TEXTILE INDUSTRY

A textile is the oldest industry in the country and it is the most labor intensive industry. This sector gives direct employment to 35 million people and indirect employment to 45 million people covering mostly women and rural poor. This industry contributes for the growth of the country in terms of job creation in rural areas, export earnings, besides meeting the basic needs of the people.

The capacity of the Industry is much more than the domestic requirements. The fall in exports due to recession in developed countries has resulted in poor price realization from the domestic market. The unprecedented huge price fluctuations of raw materials and demand recession for all Textile products have seriously affected and drove the industry to register huge losses during the year. Nearly 75% to 80% of the textile mills across the country have started incurring losses.

In order to bail out the ailing industry the Spinning Mills Associations have approached the Textile Ministry pleading for reliefs. Recently the Government has agreed to provide some relief which includes: Debt Restructuring for Rs.35, 000 Crores.RBI to relax conditions to avoid Textile units being classified as NPAS by opt for debt restructuring. Moratorium on payment of principal and interest on term loans for a period of two years. Sanction of working capital term loan representing the uncovered portion in the cash credit loan account and Interest relief.

With the reliefs that are going to be available from the Banks, now the industry is hoping to turn around.
