Report on Corporate Social Responsibility

Since inception, Ramky infra believes in giving back to community by encouraging welfare of shareholders, employees, communities and civil society.

At Ramky Infra, we aim to improve the living and working conditions of the communities across the various infrastructure sites; through its CSR arm Ramky Foundation. Ramky infra has created impact on the lives of the communities socially and economically. The approach towards communities is through imparting necessary skills, technology, knowledge and other trainings for proper resources in creating safer working environment apart from taking up facilitation responsibilities by linking up with other development players to see the efforts successful.

During the FY 2013-14, CSR activities were focussed more on achieving sustainability in the activities as well as projects in the area of Health, Environment and Education around the infrastructure sites across the country. All the projects & programs were carried out under the aegis through our CSR arm i.e., Ramky Foundation (RF).

During the year, apart from implementing CSR activities in Education, Health, Women Empowerment and Natural Resource Management, the social activities focused on sustainable initiatives that not only created alternate income generation to the deprived but also improved the standards of living of the deprived people socially and economically.

Overall gist on the various activities undertaken under the CSR is drafted with the reach of beneficiaries.

In **Education**, material and infrastructure support to the adopted schools, conducting awareness through seminars and workshops to strengthen the education system, counselling on career building to the SSC students, stress management training to employees as well as to the students during work and exams hours respectively are some of the activities taken up which has impacted more than 3200 direct beneficiaries. Additionally, to encourage employee voluntarism concept and build direct relation with the communities events like children's day, teacher days etc., were also implemented.

Beneficiary reach through CSR

In **Health care**, comprehensive health check-up camps, sectorial health camps to the needy are the common activities that are being implemented since inception. Apart from the above, CSR activities provided quality health care facilities to the people living in the villages through health education, awareness on safety, health, hygiene and created awareness to the targeted interventions on HIV/AIDS. The CSR arm-Ramky Foundation is a signatory of UN Global compact and takes up its activities/ Programs in line with the Millennium Development Goals.

Mega Health Camp at one of the infrastructure site.

During the year, in the sector our special focus was on creating awareness on HIV-AIDS with regular check-up to combat HIV/AIDS, Malaria and Other diseases. In collaboration with Five State AIDS control societies, a strong approach towards Female Sex Workers in generating awareness through Condom Promotion, Creating an enabling environment, Management of STIs, etc. in order to reduce HIV/AIDS and Sexually Transmitted Infection (STI) Prevalence rate. 20 health camps were being undertaken during the year that has covered more than 4000 direct stakeholders.

Addressed the concerns raised by communities and other stakeholders in order to reduce or mitigate the risks during accidents at the infrastructural sites due to the lack of comprehensive, coordinated emergency services. A medical ambulance has set up at the companies' national highway project sites to ensure road safety during emergencies. It is being delivered an effective, coordinated and sustainable community based emergency response services and has provided support to the victims from accident scene to enable access to the medical personnel. This has benefitted the villages present at the either side of the infrastructural sites (National highway).

During the year, in accordance to the thrust area **Natural Resource Management**, the CSR activities were focused on Environmental Awareness on waste management, water conservation activities, sustainable agriculture development interventions, conducting green rallies and save tree campaigns. As part of the major CSR activities, plantations drive was taken up on environment day in and around infrastructure sites, aiming to enhance the greenery in the sites and communities.

Plantation drive on environment day

To address the needs of the communities in reducing the fluorosis content among the affected areas in Nalgonda district, Ramky infra under its CSR established an RO (reverse osmosis) water plant which is benefitting more than 3 villages nearby across its major infrastructure site.

Apart from the above activities inline to the thrust areas, in the area of **women empowerment** a pilot intervention was proposed so as to benefit the deprived women economically and socially in the society. Trainings on skill up gradation and income generation were given to the women during the financial year. Additionally, awareness on health, financial literacy and leadership training were also organised to employees as well as to the communities.

Palavelli- A Women Milk producer Enterprise.

A flagship CSR initiative implemented at Prakasham district. The project was successfully launched during Nov 2012 for the deprived women. The entire concept of the pilot is to ensure proper income generation source to improve the living standards. The project initiated by providing interest free loans to 58 women who own cattle with certain selection criteria. The loan helps in buying products, other required material for better cattle rearing that increase the income levels. Repayment of the loan is done through the milk instead of money which considers being a good way in repaying back the amount.

Women Beneficiaries of the pilot project..

The impact of the pilot was experienced in the year 2013-14, the women were not only empowered in generating the income but also improved their living standards, able to send their children to school, obtained respect in the family as well as in the society, good leadership skill among the women beneficiaries and many other things that has bought smiles on the faces of the women.

The best part of the intervention was that the women themselves formed into a common interest group of milk producers. They now can able to handle the financial, managerial aspects with the milk centre and related to product quality. The output increased the interest to replicate the CSR model project in other areas and is under progress.

Apart from the above, our CSR arm-Ramky Foundation in collaboration with other Govt department, PSU and private players have been implementing following projects

- Integrated Watershed Management Project is implemented in 12,000 hectares in Sagar and Vidisha districts of M.P. It provides sustainable livelihoods to the people residing in the watershed areas.
- Wadi project in Andhra Pradesh and West Bengal, aims to enhance the socio-economic status of 2000 Scheduled Tribe (ST) families through our interventions in the areas like- Horticulture, Soil Conservation, Water Resource Development, Women Empowerment, Health Care and Training and Capacity Building of the beneficiaries.
- Convergence of Agriculture in Maharashtra is a flagship project started in 2012. It envisages enabling rural poor to overcome poverty by developing sustaining means, so as to increase their socio economic status, household on farms and off farms livelihoods, allowing them to face production and market risk without falling back in poverty and distress and many others.

Thus, we reached more than 20000 direct beneficiaries through CSR activities. Ramky Foundation has moved towards a challenging measure of corporate responsibility, where results are measured not just by input but by its outcomes: the difference we make to the world and the contribution to alleviate certain deep rooted social problems. The emphasis on Corporate Responsibility as a focused activity embedding in to core business functions has enabled us to constantly explore for tools and competencies that not only leap forward our operations but also helps to long-term sustainability of our businesses.
