DIRECTORS' REPORT

TRADE CONDITIONS

The Textile Industry worldwide has been passing through the un-precedented crisis during the past 2 years. There was steep increase in the prices of cotton during the year and the cotton prices touched the high level because of various factors including the hike in Minimum Support Price by the Government of India for Cotton, huge capacity additions, which resulted in higher demand for cotton etc. The upward movement of dollar against rupee has made the import of cotton unviable. The yarn prices showed declining trend because of various reasons viz.,

- (i) Global demand for Textile products has drastically come down due to Economic slow down. Nearly 40% of our production goes for export market. Because of the Global Economic meltdown, margins on Exports came down drastically.
- (ii) The huge capacity spindle additions in short period resulted in mismatch between supply and demand. While the increased supply of yarn in the market has brought down the selling prices, the increased demand for cotton had increased the cotton prices. The cumulative effect of the above factors had affected the working of the Company substantially.

In addition to the above global crisis, there was severe power cut in Tamilnadu to the extent of 100% power cut for 4 Hours during 6 P.M. to 10 P.M. and 40% during the rest of the hours, which affected utilisation and productivity levels to a greater extent. Timely decision taken by your Directors to install Furnace Oil based Gensets and Windmills in previous years and purchase of power from Third Party have helped the Company to operate the Mills at optimum utilization level and also helped the Company to tide over the power crisis. Furnace Oil prices came down drastically during the 3rd Quarter of last year, but operating the Captive Gensets are still costlier when compared to the cost of power supplied by Electricity Board.

By implementing various cost reduction measures and production of flexible count pattern with more value added yarn, your Directors were able to achieve satisfactory results in the current market scenario.

FINANCE

The Company has availed working capital loan in foreign currency and incurred exchange loss of Rs. 880 Lakhs, of which an amount of Rs. 248 Lakhs is notional, since it is a provision entry made in accordance with Accounting Standard -11. This loss is because of rapid depreciation of rupee against dollar and the foreign currency loans were repaid at the higher exchange rate. On the other hand, because of depreciation of rupee, export sales realization was better compared to previous year, which has fully offset the above exchange loss.

To conserve the cash accruals for working capital of the Company and also considering the current working, the Company has approached the Banks for reschedulement of Term loan repayment installments of principal as per the norms suggested by the Reserve Bank of India. However the company is prompt in making the Interest payment on due dates.
