2015-16**

Padma Vibhushan
Shri Dhirubhai H. Ambani
(28th December, 1932 - 6th July, 2002)
Reliance Group - Founder and Visionary

Profile

Reliance Infrastructure Limited (RIInfra), part of the Reliance Group was incorporated in 1929 and is amongst the largest and fastest growing companies in the infrastructure sector.

RIInfra is developing projects through various Special Purpose Vehicles (SPVs) in several high growth sectors within the infrastructure space i.e. Roads, Metro Rail and Cement.

RIInfra is also the leading utility company having presence across the value chain of power businesses i.e. Generation, Transmission, Distribution and Power Trading.

RIInfra through its SPVs has executed a portfolio of infrastructure projects such as a metro rail project in Mumbai on build, own, operate and transfer (BOOT) basis; eleven road projects with total length of 1,000 kms on build, operate and transfer (BOT) basis and three cement plants of combined capacity of 5.5 million tonnes each in Maharashtra, Uttar Pradesh and Madhya Pradesh have commenced commercial production.

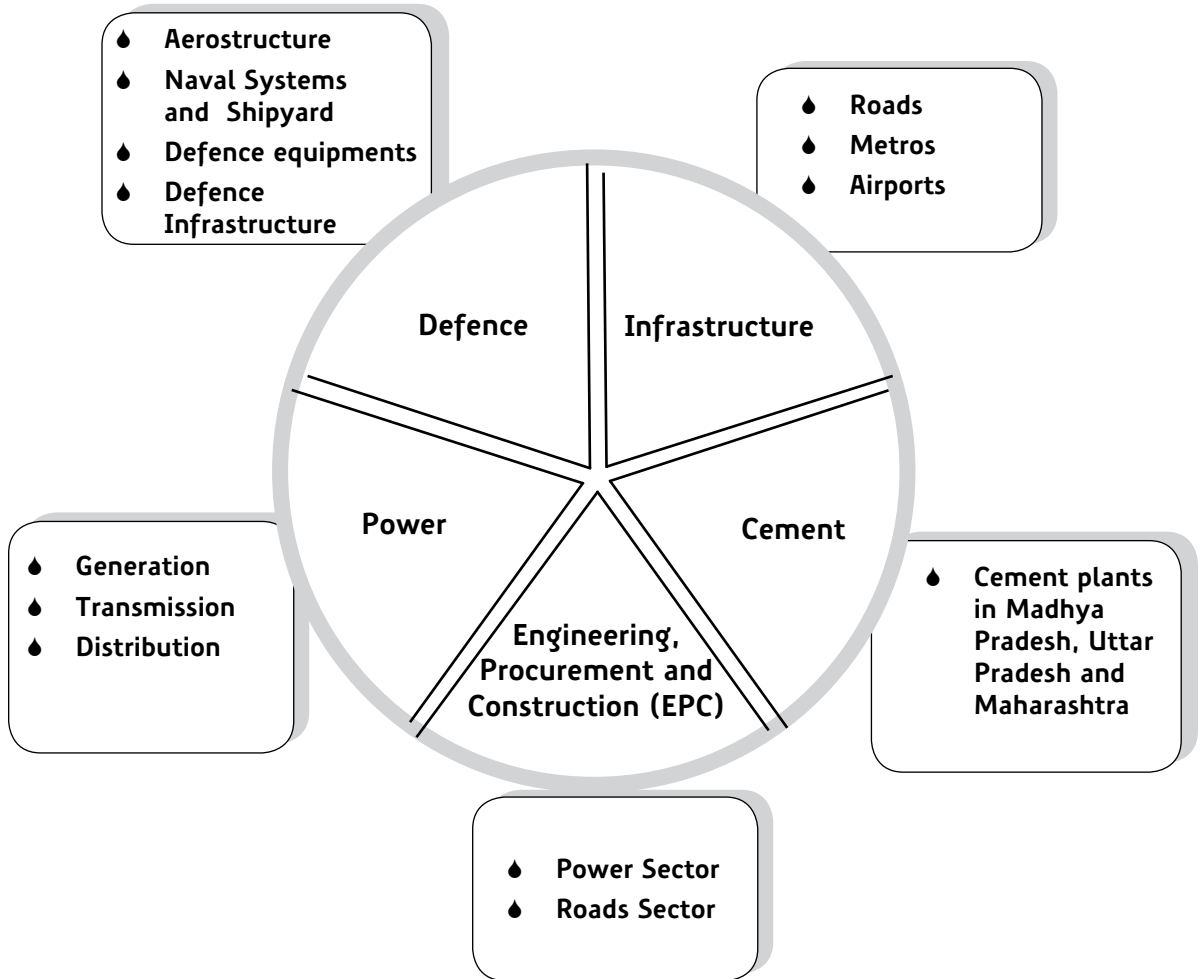

RIInfra along with its wholly owned subsidiary company generates over 941 MW of power through its five power stations; distributes power to over 64 lakh consumers in Mumbai and Delhi. RIInfra subsidiary companies have commissioned three transmission projects by installing ten national grid lines, being the first set of lines commissioned in India by the private sector.

RIInfra also provides Engineering, Procurement and Construction (EPC) services for developing power and road projects.

Responding to the initiative of the Government of India to promote 'Make in India' in Defence and Aerospace Sector, RIInfra has decided to foray into the defence industry through its wholly owned subsidiary, Reliance Defence Limited (RDL). RDL is exploring defence business opportunities emerging from the private sector participation in the defence industry. RDL has acquired controlling equity stake in Reliance Defence and Engineering Limited which owns and operates the largest shipyard of India.

87th Annual General Meeting on Tuesday, September 27, 2016 at 2.00 P.M. or soon after conclusion of the AGM of Reliance Communications Limited convened on the same day, whichever is later, at Birla Matushri Sabhagar, 19, New Marine Lines, Mumbai 400 020

This Annual Report can be accessed at www.rinfra.com.

My dear fellow Shareowners

It gives me immense pleasure to share with you the highlights of our Company's performance during the financial year 2015-16.

The Company in recent years has successfully re-invented itself from a power utility to a well diversified company engaged in a wide spectrum of infrastructure businesses with focus on roads, metro rail, airports and manufacturing of cement. Our Company has now firmly established amongst the leading infrastructure companies of India with strong presence across the major segments of infrastructure business.

To bring greater value to our shareowners, your Company is constantly looking for emerging opportunities. In the last one year, the Government has embarked on an ambitious 'Make in India' and "Skill India" programmes launched by the Hon'ble Prime Minister Shri Narendra Modi in order to attract investments and strengthen India's manufacturing sector, and the defence manufacturing is listed as one of the primary sectors of this programme. As part of this policy, the Government is encouraging the private sector participation in the Defence sector and our Company is vigorously exploring the opportunities in this segment with anticipated Government purchases in excess of ₹10,00,000 crore over the next 10 - 15 years.

With a view to achieving further and faster growth of our Company, our strategy would be to focus on three pillars of growth viz. Infrastructure sector, Engineering Procurement and Construction (EPC) business and Defence sector. RInfra has already announced monetisation of investments in cement, roads and Mumbai power business. The monetisation of the above infrastructure assets will be huge value accretive to our shareholders and the proceeds of these divestments will be utilised for significant reduction of overall debt of the Company.

Performance Review

I wish to share with you the highlights of our financial and operational performance during the year 2015-16.

- Total Income of ₹ 19,002 crore (US\$ 2.9 billion)
- Net Profit of ₹ 1,975 crore (US\$ 298 million)
- Cash Earnings per Share of ₹ 105 (US\$ 1.6)
- Earnings per Share (EPS) of ₹ 75 (US\$ 1.1)

With a net worth of ₹ 27,676 crore (US\$ 4.2 billion), Reliance Infrastructure ranks among the top performing Indian private sector companies in the country.

Our Group revenues stand at about ₹ 40,173 crore (US\$ 6.2 billion) while our gross fixed assets amount to ₹ 79,899 crore (US\$ 12.1 billion).

Power Generation, Transmission and Distribution:

Power Generation

Our power generation plants, with an aggregate installed capacity of 941 MW, continue to pursue various quality initiatives and programmes. All of them are certified for

Integrated Management System covering, among others, ISO 9001 for Quality, ISO 14001 for Environment, OHSAS 18001 for occupational health and safety and ISO 50001 for Energy Management System. During FY 2015-16, Dahanu Thermal Power Station (DTPS) was conferred the National Award for Excellence in Energy Management by the Confederation of Indian Industries, IPPAI Power Awards by Independent Power Producers Association of India and Healthy Workplace Gold level Award by Arogya World.

Power Transmission

Our Company is one of the leading private sector players in the transmission sector with a project portfolio of ₹ 4,600 crore. The Company has successfully implemented India's first 100 per cent privately owned project worth ₹ 1,800 crore through its subsidiary, Reliance Power Transmission Limited. During the year, our Company also successfully implemented the transmission system work associated with the Central Sector Hydro Power projects at Parbati (800 MW) and Koldam (800 MW) through a joint venture of RInfra and Power Grid Corporation of India Limited. Both lines of the project are operating above 99.5 per cent availability and would benefit the entire northern region. The Mumbai Transmission division caters to the need of evacuation of power from DTPS and state grid to Mumbai utilities. The transmission lines connect Mumbai system at nine points with the state grid achieving network availability of 99.83 per cent in FY 2015-16, much above the norm set by the regulator.

Power Distribution

Mumbai power distribution division is a world class power utility which is operational for almost 90 years. Approximately 20,000 km network connects nearly three million consumers in Mumbai; i.e. nearly two out of every three households in the city and has the distinction of consistently operating our feeder distribution network at 99.99 per cent reliability, giving our customers, through technical and procedural improvements, one of the most reliable power distribution networks in the country. The division has managed to reduce aggregate technical and commercial (AT&C) losses to 8.41 per cent, one of the lowest in the country. We are perhaps the only utility in the country to have optimum use of an integrated system of network planning and management, based on state-of-the-art technologies like SCADA, Distribution Management System, Geographical Information System and Automated Remote Metering. Keeping pace with the digital era, the division offers all services on customer's fingertips through Internet, Mobile App, Social Media on Facebook/Twitter/YouTube and LinkedIn. These include online new connection application, Interactive voice response, a personalized web based 'My Account', customized outage notifications, complaint management, etc., and a number of digital payment options. In order to have a distinct focus of the investors to invest in some of the key businesses and lend greater focus to the operation of each of the diverse businesses,

Letter to Shareowners

the company proposes to transfer the entire Mumbai Power Generation, Transmission and Distribution division, Samalkot Power Station division, Goa Power Station division and Windmill division on a going concern basis to Reliance Electric Generation and Supply Limited (REGSL), a wholly owned subsidiary of the Company through a Scheme of Arrangement for aggregate lump sum consideration of ₹ 6,282.50 crore. The Scheme is subject to obtaining the necessary consents, approvals and sanctions of the statutory and regulatory authorities.

EPC Business

Our Engineering, Procurement and Construction (EPC) division has established a reputation of being a leading provider of integrated design, engineering, procurement, construction and project management services for power and infrastructure sectors across the country. Our EPC business accounted for 16 per cent of our total revenue for the year ended March 31, 2016 and has an order book of approximately ₹ 3,075 crore as of March 31, 2016. The EPC division is aggressively positioning itself in India's growing mega infrastructure sector by booking orders from sectors like railways, defence, power and urban transport which includes metro and road projects. Backed by a young and highly talented workforce, our EPC division has built capabilities to execute projects in a time-bound and cost-effective manner.

Infrastructure Projects

Road Projects

The most distinct part of India's physical infrastructure development in the last decade is the development of road network across the country. We have, over the last decade, emerged as one of the largest road developers on Build, Own and Transfer (BOT) basis, with a portfolio of eleven projects at an aggregate outlay of approximately ₹ 11,500 crore. We have urban centric roads in high traffic density corridors and on Golden Quadrilateral, spread across six states in India to be one of the largest concessionaires of the National Highways Authority of India. All our eleven road projects are now generating revenue. As part of our ongoing asset monetisation plans, our Company is at an advanced stage of discussions for divestment of the roads business of the Company.

Metro Project

The Mumbai Metro Line 1 project covering Versova–Andheri–Ghatkopar corridor which commenced its operations in June 2014 has served over 200 million passengers since inception. Mumbai Metro has emerged as the eighth densest metro corridor in the world with a peak demand of 40,000 commuters in an hour. The corridor has an average ridership of 3.4 lakh commuters per day as it is the fastest mode of East West connectivity in Mumbai, linking the important suburban stations, Andheri on Western Railway to Ghatkopar on Central Railway. The metro has set benchmarks in terms of train availability and punctuality. With its efficient and safe operations, the metro has achieved the fastest stabilization of operations by any metro in the country. The Mumbai Metro is one of the cleanest public infrastructure projects in Mumbai.

Cement Projects

The Company's wholly owned subsidiary, Reliance Cement Company Private Limited (RCCPL) has an integrated cement capacity of 5.08 mtpa at Maihar, Madhya Pradesh and Kundanganj, Uttar Pradesh and a grinding unit of 0.5 mtpa at Butibori, Maharashtra. The Company has been pursuing its plan to monetise investments made in these cement facilities and has signed Share Purchase Agreement with Birla Corporation Limited (BCL) for sale of RCCPL. BCL will acquire 100 per cent of RInfra shareholding in RCCPL, subject to approvals of the concerned regulatory authorities, which is at an advanced stage.

Defence Business

The Company has recently made a foray into the defence sector by making India's largest defence acquisition. RInfra has acquired Reliance Defence and Engineering Limited (RDEL) (formerly Pipavav Defence and Offshore Engineering Company Limited) which has the largest engineering infrastructure in the shipbuilding industry in India and is one of the largest in the world. RDEL has the largest dry dock in the country. RDEL is in the process of exiting from the Corporate Debt Restructuring (CDR) package and has already received the necessary approval from the Reserve Bank of India. RDEL is pursuing business opportunities with the Indian Navy and the Indian Coast Guard. RDEL is also exploring niche commercial vessel segment particularly in offshore exploration and production assets segment. RDEL is now emerging as a world-class centre of excellence for shipbuilding and ship repair. Reliance Defence Limited (RDL), a wholly owned subsidiary of RInfra, through its 13 special purpose vehicles, is catering to several segments of defence industry and is planning to bring in innovation and modernisation in manufacturing of defence equipment to fulfil the requirement of the country's armed forces. The defence sector will be the primary driver of the Company's future growth. Armed with 27 Industrial Licenses for manufacture of Defence equipment and platforms. RDL has signed more than 40 MoUs with foreign original equipment manufacturers (OEMs). Effectively, these tie ups will enable RDL to participate in the 'Make in India' projects valued at over ₹ 10,00,000 crore planned by the Government of India over the next 10-15 years to modernise the Indian Armed Forces.

Corporate Governance

Our Company has always maintained the highest governance standards and practices by adopting, as is the norm for all constituent companies of the Group, the "Reliance Group – Corporate Governance Policies and Code of Conduct". These Policies and Code prescribe a set of systems, processes and principles, which conform to the highest international standards and are reviewed periodically to ensure their continuing relevance, effectiveness and responsiveness to the needs of investors, both local and global, and all other stakeholders.

Social Commitments

The Company, as a responsible corporate, continued to undertake several corporate social responsibility (CSR) measures to make positive economic, social and environmental impact and transform lives by helping build more vibrant communities in the neighbourhood of our power stations and other business units.

Awards and Recognitions

The outstanding performance of our power stations and power distribution facilities as also of Mumbai Metro are now widely recognised and appreciated. The Company has received numerous prestigious awards in several areas of operational performance.

Our Commitment

RInfra is pursuing monetisation of a few of its infrastructure assets with a view to strengthening the Balance Sheet of the Company and creating significant value accretive to its shareholders. We are now poised to emerge as a significant contributor to defence of India, besides being a leading infrastructure company.

As our founder, the legendary Shri Dhirubhai Ambani always said, "Where vision is boundless, growth has no limit".
