THE CHAIRMAN'S STATEMENT

PRITISH NANDY COMMUNICATIONS LTD
THE 24TH ANNUAL REPORT AND ACCOUNTS 2017

I welcome you all to your Company's 24th Annual General Meeting. As always, it is a pleasure to be with you here today and to share the highs and lows of the year that went by. Perhaps a tad more important is to note that this month we have entered the 25th year of your enterprise, which is the perfect opportunity for us to reflect on how much the nature of our content business has changed in India and worldwide and how much more we can expect it to transform in years to come.

Your Company began with making content for news television. Our election shows on Doordarshan were widely appreciated. And so was *The Pritish Nandy Show*, India's first signature show on television. Then, when satellite television came, we grew our repertoire to include news, business and entertainment shows. *Fiscal Fitness* on Zee TV was the first business show on satellite TV. *Maneka's Ark*, an animal rights and environment show, won several awards for its pathbreaking stories.

Around the time we went public in 2000, the opportunity came to corporatize the motion picture business and your Company was one of the first to do so, making in the process some of the most memorable films that are still viewed, telecast and streamed all over the world. Just recently we have renewed the lease for some of our films with Star TV. From *Kaante* to *Chameli* to the cult classic *Hazaaron Khwaishein Aisi*. From *Jhankaar Beats* to *Shabd* to the enormously popular *Pyaar ke Side Effects* and its sequel *Shaadi ke Side Effects*. From *Bollywood Calling* to *Ugly aur Pagli* to *Ek Khiladi Ek Haseena* to even an adult comedy like *Mastizaade*. Our movies covered all genres, largely successfully.

Now, while we continue to make movies, we have also decided to take advantage of the new digital revolution and one of our works in progress is a serialized television show to be streamed as an Original on one of the world's most successful streaming platforms, Amazon. We are also developing shows for other platforms and eventually want to be content providers not only for the motion picture business but also for television studios and streaming services of the future and whatever new twists and turns that technology takes in the coming years to deliver content to avid consumers. Be it on the silver screen, the television box or the constantly upgrading smartphone which the Indian consumer has taken as fish to water. Content is beginning to emerge as the new powerhouse of the future and all the major global players of the new technology scenario, often described as the FAANG economy, are now here in India playing out the future of the very business we had once so humbly stepped into.

What is the FAANG economy? Facebook, Amazon, Apple, Netflix and Google the five global tech stocks that boast a collective market cap of \$2.5 trillion. They are the pillars of new media technology and are opening up windows in artificial intelligence, predictive analytics, machine learning algorithms, cybernetics and robotics, all working to shape a new future for the world of content. All five are now in India and growing apace, offering services and opportunities that are likely to present a strong prospect for your Company to demonstrate its content making expertise acquired proudly over the past 25 years. Hopefully they will also give us a playbook that will extend beyond our traditional audiences limited by language and geography.

And yes, this could make a fundamental impact on the future of your Company's business and lead us into new terrain and new opportunities. With the amazing growth of the digital universe (you may proudly recall that your Company, as a CSR initiative,

opened the first CyberCafe in India at The Leela Kempinski in Mumbai even before the internet actually arrived here, so that people could find out what it was) the whole world will be opening up for quality content and its exploitation. There is a clear shift in the consumption patterns of the feature film business and millions of people are already watching what we have made and continue to make on their cell phones and laptops, tablets and desk computers. Exciting new series and short features are the flavour of the season and the digital marketplace for new age content is rapidly increasing as the millennial generation is unabashedly asserting its own choices. Censorship remains a somewhat contentious issue. But that too will hopefully change as the Government is talking about introducing a rating programme to replace the censor's over-active scissors.

Your company is one of the first content makers trying to explore and exploit the opportunities that this digital market offers. We may have been slow in terms of scaling up but we are not slow in assessing and keeping up with the changing demands of the marketplace. As the Prime Minister's dream project of Digital India translates into reality, we are expecting the digital marketplace to grow even larger, reaching out to audiences all over India and the world. The big screen will be supported by all kinds of handheld viewings and the length of films and formats will keep changing to attract viewers of different age groups and their viewing preferences. That indeed is the future: Customized and interactive digital content at an affordable cost to the consumer. The fall in data prices in recent times has helped. More and more people are watching more and more content and that is a good thing.

We recognize it is time to alter the scale of our business and diversify from our core strength as a niche creative content maker and become a versatile, multi-platform player. This will mean a new vision, a new strategy, and developing new talent. If Tesla's worth can be higher than the worth of Ford and General Motors, selling barely 1% of what they sell, it shows that the way the world looks at valuations is also changing. Scale is not everything. Certainly not in this business. Innovation is important. Quality is important.

This statement will be incomplete without thanking all of you, our stakeholders. We are slowly recovering from a difficult phase and it is the management's belief that results will improve as we go along. I thank you, our shareholders. I thank our bankers, our business associates, our clients, our consumers, and all members of Team PNC who have worked hard to keep pace. We look forward to bettering our performance as we go ahead.

Thank you for being here today and for being part of this annual occasion when we meet, talk, share our views. And above all, thank you for being patient with us as we cope with all the change around us and try to adapt to new scenarios. If there is anything more you may want to know, please feel free to contact our Vice President Yatender Verma at verma@prishnandyc.com. The company's official internet site will also continue to keep you informed of all developments on a regular basis.

May I also suggest, in keeping with the general shift to online, you provide your Company with your email ID so we can directly inform you from time to time about all the things we do? It will also ensure this Annual Report never gets delayed in reaching you.

AUDITOR'S REPORT

The Auditor's Report does not contain any qualifications, reservations or adverse remarks.

In the Emphasis of Matter paragraph, the auditors have stated:

"We draw attention to Note 33 on the Standalone Financial Statements which describes the facts related to the arbitration proceedings initiated by the Company against Prasar Bharati, on account of wrongful encashment of bank guarantees of ₹ 75,050,000. The Company has obtained a legal opinion from Justice AM Ahmadi, former Chief Justice of the Supreme Court of India, which supports the Company's stand that the amount is fully recoverable and hence no provision is made there against.

We further draw attention to Note 38-i on the Standalone Financial Statements which relates to investment in Subsidiary Company "PNC Wellness Ltd.". The investment in this Subsidiary stands at ₹ 23,280,000 whereas the net worth of the Subsidiary is ₹ 8,590,306 as at March 31, 2017. Considering that the Company has made a provision for diminution in value of investment in this Subsidiary by 1/5th of its book value and considers the balance retained book value as fully realizable no further provision is made for the diminution in book value of investment which is considered as temporary.

We further draw attention to Note 38-ii on the Standalone Financial Statements which relates to investment in Subsidiary Company "PNC Digital Ltd.". The investment in this Subsidiary stands at ₹ 7,019,700 whereas the net worth of the Subsidiary is ₹ 1,218,754 as at March 31, 2017. The Company has agreed to provide its films to this Subsidiary Company to explore revenue opportunities across digital platforms and exploit their commercial advantage. In view of the fact that this Subsidiary has unfettered access to the film content of the holding company and requires no additional substantive capital deployment to generate revenue no provision for diminution in value of investment, which is considered temporary, has been made in the accounts.

We further draw attention to Note 39 on the standalone financial statements which describes facts related to the legal proceedings initiated by Company for the recovery of advances amounting to ₹ 15,000,000. The management considers the same as good and fully recoverable. The legal opinion obtained by the Company supports this. We have relied on the opinion and consequently the Company has not made provision of any amount there against.

Our opinion is not modified in respect of these matters."

Your Directors confirm that the matters referred to in the segment relating to Emphasis of Matter by the independent auditors in their report have been clarified in Notes 33, 38-i, 38-ii and 39 of the financial statements forming part of the Balance Sheet and Statement of Profit and Loss, and are self explanatory and reproduced below.

NOTE 33

Arbitration proceedings initiated by the Company against Prasar Bharati on account of wrongful encashment of bank guarantees of ₹ 75,050,000 were ongoing before former Chief Justice YV Chandrachud. The parties completed the pleadings before the Arbitrator but unfortunately he passed away in July 2008 while the cross examinations were on. The Company had filed a petition before the Honorable High Court at Bombay for appointment of a sole Arbitrator in place and stead of Justice Chandrachud in January 2009. The Bombay High Court appointed Justice BN Srikrishna, former Judge of Supreme Court of India as Sole Arbitrator vide order dated November 27, 2009 and the arbitration proceedings are ongoing. Opinion obtained by the Company from Justice AM Ahmadi, former Chief Justice of the Supreme Court of India, supports the Company's stand that the amount is fully recoverable. In view of this, the management of the Company does not consider it necessary to make a provision there against in the accounts. The Company is showing amount withheld by Prasar Bharati as "Long Term Loans and Advances".
