ANNEXURE TO THE DIRECTORS' REPORT MANAGEMENT DISCUSSION AND ANALYSIS

1. BUSINESS OVERVIEW

Increasing disposable incomes, a change in the spending habits, increasing affordability due to numerous holiday packages and cheaper air fares, domestic tourist traffic has been growing at a rapid pace.

With continuing surge in tourist the hotel, this sector is likely to offer tremendous opportunity for investors with such a huge potential available. Several global hotel chains like Hilton, Accor, Marriott International, Berggruen Hotels, Cabana Hotels, Premier Travel Inn, Intercontinental Hotels Group and Hampshire among others have announced major investment plans for India.

Hotels are increasingly cashing in on food and beverages, restaurants, spas, health services, nightclubs and other ancillary services. These services are contributing more than half of the overall revenues of hotel chains. Non-room revenues of hotels have contributed to 50-55% of overall revenues.

2. NATURE OF INDUSTRY

- 2.1 The hotel industry has always in a challenging stage over year to year. Every event affects the business.
 - 2.1.1 The key characteristics of the hotel industry are :

The industry is primarily capital intensive coupled with depreciation costs on the buildings, furniture, fixtures and equipment and other assets. While your Company has an "Asset light" strategy, there are key strategic assets that need to be locked in through investment. During periods of growth the depreciation and interest costs rise rapidly as capacity additions take place. The relevant parameter for evaluation of management performance in the growth mode is thus EBITDA (Earnings Before Interest Tax Depreciation and

- Amortization), rather than Profit After Tax (PAT), since the depreciation and interest costs are expensed relatively quickly (over a 8-10 year frame) against an asset that has a life of 80 to 100 years.
- 2.1.2 The hotel industry is also cyclical due to the nature of capacity additions being lumpy while the demand growth is smooth. However, the exact position of the industry on the business cycle varies from city to city, depending on the forces of demand and supply in that city. Silvassa has added more Hotels in the last 6 years.
- 2.1.3 Seasonality Trend: The Indian hotel industry reflects a clear seasonality trend. For example in India, the tourism and hospitality industry shows signs of an uptrend in the months of November to February due to higher tourist flows. The months of June to September on the other hand are months of low occupancies and revenue, with fewer business or leisure visitors. Although there is considerable improvement in the months of June to September that we have experienced.
- 2.1.4 Strong dependence on the services economy The hotel industry tourist segment is highly dependent on services economy in terms of performance. Thus in the years of the services economy boom, the hotels business has grown well and has been relatively unaffected by the under performance of the manufacturing sectors of the economy.
- 2.1.5 Brand Impact: The hotel industry is characterized by strong brand focus resulting in choices being made by the customer based on factors beyond price – especially in the high-end segment where the brand is a hallmark of product and service quality. Your Company and

its "Complete Vacation & Conference Centre" have strong brand recognition and customer loyalty.

- 2.1.6 Instant perishability of the product: The industry belongs to the service sector and thus the product (service) is instantly consumed and cannot be replenished. Thus, one needs to maximize utilization of available capacity and reduce marginal costs over marginal revenues.
- 2.1.7 The major cost drivers in the industry are :
 - Food and beverage costs
 - Employee costs
 - Power and fuel expenses
 - Administrative and other overhead costs
 - Advertising and publicity expenses

3. BUSINESS PERFORMANCE

The significant trends that drives the hotel industry are the opportunities for growth into new markets. Hospitality industry is under going a period of unprecedented change and will continue to transform. This is also a period of unparalleled opportunity and the need of the hour is to remain at the forefront of understanding the travellers need and demand, both now and into the future. Understanding these key business drivers and delivering the technology will support the hoteliers to stay competitive in a rapidly changing world.

3.1 The Company has continue the Real Estate business and is acquiring a plot at Goa and a plot at Silvassa.

4. RISK FACTORS

- 4.1 Risks related to presence in India
 - 4.1.1 Political and economic environment risks: With the political and economic environment being stable in India, the hospitality industry will be benefited. With the services sector increasing its contribution share of the Indian GDP, over the medium term the fortunes of

our industry are expected to improve further. With India joining the global mainstream of business and attracting more foreign investments and its presently high levels of domestic tourist traffic, the future has good potential for the hotel industry.

- 4.1.2 Socio-Political risks: The Hotels industry faces risk from the volatile socio-political environment in the local area.
- 4.2 Industry / sector specific risks
 - 4.2.1 Infrastructure related risks:

Presence of good infrastructure in terms of airports/ roads is critical to attract customers. With the Government of India planning to privatise the airport, to increase efficiency to international standards and the commissioning of the Golden Quadrilateral Highway, business activity is expected to improve, and the hotel industry will benefit from these improvements in infrastructure.

4.2.2 Government concessions / restrictions to the hospitality industry :

Tourism as a major economic activity has been identified as such by the Government of India. The importance of this sector is expected to grow in the coming years.

- 4.3 Risks associated with the Company
 - 4.3.1 Risk of wage inflation: the hotel industry needs quality employees and with demand for the same improving across the industry, the Company feels that wage inflation is a critical factor in determining costs for the Company. Thus, your Company will continue to focus on improving manpower efficiencies and creating a lean organization, while maximizing effectiveness in terms of customer service and satisfaction, as an area of great importance for the management of your Company.
