REVIEW OF OPERATIONS:

During the year under review, your Company has registered a turnover of Rs.187 Crores as against Rs.147 Crores in the previous year showing an increase of 27%. The profit before tax increased to Rs.413 lakhs as against Rs.395 lakhs in the previous year, which is an increase of 4.56% over the previous year. Though the year started well, certain factors like increase in raw material prices, fall in cotton yarn prices, increase of interest rates and sudden appreciation of the rupee has severely affected the industry as a whole and we are not an exception. Due to the appreciation of rupee all textile exports from yarn to garments have come down drastically and this has also affected the domestic market.

TEXTILE INDUSTRY:

The textile sector was expected to see a major jump in exports with an end of quota regime, following termination of Multi-fibre Agreement (MFA) on

January 1, 2005. However, post-MFA, there is a marginal increase in exports from India when compared with other South Asian countries. For instance, India's garment exports to the US grew by just over 7% in 2006, compared with 28% and 23% growth recorded by Indonesia and Bangladesh, respectively.

Appreciation of rupee had severe impact on the textile industry. The latest estimates from the Cotton Textile Promotion Council (Texprocil) suggest that the sector is losing 6% on profitability due to a stronger rupee. The situation is further exacerbated due to less rise in currencies of competing nations against the US dollar. During the first quarter of fiscal 2007-08, Indonesian Rupiah has risen 4%, while the Bangladeshi Taka has remained more or less flat as compared to 8% increase of rupee against dollar. The currencies of competing nations have not appreciated

PRIYADARSHINI SPINNING MILLS LTD.

in the same proportion. Freight rates have increased by approximately 50% due to shortage of containers and congestion at ports. This has added an additional 2% to the cost of the yarn. Combination of rupee appreciation and increase in freight rates resulted in increase of yarn cost by 10%. This is significant for an industry where the average margin is approximately 5%

Because of these factors, Indian textile exports to the US witnessed a negative growth for the first time in several decades in January-March this year. The decline was more pronounced in the apparel sector (2.1%) than the overall textile category (0.43%). The US accounts for 33% of India's total textile exports. Due to slowdown in export market, significant amount of this yarn has been shifted to domestic market which in turn has effected realizations in domestic market.

In order to bail out the sector, the finance ministry has announced a relief package. The relief package includes increase in DEPB/ Duty Drawback rates and lower interest on Export Packing Credit (EPC). The announced package gives a little solace to the industry as it compensates approximately 33% of the loss suffered by industry for Polyester / Viscose blended yarn exporters and 10% of the loss suffered by the cotton yarn exporters.

OUTLOOK ON OPPORTUNITIES, RISK AND CONCERN:

The fundamental growth drivers of Indian economy remain strong during the current year. The consumption is growing in response to growing per capita income, population and strong retail push. With regards to textiles, there are significant opportunities in the domestic market as more consumers are buying readymade garments and also consumption of the cloth per capita continues to increase due to growth in the economy which is adding to the purchasing power of the consumers.

Macroeconomic factors including rupee appreciation, increase in freight rates and increase in interest rates are the major risk factors presently for the textile

industry. If appreciation of rupee continues and freight rate remain at the present level, then the competitiveness of industry vs. other countries will decrease. Since the products would be diverted to the domestic market, the price realization will decrease even though there is growth in the domestic consumption.

Also there has been increase in interest cost by approximately 2% in the past one year. If government increases interest rates further to control inflation, it will be additional burden to the industry which will further impact the margins.

ADEQUACY OF INTERNAL CONTROLS:

The Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded, and protected against loss from unauthorized use or disposition, and that transactions are authorized, recorded, and reported correctly. The internal control system is supplemented by an extensive programme of internal audits, review by management and documented policies, guidelines and procedures.

The internal control system is designed to ensure that the financial and other records are reliable for preparing financial statements and other data and for maintaining accountability of assets. The audit Committee comprising independent Directors will review the internal control systems on quarterly basis.

DIVIDEND :

Due to uncertainty in textile industry and funds requirement for stabilisation of garment division and dyeing unit, your Directors are unable to recommend any dividend on share capital of the Company.

SHIFTING OF REGISTERED AND CORPORATE OFFICE TO OWN OFFICE PREMISES:

The Company has purchased office premises for its registered and corporate office and the office is shifted to the new premises situated at Satyanarayana Enclave, Icon Block, 2nd Floor, Madinaguda, Hyderabad -500 049 on May 9, 2007.

PRIYADARSHINI SPINNING MILLS LTD.

EXPANSION:

The Company has successfully completed its expansion at its spinning units resulting in increase of spindle capacity to 82,176 from 60,240 spindles and the capacity is being utilized fully. Expansion of Dyeing capacity from 1 MT to 10 MT per day is also completed.

GARMENTS DIVISION :

The Company's state of art technology garment division has commenced its first phase of commercial production in the month of August, 2007.

EXPORTS:

On the export front, your Company has shown impressive performance by achieving export turnover of Rs.64.94 crores during the year 2006-07 as compared to Rs.28.29 crores in the previous year registering a growth of 129%. The reasons for increase in exports are stable relations with foreign buyers, new markets are being explored and increase in mercantile trading.

WIND MILL:

During the year under review, the 1.8 MW Wind Power Project at Ramagiri, Anantapur District, Andhra Pradesh has generated 27,49,944 units as against the 24,85,882 units in the previous year.

GAS POWER PROJECT:

During the year under review, 3MW Gas based Power Project situated at Y. Kothapalli Village, P. Gannavaram Mandal, East Godavari District, Andhra Pradesh was not in operation due to non availability of gas from the isolated well allotted to us by Oil and Natural Gas Corporation (ONGC) and the Company is planning to shift the gas engine for re-installation at appropriate place where gas is available.

FIXED DEPOSITS:

The Fixed Deposits outstanding as on 31.3.2007 amounts to Rs.4,00,53,000 and there were no overdue deposits.

INSURANCE:

The properties of the Company including its buildings, plant and machinery and stocks are adequately

insured.
