FINANCIAL HIGHLIGHTS

During the year, the gross turnover, net of returns and discounts was lower by 3% at Rs.1,284.19 crores (including gross sales of the Company's erstwhile denim division only upto July 31, 2006) compared to Rs.1,324.74 crores in the previous year.

Profit before tax, prior period adjustments and exceptional items was Rs.156.98 crores as against Rs.173.65 crores in the previous year.

Net profit, after exceptional items (including surplus on divestment of the denim division - Rs.88.09 crores), prior year adjustments, provision for taxes was higher at Rs.202.12 crores as against Rs.121.00 crores last year.

These results include the results of operations of the denim division only upto July 31, 2006. The division was subsequently combined into a 50:50 joint venture with UCO NV of Belgium. Consequently the results of the current year are not strictly comparable with that of the previous year.

APPROPRIATIONS

An amount of Rs.40 crores (Previous Year: Rs.12.10 crores) is credited to the General Reserves. Out of the amount available for appropriation, your Directors recommend a dividend of 50% (50%) on Equity Shares. The dividend tax on the proposed dividend will be Rs.5.22 crores (Previous Year: Rs.4.30 crores).

PERFORMANCE OF DIVISIONS

Textile Division -

The textile division continued to maintain its market leadership position during the year. With Phases I and II of expansions at the Vapi plant becoming operational, the division reported increased net revenues and profits for the year under review. Sales increased by 14% and Profit before interest and tax by 15%. The domestic fabric sales component increased by 16% with increased network penetration and wider product range. The division's export sales increased by 10%, with export turnover crossing the Rs.100 crores mark to reach Rs.110 crores. Increase in export sales was achieved against stiff international competition. Going forward, with the buoyant demand for worsted fabrics, continued focus on exports, and increased retail penetration through new store openings, the outlook for the current year is encouraging.

Files and Tools Division -

The Division continues to remain the market leader in the domestic files market and the largest producer of files globally. Overall, the performance of the division was satisfactory. Exports of the division have grown by 8%, compared to the previous year. Drill sales was however marginally lower compared to the previous year, primarily due to stiff price competition from local players in domestic market and from low priced Chinese drills in the export market. The Division is considering various global consolidation opportunities and product portfolio expansions, to attain higher growth in its businesses.

FINANCE AND ACCOUNTS

The observations made by the Auditors in their Report have been clarified in the relevant notes forming part of the Accounts, which are self explanatory.

JOINT VENTURES

Raymond UCO Denim Private Limited (RUDPL) - Consolidated operations

The Denim business of Raymond Limited was combined with that of UCO NV, Belgium to form a 50:50 joint venture. The joint venture commenced operations from August 1, 2006.

The over-supply situation in the global denim industry witnessed last year continues with capacities increasing in the Asian region.

The Indian operations of the joint venture comprising the fabric and garmenting operations recorded net sales (net of returns and discounts) of Rs.260 crores, including export sales of Rs.136 crores. The loss for the year before tax was Rs. 7.8 crores after accounting for one time costs. The loss after fringe benefit tax and wealth tax was Rs. 8 crores. The fabric division which produces differentiated varieties of denim fabric registered over 90% capacity utilisation. The garmenting operations, with improving efficiencies, is moving up to the medium and high end of the fashion market, in alliance with a washing and finishing consulting company of international repute.

Significant additions to capacity have taken place in India resulting in oversupply and corresponding pricing pressures. However, with wider product range and differentiated products as well as through constant innovation, the Company as a whole continues to cater to the higher end European and US markets and the Indian operations commands a major share of supplies to the premium brands operating in India.

The European operations has been facing lackluster demand in the European market, resulting in lower capacity utilisation and consequent losses. Though the main markets, Germany and France performed rather well, Spain and UK which are price sensitive markets were under intense pressure. The focus is now on creating new product ranges for customers and the new collection has been well received. The low cost Romanian facility of the joint venture commenced operations in January 2007. Positive factors to look forward to the future are the progress on product innovation, the start up of the low cost Romanian facility and the pick up in the Euro economy.

The US operations too faced sluggish markets in the US, with production and sales at low levels resulting in losses. The objective for the coming year is to restore volumes in the fashion markets with product innovations.

The consolidated operations of RUDPL for the period ended March 31, 2007 had sales (including export incentives) of Rs.510.75 crores and incurred a loss after tax of Rs.59.88 crores.

Raymond Zambaiti Private Limited

The Company, a 50:50 joint venture with reputed Italian manufacturer, Cotonificio Honegger, aimed at manufacturing fine cotton shirting fabric for premium international customers and domestic brands has come up on stream during the year. The Company's state-of-the-art production facilities at Kagal, Kolhapur commenced commercial production on October 1, 2006. Its products have been well accepted in the international as well as in the domestic markets.

The net sales (net of excise) of the Company was Rs.31.69 crores (Previous Year: Rs.Nil). The Company incurred a loss after tax of Rs.9.96 crores (Previous Year: Rs.0.75 crore) primarily due to trial production related expenditure and gradual ramp up of capacity utilisation during the year under review.

The Company's outlook for the current year is encouraging with interest shown by well reputed global and domestic garment brands to source the Company's fabrics for their products.

Raymond Fedora Private Limited

The Company, a 50:50 joint venture with Lanificio Fedora S.p.A. In spite of stiff competition in the international market, with improved marketing efforts and stabilisation of the production process, the prospects of a positive impact on the current year working of the Company look promising.

Gas Apparel Private Limited

The Company, a 50:50 joint venture with Grotto S.p.A. of Italy, the owner of the internationally renowned "Gas" brand, has been set up during the third quarter of the year, to sell casual apparel and accessories.
