MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Sugar industry majorly contributes to the Indian economy by way of directly paying about 5500 cores annually to farmers for their sugarcane and by way to fully catering to the domestic demand of sugar as well as earning some foreign exchange by exporting some surplus sugar. The industry is also contributing to economy through better utilization of its by products viz- molasses, co-generation and press mud and helps reduce dependence on fossil fuel.

Typically sugar follows a five year cycle, wherein the production is high in the first three years. In the remaining two years, production comes down as farmers switch over to other crops. Now after three years of high Sugar output, country is looking forward with good output in the next two years.

Future prospects

As per estimates ISMA (Indian Sugar Mills Association) the production in the ensuing season 2012-13 will be higher than the domestic consumption of 22.00 million tones and country will continue to export sugar and based on current sowing, sugar production would touch 25.00 million tones.

Ethanol

Sugar Industry and Ethanol manufacturers have been supplying Ethanol for the last 1- ½ years at provisional price of Rs.27.00 per liter even though their alternate products from molasses are fetching more prices. At present OMCs are saving Rs.20 per Liter of ethanol produced for the blending purpose. The Saumitra Chaudhuri committee (setup by Government of India) submitted its final pricing policy report suggesting linkage of ethanol price with petrol price is not finalized by Government.

Distillery

During the year company has produced 25,78,023 bulk liters of rectified spirit, 32,99,918 bulk liters of ENA & purchased 1,11, 88,000 bulk liters of rectified spirit from the market.

The products of the Distillery continue to be top preference of the people due to better quality & taste.

The year wise production of country Liquor of distillery unit is as under:

Financial Year	Number of Cases(in lac)
2009-10	37.95
2010-11	58.89
2011-12	60.33

The demand for the products of the distillery continues to grow and as well as sales of the company.

The company has further extended the lease facility of bottling to M/s United Spirits Limited (McDowell) for the manufacture of Indian made Foreign Liquor (IMFL) upto 1 lac cases per month.

The Distillery unit meets with 100% pollution control norms.

Out Look / Projection:

The company's projection on crushing of Sugarcane for the current year 2012-2013 is 40 lac quintals and Production /Sale of 72.00 Lac cases of Liquor. Company has been making all out efforts to encourage & motivate the farmers to cultivate the crop of sugarcane by providing the cane loans amounting to Rs. 343.68 lacs, pesticides, seeds to the cane growers during the year.

Risk and Concern

The obligation of sugar mills to supply 10% of production as Levy Sugar at a much lower market price for state run welfare programmes, sugar release mechanism for sale of sugar and higher prices of cane fixed by states.

Internal Control System & their adequacy

The auditors have felt that the company has a reasonable system of authorization at proper levels with necessary controls on the purchase of sugar cane, issue of materials and components & other related system of Internal control is commensurate with the size of the company. They also felt that the company has a reasonable system of recording receipts of raw materials and components and the company is recording the sales and purchase through the software. The Software engineers regularly check software programme.

Material Development in HRD/IR

The company has appointed regular staff, technical staff, cane staff along with contractual & seasonal staff for the efficient working units of the company.
