EXPLANATORY STATEMENT

[Pursuant to Section 173(2) of the Companies Act, 1956]

In respect of Item No. 4

The equity shares of the company are presently listed at the following Stock Exchanges:

- The Delhi Stock Exchange Association Ltd., DSE House, 3/1, Asaf Ali Road, New Delhi. (DSE)
- The Stock Exchange – Mumbai, Pheroze Jeejeebhoy Towers, Dalal Street, Mumbai. (BSE)
- The Calcutta Stock Exchange Association Ltd., Lyons Range, Kolkata. (CSE)

The company's shares will, however, continue to be listed at the BSE. Delisting of the company's shares from the above Exchanges would lead to reduction in costs in the form of listing fees apart from yielding to administrative convenience.

In accordance with the SEBI (Delisting of Securities) Guidelines, 2003, consent of the members by special resolution is being sought for voluntary delisting from the above Exchanges.

None of directors are interested or deemed to be interested in the above resolution.

MANAGEMENT DISCUSSION AND ANALYSIS**Industrial Structure**

The Company is engaged in the business of manufacturing, selling and trading of PCBs and Telecom Transmission products.

The Company caters mainly to Industrial Electronic Equipment manufacturers and Public Undertakings comprising of Bharat Sanchar Nigam Ltd, Ministry of Defence etc.

The Company's gross sales during the current year 2002-03 increased to Rs. 2215 Lac from Rs. 1674 Lac achieved during the previous year (2001-02). The increase is a result of short-term demand for Company's Primary Multiplexers by BSNL. The Company was able to generate a small operational surplus. Losses though continued due to abnormal interest burden on loans outstanding on the Company. Current order position is weak however, the Company expects business to fructify from the enquiries under evaluation.

PCB Division :

Performance of the PCB division has further deteriorated and the division is incurring substantial cash losses. PCB sales in the current year are only Rs. 289 Lac as against Rs. 408 Lac in the last year. Plant is 14 years old and is unable to offer PCB of the specifications that are being asked for by the customers. Some of the machines are unusable as they are beyond economic repair. Indian PCB industry being fragmented do not have world class capacities & technology and are therefore not competitive. Future prospects are bleak with import duty protection being completely removed.

PRECISION ELECTRONICS LIMITED

Telecom Division :

Performance of the telecom division has been better than last year. Demand of MUX to provide leased line data circuits by BSNL has given a boost to the company. BSNL is now looking for new generation technology products. For sustained business, PEL needs to upgrade its technology and product mix soonest. Telecom manufacturing sector is suffering due to imports of finished equipment. Small and marginal players with limited access to technology would find it difficult to survive specially since industry is to face the zero import duty regime from January 2005. The division needs reorientation.

OUTLOOK

The Company business prospects are closely linked to the IT / Telecom policy and development of telecom infrastructure in the country. Substantial growth in the telecom market is expected in the near future. Given the challenging market environment, stiff competition, lack of coherent government policy for electronics hardware manufacturing industry and delay in induction of funds, it is difficult to make an optimistic prediction in the business prospects in the coming years.

The Company, however, continues to evaluate ways and means for sales growth in the challenging industry environment.

RISK AND CONCERN

The Company depends to a significant extent on acceptance of its One Time Settlement proposal for settlement of its debts with the lenders and induction of funds by the strategic investor/promoter. Company's present product mix is technologically obsolete and requires induction of new technology products and upgradation of its infrastructure to maintain its market access. This, to a large extent, is dependent upon induction of funds by the strategic investor.

INTERNAL CONTROL SYSTEM

The Company has adequate internal control procedure commensurate with its size and nature of business. The internal control system provides for laid down policy, guidelines and approval procedure. This control procedure ensures efficient use and protection of resources, compliance with established company policy and guidelines and compliance of statutes.

The Company has an internal audit system, which carries out independent periodic audit. The scope of internal audit covers variety of operational and financial matters, follow up and review of implementation of recommendations made for corrective action. The prime object of such audit is to test the adequacy, effectiveness and adherence of all internal control laid down by the management and to suggest improvement. Quarterly audit reports are prepared for Board of Directors.

FINANCIAL REVIVAL SCHEME

The One Time Settlement proposal of the Company has been accepted by most of the lenders. The rehabilitation scheme is to be submitted shortly by the Operating Agency to the Hon'ble BIFR for its approval. Under the present scenario, this is the only viable route for rehabilitation of the Company.
