PRODUCT CHARACTERISTICS

Paper is totally customized product. Main characteristics of paper are brightness, grammage and bursting factor. Since we produce material as per order received from customers in advance, hence our product can be said to be customer friendly. In such a situation aspects like product range, product quality, support service facilities and customizations of product are very favorable for us as well as for entire paper industry.

**COMPETITIVE SITUATION**

Competitiveness would harm only in such a situation when demand of product is very low and supply is high. In the case of paper industry no such adverse demand and supply ratio exist. Even gap in demand and supply is met out by high cost imports. Hence if we look at our position, we don't have to face much number of competitors. There is no much parallel market, hence this may be treated as neutral of runs. As far as cost of product is concerned, we are efficient Company due to our experience in the segment. For our product one can see brand royalty also as in our customer portfolio, we have about 80% customers who are with us for more than 5 years. This happens only due to brand royalty.

IMPACT OF GOVERNMENT REGULATIONS / LEGISLATION / DIRECTIVES

Our main product is Newsprint that is totally exempted from Central Excise and Sales tax. Import of Newsprint is already allowed under OGL. Secondly newsprint linked with mass media, hence newsprint product concerned is totally unaffected by government policies.
