MANAGING DIRECTOR

CHAIRMAN'S SPEECH AT THE 26th ANNUAL GENERAL MEETING

Dear Share holders,

On behalf of the Board of Directors, I have great pleasure in welcoming you all to the 26th Annual General Meeting of your company . I am honored with proud privilege to address this meeting of shareholders of Raj Packaging .

The Audited Accounts along with Director's and Auditor's report there on for the year ended 31st March, 2013 have been with you for some time and with your permission, I shall take them as read.

INDUSTRIAL STRUCTURE AND ECONOMIC SCENE

RPIL is engaged in manufacture of multilayer co-extruded plastic film and flexible packaging material. It is part of plastic packaging material industry.

Industry making Flexible packaging material is known to be a sunrise industry, having tremendous growth prospects. But on other hand it being low investment and no entry barrier it has seen mushrooming growth particularly unorganized sector which is out of purview of regulatory environment. This has resulted into over capacity and unhealthy competition.

The World Economy continues to face challenges on the road to recovery which is proving to be long and difficult journey. The year 2011 and 2012 had already been a harbinger for global macro-economic slowdown and conditions worsened in the year 2013. The current year 2013 has so far been fragile , full of uncertainty and growth very poor.

The Indian economy despite witnessing challenging times experienced much balanced and positive growth as compared to global economies in the year 2010-11. But in the last financial year the whole advantage was lost and since then the Indian economy has slowed down considerably during the year 2013 with the Real GDP growth estimated at 5% for the year 2012-13 , a lowest in the decade .

With increasing global integration, the Indian economy was impacted by global uncertainties, while at the same time faced significant domestic challenges of persistent and high inflation, tight monetary conditions resulting into high interest rate regime and low investment. The problem is compounded by delays in policy making particularly in infra structure like power where entire India is facing acute power shortage - the main driver for industrial growth.

The key driver of economic activity- the investment growth has decelerated to almost 2.5% in the year 2012-13 as compared to as high as 9% in earlier years.

Compounding the problem is Current Account Deficit and Fiscal Deficit which seems to become unmanageable as Government and its agencies are seemed to be working at cross purposes.

The problem has become so acute that Indian Currency viz a viz Dollar and other foreign currencies has lost almost 15% in last two-three months. This has been sharpest depreciation ever and most as compared to other countries.

Now adding to our local inflation, we are importing inflation as cost of all essential raw materials particularly oil and energy will go up and will have cascading effects on prices.

As the inflation rate is very high particularly food inflation thereby reducing the disposal income in the hands of the people and resulting in high interest rate regime which is effecting not only profitability of most of the industries but forcing postponement of new investments.

This has been general scenario of economy, our state of AP has seen much worse conditions firstly due to local agitation for formation of Telangana state there has been disruption in activities several times and secondly acute power shortage faced by the state and consequently imposing of R & C measures by the Power Company. The industries were subjected to as high 50% power cut during most part of the year. The penalties were imposed to the extent of 6-7 times for overdrawing thus breaking the backbone of the industries.

Overall the industrial climate is not encouraging, confidence level is very low, policy decisions are not forthcoming thus delaying investment in essential infra structure without that it is futile to think of industrial growth.

CORPORATE PERFORMANCE FOR 2012-13& PROSPECTS FOR CURRENT YEAR

The performance of the company for the year 2012-13 particularly profitability has not been good. The year has been quite bad in last so many years of good performances.

Your company is established and has inherent capabilities to tide over such adversities.

With dedicated management team, quality and established product and credibility, I am sure your company will bounce back sooner than later.

CONCLUSION

I take this opportunity to express my sincere thanks to my colleagues on the Board for their wise counsel and guidance and valuable inputs.

I also greatly value the continued support and patronage of our esteemed customers which is the base of any industry.

I wish to thank our banker State Bank of India for their continued support and faith and other institutions for their help and support.

I also wish to place on record the dedication and hard work of our staff and employees, without whose efforts it would have been impossible to achieve this success.

Before I conclude, I wish to sincerely thank our valuable shareholders for their support and faith in the Board of Directors and Management of the company. We will continue to strive hard to justify your confidence in your company.

Thanking you.

CHAIRMAN

DIRECTORS' REPORT

Dear Members,

Your Directors have pleasure in presenting the 26th Annual Report and Audited Accounts of the Company for the year ended 31st March 2013

FINANCIAL RESULTS

Your Company's performance during the year as compared to previous year is summarized below:
