CHAIRMAN'S STATEMENT

Dear Shareholders,

It's been an exciting and eventful year for all of us at Adlabs. In my last communication to you I expressed our keen interest in tapping potent areas of the entertainment business and I am happy to inform you that we have exceeded our expectations.

The Film processing business has been satisfactory with addition of facilities at Chennai and shortly at Kolkata. The Company is on its way to transform itself from a leading 'processing lab' to a larger 'services' Company. This would include the entire 'production services' space encompassing processing, digital post-production, equipment rentals and studios.

We have signed contracts with some of the leading directors like Ramesh Sippy, Ram Gopal Varma, Prakash Jha, Vipul Shah to make multiple films on a regular basis. The effort has been to build relations with some of the top producers and directors of the country so that they would work with us exclusively and continuously give us a flow of films in the coming years. While focusing on international film business, we have signed co-production deal with well known Hollywood film producer Ashok Amritraj's Hyde Park Entertainment to produce multiple films on a regular basis.

Toward distribution of films, the Company has acquired the overseas distribution rights of prestigious blockbusters and this division is expected to add substantial revenue to the Company in the coming year. The Company has opened its own distribution office in the US and the UK with the film 'KRRISH' which has opened with stupendous box office collections.

The multiplex business currently spreads across 7 cities, 40 screens in 10 properties and is expected to grow rapidly to 80 screens in 20 properties. This remains a strong focus area of the Company and is likely to see significant expansion of capacity including digital theatre systems in the coming years.

We have recently forayed in to the animation sector for developing good quality animation content by setting up a division to develop this business for the Company. We are happy to associate with Superstar Rajnikanth as the lead for our first animation venture.

New FM Radio Licenses were being granted by the Government of India. The Company was granted 45 FM Radio Operation Licenses in various parts of the country including all metros. The operations are expected to commence this year.

As you are aware, it is proposed to de-merge Radio business to an independent Company to have the increased value to the shareholders.

As part of the Reliance - Anil Dhirubhai Ambani Group (Reliance - ADA Group), Adlabs will always strive for excellence, and we deeply value your support.

Thank you,

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE

The Indian entertainment industry exhibits a confluence of creativity and commerce. The creativity, in the form of content continues to be of critical importance and the same when combined with entrepreneurial spirit and professional management has the potential to redefine industry standards. All these have resulted in the emerging trend of corporatisation, film financing, content development, operational control thereby creating an entertainment economy that is mature, transparent and balanced.

On account of liberalisation of the foreign investment guidelines, favourable demographics, the entertainment industry has shown a higher growth than that of the economy. Consumer spending has jumped due to increase in the disposable incomes over the years. Foreign investment has been drawn into the industry as has been evident by an array of strategic stakes acquired by overseas players in different segments of the entertainment business.

Barriers to entry are diminishing. Emerging digital platforms for distribution of film, television, music and radio will enable technology savvy and integrated companies to unlock new revenue streams. The exhibition industry is undergoing a radical change following the advent of multiplexes and digital cinema. As film viewing becomes a holistic entertainment experience, the multiplexes are now being built in combination with shopping complexes, gaming zones and food courts. Your Company is encashing on the boom in this emerging environment. There exists an opportunity to cater to the budget audiences by developing low-cost cinemas and providing a decent movie going experience. Your company appreciates the need to enter this space and is implementing a plan to expand its audiences and thereby increase the box office revenues.

Going forward, the large media and entertainment conglomerates are expected to bring in professional management and global best practices. Following dynamic improvements in technology on offer, convergence will be the critical aspect in the growth of the Indian entertainment industry. On account of proliferation of mass media, consumers are getting more aware and specific of their requirements; the industry is gearing to cater to the various audiences.

Your Company will not only be concentrating on its businesses of processing and distribution but shall also endeavor to enter into new and promising segments such as distribution, television, production of animation and provide a one-stop shop that can cater and provide solutions to all kinds of entertainment demands of the market.
