RESERVES AND SURPLUS

The Balance in Reserves and Surplus stands at Rs. 1028.95 Lacs (Previous Year : Rs. 947.39 Lacs) after the appropriation as mentioned above.

PERFORMANCE

During the year under review there has been a marked improvement in the performance of your company. There was a distinct growth evidenced in the Turnover, resulting in a record performance of over Rs. 100 Crores.

With the help of judicious buying of imported & indigenous raw oils, as well as better efforts on the sales front, there is improvement in the profit margins as well. The Company's marketing division successfully launched Vanaspati in newly designed 15 Kg Poly Jar which has been well received by the consumers.

However, your company has to brace itself for the future — A brave New World is emerging. With the announcement of the new Exim Policy, the gap between International trade and domestic markets has further diminished. The prolific use of computerised information systems has heightened the dynamics influencing the future growth and survival of your company.

With the import of RBD Palm Oil and other substitutes of Vanaspati being permitted, accompanied by the discontinuance of Industrial Promotion Assistance (IPA) by the Government of West Bengal, which lasted for only five years, your company will have to gear itself to run its operations - with a global perspective and local entrepreneurial ingenuity. In view of the drastic change in the trading environment it would be helpful if the Government of West Bengal were to have continued the IPA for another few years.

It is pertinent to note that our "RASOI" brand is the key to the success of your company in the future. The Era of "Branded" goods has well and truly arrived, and we are confident that our "RASOI" brand, which has been well nurtured over the years will undoubtedly bring added value to your company in the coming years.

India has changed, times have changed - the day has come for the survival of the fittest and the corporate sector has to endeavour to provide maximum benefits to the shareholders. Your company has, and is currently taking various proactive steps in increasing its growth and giving better Economic Value Addition (EVA) to its shareholders in the years to come.

We are indeed grateful to the unstinting co-operation and support received from our employees at all levels for making the past year so successful. We now look forward to receiving their commitment with renewed zeal and vigour in the liberalised India in transforming the new challenges into Bountiful opportunities for both our shareholders and employees alike. We look forward to a great entry into the next millennium.
