholders, PENNAR INDUSTRIES LIMITED IS ONE OF INDIA'S LARGEST PROVIDERS OF VALUE-ADDED ENGINEERED PRODUCTS AND SERVICES. **OVER** the past 35 years, evolved into a major engineering solutions provider to demanding customers from the infrastructure, automotive, railways and general engineering sectors.

This report gives me the opportunity to present our recent performance, revenue and profitability. More importantly, the report provides me with the opportunity to acquaint you with our strategy to emerge as a strong engineering company with a widening footprint (pan-India and global) and a billion dollars in revenues over the next few years.

2013-14 overview

Pennar Industries offers products and solutions through four strategic business units (SBUs) and two subsidiaries.

The four SBUs of the Company comprise: Systems and Projects Industrial Components Precision Tubes Steel Products The two subsidiaries of the Company comprise: Pennar Engineered Building Systems Limited Pennar Enviro Limited
