### 2. OPERATIONAL REVIEW:

During the year under review, the Company has achieved revenue from operation of Rs. 38174.98 lacs against previous year of Rs. 59734.73 Lacs. The Company has incurred loss of Rs. 6331.27 lacs against previous year loss of Rs. 9105.53 lacs. Company expects to do better if there is an improvement in overall industrial scenario.

### 3. DIVIDEND

In view of losses, no dividend has been recommended.

### 4. CAPACITY EXPANSION

Company is having very good reputation in the market for value added stainless steel products being manufactured at its Ghaziabad unit. In order to cater to growing demand of its value added products Company is considering to enhance the capacity.

5. SICA act since be repealed and therefore Company is no more registered with BIFR.

### 6. ECONOMIC SCENARIO AND OUTLOOK

According to International Monetary Fund ('IMF'), global growth is projected to rise to 3.5% in 2017 and 3.6% in 2018, moving closer to the long-term growth trend of 4%. The modest recovery is projected to be supported by a mildly expansionary fiscal stance, accommodative financial conditions and a weaker euro. The

macro-economic stability with inflation below 5% continues to be the foundation of economic success which is reflected by growth in its key sectors - agriculture, industrial and services. Government initiatives like Make-in-India, Invest India, Start Up India and e-biz Mission Mode Project under the national e-governance plan are helping to improve ease of doing business in the country. In addition, the biggest tax reform since Independence, Goods and Services Tax ('GST') will help simplify India's tax regime and is likely to boost GDP and reduce inflation in the long-term despite the threat of a potential slowdown in economic activity during the transition to the GST in the near term. However, structural issues continue to pose a significant risk to the growth cycle. Firstly, initiative of the US Government of advancing 'Buy American Hire American' and political trends in Europe and elsewhere suggest a rising wave of protectionism which may lead to reversals of trade liberalization and geo-political conflicts. Secondly, economic policy uncertainty continues to be high, given USA's expansive pro-growth reforms and China taking lead in globalization 2.0. This poses a risk of high level of volatility in the financial markets. Thirdly, debt and deficits among emerging market and developing economies are on the rise making them susceptible to increase in borrowing costs. Fourthly, outcome of the Brexit negotiations is likely to impact the pace of recovery in UK as well as Eurozone economy.

### 7. FUTURE OUTLOOK

As per the World Steel Association ('WSA'), global steel demand is expected to grow at 0.9% in 2018 to 1.55 billion tonnes. Recovery in developed economies and accelerating growth in emerging and developing markets especially Russia, Brazil and India is expected to aid demand growth and keep inventory levels low which in turn is expected to support global steel prices. However, low level of capacity reduction than targeted by nations and continued oversupply in raw materials especially iron ore are likely to weigh down on the prices in the absence of effective trade measures and/ or increase in steel demand. China's steel demand which accounts for 45% of global steel demand is expected to be flat this year at 681 million tonnes while falling by 2% to 667 million tonnes in 2018. However, as per WSA, steel demand in emerging and developing economies excluding China is
