International Markets were not favourable and disappointments on macro front locally were the major factors affecting the capital markets. In order to control high inflation, RBI has continued tighter monetary policies resulting in higher interest rates on the borrowings by the various Companies affecting their margins. The economy has grown by about 5% in 2014-2015 and RBI has pegged the GDP growth for the current fiscal year at the same level.

There is no change in the nature of the business of the Company. There were no significant orders passed by regulators neither there were any material changes and commitments effecting the financial position of the company.

The company has in place an internal control system which ensures proper recording of financial information and various regulatory and statutory compliances. The Company has in place a proper and efficient Risk Assessment and Minimization Programme.
