PERFORMANCE REVIEW

During the year under review, the Company incurred an operating loss of Rs. 10.64 lacs (previous year operating profit of Rs. 66.17 lacs) on a net sales turn over of Rs. 2,546.02 lacs (previous year Rs 1,885.79 lacs). Steep rise in raw material cost and depressed yarn prices were main reasons for the loss. Increased power cost also significantly impacted the profitability.

BIFR

Though the company's net worth has turned positive, during the year under review, by the virtue of infusion of fresh capital by the co promoters as per the BIFR order, the unit is yet to attain the earning levels estimated in the sanctioned scheme. With the improved demand for textiles, your directors expect the unit to perform better in the years to come. The Company would await the BIFR's further directions when annual review takes place.

BUSINESS OUTLOOK

The domestic textile market continues to suffer from the contagion effect of the sluggish global demand for cotton yarn. Consequently, the local yarn prices remained depressed for most of the year under review.

However, raw material prices were higher compared to international prices, primarily on account of the minimum support price announced by the Govt. for cotton, which was higher by about 30% than the previous season.

Of late, the prices of cotton and yarn have started correcting for the better, which augurs well for the industry.

DIVIDEND

Due to losses, the Directors are unable to recommend dividend for the year.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Indian spinning industry enjoys a predominant position in the domestic and international yarn trade. With about 41 mn. spindles, this segment of the textile industry, is still expanding and modernizing itself, being the single largest beneficiary under the Technology Upgradation Scheme of the Government of India.

Most of the spindles are in the organized sector with medium and large scale units. The spinning units are efficiently run and thus compete very well in terms of cost of production with the global players.

Besides exporting nearly 12% of its production, the spinning units cater to the ever growing domestic demand.

Your company has been in the carded yarn business and has established a name in the domestic market. The facilities at the unit have been streamlined and aligned to produce the best quality of yarns at competitive costs. The unit has moved in to higher value addition by producing finer counts of carded yarn.

OPPORTUNITIES AND THREATS

Due to general economic slow down globally, the domestic market had also faced slump in demand for cotton yarn. Despite this, during the year under review, the sales grew by about 35% over that of the previous year.

With the same back process capacity, the unit can expand further up to 4000 spindles to optimize its production. Steps will be taken at appropriate time to enhance the capacity to take advantage of this situation. Minimum support prices announced by the Government have ensured that the cotton prices remained firm during the last procurement season. However, the yarn prices did not respond positively due to lower demand, seriously impacting the margin. Cost of the other major input, the power, also rose sharply exerting upward pressure on the production cost.

While the prices of cotton have since stabilised, those of yarn have improved on better business sentiments. The MSP is expected to attract larger area under cultivation

this season and thus higher crop, which will be beneficial for the industry as a whole.

RISKS AND CONCERNS

Cotton production depends on the vagaries of monsoon. Procurement of raw material at right prices is the key to yarn prices remaining cost competitive.

Since the company is an OTS accounts with the banks, it has not been able to raise adequate finance for its working capital requirements. However, the company expects to correct this position by involving the parent company for the purpose.

OUTLOOK

There is spurt in demand both in domestic and international markets, of late, and as a result, yarn prices have started looking up. This probably signals end of the sluggish phase of demand conditions. Overall outlook continues to be promising.

SEGMENT

The company is engaged in one segment i.e. textiles.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The company has in place an elaborate internal control system to ensure proper authorization and accounting of transactions as also for safeguarding and protecting company's assets against loss. The internal auditors check the controls periodically and their report is reviewed by the management and the Audit Committee from time to time. The management feels that the system of internal controls is adequate considering the size of operations of the company.

HUMAN RESOURCES

During the year, labour relations continued to be cordial. Particulars of employees in accordance with the provisions of Section 217(2A) of the Companies Act, 1956, read with the Companies (Particulars of Employees) Rules, 1975, as amended, are not given, as none of the employees qualify for such disclosure.

CORPORATE GOVERNANCE

The corporate governance report together with a certificate from the Company's auditors confirming compliance of guidelines are made part of this Report as per clause 49 of the listing agreement entered into with the stock exchanges.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to the requirement under section 217 (2AA) of the Companies Act, 1956, with respect to Directors' Responsibility Statement, it is hereby confirmed:

- a) that in the preparation of the accounts for the financial year ended on 31st March 2009, the applicable accounting standards have been followed and there are no material departures.

- b) that the Directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit of the company for the year under review.
- c) that the Directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956, for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities.
- d) that the Directors have prepared the annual accounts ended on 31st March 2009 on a 'going concern' basis.

DIRECTORS

In accordance with the provisions of the Companies Act, 1956, Mr. R Anand, Mr Kamal Mitra retire by rotation and being eligible, offer themselves for reappointment.

AUDITORS

M/s. B K Shroff and Co., Chartered Accountants retire at the end of this Annual General Meeting and are eligible for reappointment as auditors.

The observations of Auditors as referred in Auditors' Report are suitably explained in the Notes on Accounts and therefore do not call for any further comments.
