Chairman's Message

Dear Stakeholders,

2008-09 was a year of two phases. While, the first half of the year witnessed sharp increases in the prices of all commodity classes, with inflation reaching new highs (11%) and crude oil touching US\$145 per barrel, the second half of the year witnessed a financial turmoil in the western world leaving its scars on the Indian economy. What started as a housing crisis and the sub-prime crisis in the US has unexpectedly been contagious to all economies of the world, sucking out liquidity and severely restricting credit. Although Central Banks across the world intervened in an unprecedented manner hitherto, the crisis is yet to abate fully.

Your Company has sustained its growth path by achieving 25.96% increase in the turnover as compared to the previous year. We are putting all our efforts for manufacturing quality product and thus to cater more and more market and also fetch better realization for the products of your Company. Moreover, in spite of sharp hike in raw material rates in the previous year, which could not be responded proportionately by the market, your Company succeeded to retain the Profit Before Tax (PBT) to a reasonable extent by adopting cost effective techniques. These are commendable achievements which, I feel confident, will be better in the coming years.

Your Company achieved almost 100% capacity utilization and stagnation in growth. Your Company foresee the market of Tissue/ Poster Paper in India and MG Machine Project of your Company having capacity of 16320 TPA, of course with the financial assistance of Bank of Baroda, is at very advanced stage of its installation and we do hope to get the trial production by August 2009. Moreover, your Company also commissioned modernization & up-gradation project in all its existing three units. The modernization mainly envisaged replacement of old and obsolete equipments by technologically superior, high speed and energy efficient equipments, which will not only increased the speed of the lines but also result in manufacture of better quality paper. Your Company is proposing to produce and market complete range of quality products post modernization. With completion of all the projects the total production capacity would go up to around 60000 TPA.

Paper prices look to be firm, the comparative higher capacities, better quality and saving in power cost will enhance sales and profits. Though the full impact of expansion and modernization program will surface in 2009-10, still I believe that 2008-09 was reasonably good year for your company.

In conclusion, I would like to express my most heartfelt thanks to all our business partners, customers and bankers for their faith in us. My special thanks to the entire RPML team for all their valued sacrifices and unitedly facing an incredibly difficult year. I believe that, together, we will succeed in our efforts to sail through this rough tide.

With kind regards

Yours sincerely

The Management of your Company is further endeavoring all its attempts to retain and sustain its path of achievements in future as well. The Tissue/ Poster Paper Manufacturing Machine (MG) Project to increase production capacity by another 16320 TPA is at very advanced stage of installation and we do hope to get trial run by August 2009. Moreso, to strengthen quality base, your company has installed balancing equipments in all its three units having cost of project of Rs.13 Crore. Of course, the Bank of Baroda has kind enough to part-finance both the above projects by way of term loan.

I am confident that the above highly promotional steps of the Management, coupled with saving in power cost, will give further heights of success to the performance of your Company in the years to come.

I am very pleased to inform that the 6 MW Bio-mass based Co-generation Project of your company has been registered with United Nations Framework Convention on Climate Change (UNFCCC) February 1, 2008 under Kyoto Protocol for getting the benefits of carbon credits under Clean Development Mechanism (CDM) The UNFCCC Reference Number is 1181. The project has been registered for a renewable period of seven years for 24640 Tons Certified Emission Reduction per annum. The First Verification period commencing from 01st February 2008 to 31st December 2008 has already been over and the monitoring report has been submitted to the SGS (DOE appointed by UNFCCC) and we hope to get it validated by September 2009.
