PROJECT IMPLEMENTATION AND FINANCE

In the last Directors' Report, the members had been informed that the Company had re-approached the Financial institutions through IDBI to make available the funds needed to fill up the gap in project finance. Financial institutions had agreed in principle to freshly provide an amount of Rs.1955 Lakhs by way of subscription to 16% Non Convertible Debentures (NCDs).

Unfortunately, out of the total financial assistance of Rs.1955 lacs, the Company received disbursement of financial assistance of Rs.570 lacs from IDBI on 9.10.1998 and Rs.196 lacs from UTI on 27.10.1999. Except IDBI and UTI no other participating financial institutions have yet disbursed their respective shares.

The disbursement of the remaining Rs.1189 Lakhs from other financial institutions is being pursued vigorously. Subject to the availability of these funds, the project is expected to be completed by the end of the current financial year and will go in commercial production as soon as the project is fully completed.

WORKING CAPITAL

The State Bank of India had earlier extended facility of working capital. Due to delay in implementation of the Project and accrued losses, the account with the Bank had become irregular and even Bank had initiated legal action against the Company. However, the Company has been negotiating with the Bank to regularise the account and requested for new working capital facilities. The State Bank of India has in principle agreed to examine the rehabilitation/restructuring proposal of the Company including sanctioning of need based working capital favourably. The officials of SBI had undertaken a visit to our factory in Assam to assess the readiness of the Plant. We are in constant touch with SBI on the preparation of the rehabilitation/ restructuring proposal and working out the requirement of working capital facility to the Company.

No other bank having so far come forward to form a consortium, the position of the Company with regard to its total requirement of working capital has been causing concern. The Company is doing its best to resolve the matter with the help of all concerned, the Central and State Government and IDBI.

We are hopeful that the SBI shall provide the need based working capital to the Company.

OPERATIONS

Over and above the non availability of working capital, there is non availability of quality power from Assam State Electricity Board. If the plant is operated under these circumstances, it would be highly loss making and as such the textile division and three extruder spinning lines which had been commissioned, remain closed, since August, 1998. Most of the operating staff have been laid off in order to minimise the financial burden to the Company. The final completion of the plant is being done solely with the loan funds from the financial institutions.

Upon full completion of the project, the viability would improve through economy of scale. The problems of working capital and power supply are also expected to be resolved by that time.

PROSPECTS

Thanks to the most favourable patronage extended by the Government of India and Assam, the Company is seeing bright prospects in the times to come, particularly aided by the package of incentives announced by the Central Government for developing the industries in the North Eastern Region. The Government of India came out with the issuance of various Notifications in the matter of the earlier announced package of incentives for industrial development of the North East. The matter is being dealt with the following :

- (1) Central Excise Reimbursement
- (2) Central Comprehensive Insurance Refund
- (3) 3% Reduction in Interest Rate on Working Capital
- (4) Extension of Ongoing Transport Subsidy
- (5) Income tax and Central Sales Tax Exemptions.

(All for 10 years)

The Company will be enabled to withstand competition with the help of above stated reliefs and incentives.
