Foreign Exchange earned (Capital Goods)	NIL	3,476,127
Foreign Exchange used	22,706,519	25,644,522

For and on behalf of the Board

PRIMA PLASTICS LTD.**MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT****INDUSTRY STRUCTURE & DEVELOPMENT:**

The overall world economy is effected due to high oil prices and recession in United States. India is also facing high inflation but it is expected that Indian Industry is set to grow annually at 8.5% in the next 5 year.

The **moulded furniture industry** is currently facing high input cost due to unprecident increase in crude oil prices internationally and it has to live with such high cost and pass on the burden to end users. Baring this, the industry is set to grow with the India growth story and consumption of plastics will increase in years to come. To compete in the market, the Company need to take advantage of logistics and incentives announced by the Centre to State Governments.

Your Company will focused on taping new market within India & abroad and also on containment in cost of production & administration & other cost.

With Indian Government efforts to invite International business in India by promoting special economy zones, emphasis on creation of infrastructure and other measures will make a boom in construction & related Industry in next 10 years. **Aluminium Composite Panel** being used in all modern construction, interior furniture etc., it is set to grow in near future. The present demand gap is partially met with Imports from China.

Your Company is fully focused on Industrial segment and set to supply the products to all major developers in this segment.

The market for ACP Division is expected to improve with the growth of Infrastructure & Real Estate in Industry, which is expected to grow for atleast next 10 years. Your Company is focusing on brand with quality products and national level presence in the market.

Opportunities, Threats, Risks and Concerns:**Moulded Furniture:**

The moulded furniture industry is characterized by intense competition, volatile input cost, substandard products with reprocessed material from unorganized sectors and regionalization of business.

However, consumption of Plastic is set to grow in India due to large population and majority belongs to low income or lower middle income group.

Creation of a strong brand is essential apart from setting up regional manufacturing facilities, introduction of innovative products and penetration in rural market and middle income group.

Aluminium Composite Panel:

At present, the demand set to rise with boom in construction & infrastructure sector in India for ACP. However, many new players are attracted to the business due to various tax and other incentives offered by few northern states of India and competition is inevitable.

The Company must develop its brand image and make ways insights in to the needs of their customers. This forms the basis of Industry strategy including design of the product, its delivery format, pricing and communication.

Financial Performance:**(Rs. In Lakhs)**
