6. MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT

(i) Industry Structure and Developments

Growth of coated papers segment is inextricably linked to structural economic factors like improvements in literacy rates, higher spending on education and growth of print and the media industry.

Given its low per capita paper consumption base of 5 kgs compared to the world average of 54 Kgs, demand for all grades of papers and boards in the country has got to increase at a healthy rate. Coated papers and boards segment has been witnessing higher rate of growth, in particular.

Apart from a few large paper mills, sizeable portion of the demand for Coated papers and boards is catered to by medium/small sized manufacturers.

(ii) Opportunities and Threats

With changes in copier and printer technology, there is greater consumer sensitivity to the quality of branded papers. Our branded copier paper has started gaining acceptance and popularity in various markets.

The problem of low priced Coated papers dumped into India by some vested interests is continuing unabated. Such clandestine imports are posing severe threats to the indigenous industry.

(iii) Segment-wise or Product-wise Performance.

The company is primarily engaged in the manufacture of one-side and two-sides Coated papers and Boards, branded photocopier and S S Maplitho. Besides trading in imported paper.

Pitambar Coated Papers Limited

(iv) Outlook

Due to High imports of Coated Papers and excess capacity of Uncoated Papers the outlook for recycle based paper industry is very grim. Hence the Directors are looking for other options either in Paper Industry or in any other industries to overcome the down trend and revive the company.

(v) Risks and Concerns

There is no perceptible risk the company can think of at the moment. It is, however, a matter of concern that prices of all the critical inputs are continuing to rise steeply thereby affecting the profitability of paper industry.

(vi) Internal control systems and adequacy

The company follows sound and healthy business practices in all facets of its operations and conducts its business in a transparent manner.

(vii) Discussion on financial performance with respect to operational performance.

There has been drop in the production and sales during the period under review and the main causatory factor has been suspension of the company's operations for a couple of days wing to poor sale and non-availability of labor, quality waste paper, dumping of imported paper and high input cost. The company, therefore, failed to maintain regular and economical level of production which ipso facto resulted into low turnover and consequential losses.

The company is making every possible effort to achieve and maintain economical level of production.

(viii) Material developments in human resources/ industrial relations front including number of people employed

During the financial year under review, it would be observed that no major additions are being done to avoid overstaffing. Exgratia, etc. is being provided to workers for motivation and promoting higher efficiency at lower levels.

7. Remuneration Committee

Since the company has not been paying any managerial remuneration to any managerial person, as such, no "Remuneration Committee" has been constituted.
