DIVIDEND AND RETAINED PROFITS

From the profits available for appropriation, an amount of Rs.6.20 million has been transferred to Debenture Redemption Reserve and Rs.18.25 million to Special Reserve. This would leave the Company with a balance of Rs.67.41 million. Your Directors recommended an Interim Dividend of 40% on the Equity capital which was paid on May 27, 2000. Since no further dividend is being recommended, the aggregate amount on this account including Income Tax at 10% and a surcharge thereon at 10% works out to Rs.16.02 million. This leaves the Company with retained profits of Rs.51.39 million, of which Rs.33.39 million is being transferred to the General Reserve, leaving a surplus of Rs.18.00 million in the Profit and Loss Account.

GENERAL REVIEW OF THE YEAR

The fortunes of the automotive industry changed for the better. Whilst all the sectors notched up growth, Passenger Car sales leapfrogged by a spectacular 48%. Heavy Commercial Vehicles grew by a robust 40%, but coming as it did after two years of steep declines, the demand during 1999-2000 was still substantially below the peak level achieved during 1996-97. The growth rates

seen across various segments are reflected in the table below.

	1999-2000	1998-1999
Passenger Cars	48%	-2%
Utility Vehicles	10%	-16%
Light Commercial Vehicles	11%	-12%
Heavy Commercial Vehicles	40%	-12%
Farm Tractors	5%	3%
Two Wheelers	11%	10%

(Source : ACMA Automotive Industry Report, May 2000)

The reversal in the trends of vehicle builds followed by modest recovery in the replacement markets helped your Company grow by 20%. The increase in sales to the railway segment also helped considerably. Increased sales coupled with efficient cost management enabled the Company to turn in a handsome performance.

OUTLOOK FOR THE CURRENT YEAR

Notwithstanding the growth rates witnessed, the drought in different parts of the country has

Rane Brake Linings Limited

Report of the Directors (Contd.)

brought new uncertainties. In fact, there are already worrisome signs of decline in demand in the first quarter for commercial vehicles and farm tractors. Although we expect replacement markets to remain as buoyant as in the last year and the passenger car industry to grow by at least 10%, the mood is one of caution all round. Your Company is however well positioned to enhance sales in the railway segment and this should certainly buffer the adverse impact of any softening of demand in the road transport sector.

SUBSIDIARY

The accounts of Glendale Investments Limited (GIL) for the year ended March 31, 2000 are enclosed to this Report. Shareholders may note that GIL has reported satisfactory results for the year.

JOINT VENTURE

During the year under review, Rane LuK Clutch Limited achieved sales of Rs.419.40 million up 24% from the previous year level of Rs.337.80 million. The company has successfully launched new products for fitment on commercial vehicles and farm tractors. Even if the industry growth rates turn out to be soft, the increasing application rates of the company's products should help the current year's sales significantly. During the year, your Company subscribed for 1 million rights equity shares of Rs.10 each at par.

DEPOSITS

Deposits outstanding as on March 31, 2000 amounted to Rs.8,948,000. All deposits that matured during the year were repaid / renewed except for a sum of Rs.5,000 for which claims were not lodged with the Company.
