Review of the operations of Sugar Mill**1) Sugar Mill**

Sugar Mill commenced crushing operations for the season 2010-11 on 5.12.2010 and closed on 04/04/2011. The comparative operational results over the last two seasons are as follows:

Particulars	Season 2010-11	Season 2009-10
Duration (Days)	121	110
Sugarcane Crushed (Quintals)	3388670	2910239
Recovery (%)	9.40	9.43
Sugar produced (Quintals)	320280	275275

During the season, the mill operated for 121 days and crushed 33.88 Lac Quintals of sugar cane. The Sugar Mill has produced 320280 quintals of Sugar at an average recovery of 9.40%. The mill also produced 163880 quintals of molasses at an average recovery of 4.83%.

The Sugar unit of the company has achieved turnover (net of excise) & other income of Rs 7115.67 lacs and earned profit before interest & depreciation of Rs 683.33 lacs.

2) Others

The Distillery has produced 5889416 & sold 5896485 cases of country liquor. The products of the distillery continue to be well accepted by the people and have become popular brands in the State of Haryana. The distillery division has achieved a turnover & other income of Rs 15101.75 lacs.

Dividend

Your Directors have recommended a dividend of 20 % (Rs 2/- per equity share) for the financial year ended 31st March 2011 amounting to Rs.550.04 lacs (inclusive of tax of Rs 78.34 lacs). The dividend will be paid to the members whose names appear in the register of Members as on Friday 23rd September, 2011 ; in respect of shares held in dematerialised form, it will be paid to members whose names are furnished by National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) as beneficial owners as on that date.

Indian Sugar Industry

During the season 2010-2011 (October-September) sugar output is likely to see a rise of 30-35% as compared to previous season. The sugar output in India, in the season 2010-2011 is estimated around 24.2 million tones, as compared to 18.80 million tones previous season 2009-2010. Growth in production is mainly due to improved cane acreage in response to healthy cane prices paid by mills in the current season & adequate rainfall.

The government has recently allowed exports of 10,00,000 tonnes of sugar under the open general license after a gap of almost two years because of higher output. It is also expected that government will further allow exports of sugar by another 5,00,000 tonnes in the month of August 2011.

Directors

Auditors

M/s. Jain & Associates, Chartered Accountants Chandigarh, the Statutory Auditors of the Company, retiring at the conclusion of this Annual General Meeting and being eligible offer themselves for re-appointment.

The Company has received letter from Statutory Auditors M/s. Jain & Associates, Chartered Accountants to the effect that their re-appointment, if made would be within the prescribed limits under section 224(1B) of the Companies Act 1956 and that they are not disqualified for reappointment within the meaning of Section 226 of the said act.

The Notes on Accounts referred to in the Auditors report are self explanatory and do not call any further comments.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The past two sugar seasons i.e. 2008-2009 and 2009-2010 have been very difficult years for Indian Sugar industry with regard to the availability of sugar cane and production of sugar. The country had to import substantial quantities of sugar to supplement the domestic availability. Lower production of sugar coupled with high import prices resulted in high domestic prices of sugar during the season 2009-2010. The Indian Sugar Mills Association (ISMA) has estimated production of sugar for the season 2010-2011 around 24.2 million tones against the domestic consumption of 22 million tones. The rise in the production is due to payment of high Sugar cane prices & good rainfall has encouraged towards sowing more sugar cane. Our country has got an opening balance of sugar over 5 million tones and there is an excess production of sugar around 3 million tones during the season 2010-2011.

The cane cost comprises about 70% of the Sugar sales realization and almost all the countries follow a practice of cane price payment linked to the sugar price one or both by -products price. It is general understanding that the linkage of cane price to sugar price will ensure a more stable sugar production and less volatility in the availability of sugar.

Future prospects

India's sugar cane acreage is likely to rise in 2011-12 as farmers still find that the sugarcane crop is remunerative over other competing crops, raising hopes that the world's biggest sugar consumers will have surplus for the second straight year beginning October 2011. Sugar output of India, the world's second largest producer could rise by about 10% to 26.5 million tones in 2011-2012. (Source ISMA Publication). The government has recently allowed exports of 10,00,000 tonnes of sugar under the open general license after a gap of almost two years because of higher output. It is also expected that government will further allow exports of sugar by another 5,00,000 tonnes in the month of August 2011.

Ethanol

Ethanol besides being a green and renewable fuel, gives an assured demand for an agriculture produce, which directly helps Sugar industry and Sugarcane farmers by way of better realization and stable prices. Blending of Ethanol with petrol substitute's import of petrol to the extent of 5% Petrol consumption.

The Oil Marketing Companies have executed contracts for the supply of 60 Crore Litres of Ethanol against a total requirement of 100 Crore Litres of Ethanol. at a price of Rs 27/- per liter, for their requirement for 5% mandatory blending during the season 2010-11.

Distillery

The Rectified Spirit (RS) & Extra Neutral Alcohol (ENA) plants are designed & executed by M/s Destichem & Praj Industries Industries Limited the renowned companies. Along with this the company also installed fermentation house to cope up to supply quality wash to most modern installation of RS & ENA plant & are gradually expanding the existing unit by inducting ultra modern machineries. Due to the shortage of molasses, further Grain plants have been setup for the manufacture of RS & ENA from grain.

The year wise production of country Liquor of distillery unit is as under:

Financial Year	Number of Cases(in lac)
2007-08	21.77
2008-09	27.40
2009-10	37.95
2010-11	58.89

The company has further extended the facility of bottling to M/s United Spirits Limited (McDowell) for the manufacture of Indian made Foreign Liquor (IMFL) upto 1 lac cases per month.

The Distillery unit meets with 100% pollution control norms. The treated effluent is mixed & cured with organic mass like press mud/ spent wash suitable for organic manures to manufacture Bio Compost a Bio fertilizer used successfully in growing the crops. The company has therefore installed BIOGas digester, Evaporator Decanter. & composting yard.

Out Look / Projection:

The company's projection on crushing of Sugarcane for the current year 2011-2012 is 40 lac quintals and Production /Sale of 60.00 Lac cases of Liquor. Company has been making all out efforts to encourage & motivate the farmers to cultivate the crop of sugarcane by providing the cane loans, pesticides, seeds to the cane growers.

Risk and Concern

The urban people in India are now becoming health conscious and firmly believe that consuming of sugar in any form has adverse effect on human health. As a result of this people have restricted the consumption of sugar. Studies by various health organizations have found no evidence where the sugar has been related to diabetics or any other illness. However, consumption of sugar in India has been continuously rising.

Internal Control System & their adequacy

The auditors have felt that the company has a reasonable system of authorization at proper levels with necessary controls on the purchase of sugar cane, issue of materials and components & other related system of Internal control is commensurate with the size of the company. They also felt that the company has a reasonable system of recording receipts of raw materials and components and the company is recording the sales and purchase through the software. The software engineers regularly check software programme.

Material Development in HRD/IR

The company has appointed regular staff, technical staff, cane staff along with contractual & seasonal staff for the efficient working units of the company.

CORPORATE GOVERNANCE REPORT

In compliance with the Corporate Governance requirements as stipulated in clause 49 of the Listing Agreement with the Stock Exchange, the company has been incorporating for the past few years, a separate section on Corporate Governance in its Annual Report.
