18th Annual General Meeting on Tuesday, September 4, 2012 at 2.00 p.m. or soon after the conclusion of the Annual General Meeting of Reliance Communications Limited convened on the same day, whichever is later, at Birla Matushri Sabha, 19, New Marine Lines, Mumbai 400 020

The Annual Report can be accessed at www.reliancepower.co.in

Letter to Shareowners

My dear fellow shareowners,

It is my privilege to give you a snapshot of how the year 2011-12 went for Reliance Power. We have delivered a robust performance of which we can all be justifiably proud.

Reliance Power's vision is to become one of the largest integrated power generation and coal mining Companies in the world. Of the power projects which the Company is developing, 1,540 MW is already operational, while the balance capacities are under various stages of construction and development.

In the year 2012, we successfully commissioned, ahead of schedule, the second 600 MW phase of our thermal power plant in Rosa, situated in Shahjahanpur district of Uttar Pradesh. With this the Rosa plant has reached its full capacity of 1,200 MW, all dedicated to the people of Uttar Pradesh.

The first phase of the Rosa plant has already set benchmarks in terms of operational efficiency and financial performance. This was achieved in spite of the acute shortage of coal facing the Country. Rosa Phase I generated 4,233 million units of electricity and delivered a net profit of Rs. 339 crore.

Your Company commissioned India's biggest solar power plant in Village Dhursar, Dist. Jaisalmer, in Rajasthan. The 40 MW solar photovoltaic thin film plant was set up in a mere matter of 129 days. This plant will generate 70 million kilowatt hours of clean and green energy annually for potential consumption of 75,000 households. The entire debt for the plant has been funded by US Exim Bank and Asian Development Bank (ADB). The commissioning of this plant is the first major step in our vision to become India's largest green power Company.

We are also constructing India's biggest gas-based power plant in Samalkot, close to India's east coast in Andhra Pradesh and the plant is poised for commissioning in a record time of 14 months. This bears testimony to your Company's strong project execution capabilities. We now await the allocation of domestic natural gas from the government and look forward to providing environmentally friendly clean and green power to the southern region.

Reliance Power recently synchronised the first of two units of its 600 MW Butibori Thermal Power Project near Nagpur in Maharashtra. Power generated from the plant will mainly be distributed to industrial as well as distribution utilities in Maharashtra. The first unit of the plant has been synchronised in a record time of just over 21 months from commencement of boiler erection to synchronisation. The second 300 MW unit of the plant is also on track for commissioning in the coming months.

The year 2012-2013 would see the commissioning of the first 660 MW unit of the 3,960 MW Sasan Ultra Mega Power Project (UMPP). This would herald, for us, the beginning of the use of supercritical technology. All of your Company's future thermal power plants would employ supercritical technology, which notably translates to higher efficiencies to reduce both fuel costs and carbon dioxide emissions.

In Dhursar in Rajasthan, your Company is also setting up a 100 MW Concentrated Solar Power (CSP) project. CSP plants produce electric power by converting the sun's energy into heat using various mirror configurations. A conventional steam turbine generator then converts this heat-energy into electricity. The CSP plant is being developed under the Jawaharlal Nehru National Solar Mission, which has set a target of 20 GW solar power by 2022. The combined solar power capacity of over 140 MW in this location in Rajasthan will generate enough electricity to power over 250,000 homes in India.

Construction and development activities are progressing rapidly in Vashpet in Maharashtra, where we are setting up wind power generation farms.

Reliance Power is on track for becoming one of India's largest resources Companies in the power sector with work progressing at a brisk pace in the development of coal mines associated with our Sasan UMPP. Coal production will begin ahead of the commissioning of the Sasan power plant. Your Company has also made significant progress in the mine development activities in Indonesia, where we own three coal mines capable of producing

Letter to Shareowners

up to 30 million tonnes per annum. Our coal resources will ensure fuel self-sufficiency for a large proportion of our power plants.

Performance Review

A snapshot of the Company's consolidated financial performance during FY11-12 is provided below for your reference:

- Total income of ₹ 2,767 crore as compared to ₹ 1,918 crore in the previous year.
- Net profit of ₹ 867 crore as compared to ₹ 760 crore in the previous year.
- Earnings Per Share (EPS) (basic and diluted) of ₹ 3.09 as compared to ₹ 2.94 in the previous year.

Corporate Governance

RPower has always maintained the best governance standards and practices by adopting, as is the norm for all constituent Companies of the Group, the "Reliance Group - Corporate Governance Policies and Code of Conduct". These Policies and Code prescribe a set of systems, processes and principles, which conform to the highest international standards and are reviewed periodically to ensure their continuing relevance, effectiveness and responsiveness to the needs of investors, both local and global, and all other stakeholders.

Social Commitments

We are developing a large portfolio of projects which require substantial use of natural resources such as land, water and minerals. We take adequate care in designing our power generation plants in a manner that optimises the utilisation of land, thereby bringing down the aggregate land requirement and minimising the potential for disruption and displacement of local communities. We are also adopting cleaner technologies related

to power generation that reduce the consumption of fuel and water required for plant operations, thereby conserving precious natural resource and contributing to a greener and healthier environment.

Many of the areas in which we are implementing projects are not very well developed and it will always be our mission to contribute towards improving the quality of life of the communities living in these areas. Indeed, we believe that our success in executing large-scale generation projects is critically dependent on following a participatory development-oriented approach that strengthens our bond with the local population.

In order to achieve these objectives, we have made significant outlays in healthcare, education and livelihood opportunities for local communities.

Our Commitment

Our founder, the legendary Shri Dhirubhai Ambani, gave us a simple mantra: to aspire to the highest global standards of quality, efficiency, operational performance and customer care. We remain committed to upholding that vision.

Thank you, shareowners, for your continued support in our journey of delivering consistent, competitive, profitable and responsible growth. I could not be more excited about the journey ahead for Reliance Power.

Anil Dhirubhai Ambani
Chairman

Any Member interested in obtaining a copy of the full Annual Report, may write to the Registrar and Transfer Agent of the Company.
15. An Explanatory statement pursuant to Section 173(2) of the Companies Act, 1956, relating to the special business to be transacted at the Meeting is annexed hereto.

Explanatory Statement pursuant to Section 173(2) of the Companies Act, 1956 to the accompanying Notice dated July 3, 2012**Item No. 4****Issue of Securities to the Qualified Institutional Buyers**

The Company, a Member of the Reliance Group, is engaged in developing, constructing and operating power projects in different parts of the Country. The Company on its own and through its subsidiaries has a large planned portfolio of power generation capacity, both operational as well as under development. In order to part finance such a large portfolio of power projects and to enhance its global competitiveness and ability to compete with the peer groups in the domestic and international markets, the Company needs to strengthen its financial position and net worth by augmenting its long term resources.

For the above purposes as also for meeting the requirements for general corporate purposes, as may be decided by the Board from time to time, it is proposed to seek the enabling authorisation of the Members of the Company in favour of the Board of Directors ("Board" which expression for the purposes of this Resolution shall include any Committee of Directors constituted / to be constituted by the Board), without the need for any further approval from the Members, to undertake the Qualified Institutional Placement ("QIP") with the Qualified Institutional Buyers ("QIB"), in accordance with the provisions of Chapter VIII of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended from time to time ("SEBI ICDR"), as set out in the special resolution at Item No. 4 of the accompanying Notice.

In view of above, the Board may, in one or more tranches, issue, offer and allot equity shares / fully convertible debentures / partly convertible debentures / non convertible debentures with warrants / any other securities (other than warrants), which are convertible into or exchangeable with equity shares on such date(s) as may be determined by the Board but not later than 60 months from the date of allotment (collectively referred to as "QIP Securities"). The QIP Securities proposed to be issued by the Board shall be subject to the provisions of the SEBI ICDR including the pricing, which will not be less than the average of the weekly high and low of the closing prices of the related shares quoted on the stock exchanges during the two weeks preceding the relevant date. The relevant date for the determination of applicable price for the issue of the QIP Securities shall be the date of the meeting in which the Board of the Company decides to open the proposed issue or in case of securities which are convertible into or exchangeable with equity shares at a later date, the date on which the holder of such securities becomes entitled to apply for the said shares, as the case may be.

For the reasons aforesaid, an enabling special resolution is therefore proposed to be passed to give adequate flexibility and discretion to the Board to finalise the terms of the issue. The QIP Securities issued pursuant to the offering would be listed on the Indian stock exchanges.

The proposed issue of QIP Securities as above may be made in one or more tranches such that the aggregate amount raised by

the issue of QIP Securities shall not result in the increase in the issued and subscribed equity share capital of the Company by more than 25 per cent of the then issued and subscribed equity shares of the Company as on the relevant date.

The proposed Special Resolution is only enabling in nature and the Board may, from time to time, consider the extent, if any, to which the securities may be issued.

The QIP Securities issued pursuant to the offer, if necessary, may be secured by way of mortgage / hypothecation of the Company's assets as may be finalized by the Board in consultation with the Security Holders / Trustees in favour of Security Holders / Trustees for the holders of the said securities. The security that may have to be created for the purposes of this issue, as above may come within the purview of Section 293(1)(a) of the Companies Act, 1956. Necessary approval has already been accorded by Members of the Company for creation of such Security(s) by passing of resolution through postal ballot on September 1, 2007.

Section 81(1A) of the Companies Act, 1956 and Listing Agreement entered into with the Stock Exchanges, provide, *inter alia*, that where it is proposed to increase the subscribed share capital of the Company by allotment of further shares, such further shares shall be offered to the persons, who on the date of the offer are holders of the equity shares of the Company, in proportion to the capital paid-up on those shares as of that date unless the Members decide otherwise. The Special Resolution seeks the consent and authorisation of the Members to the Board of Directors to offer and issue the QIP Securities, in consultation with the Lead Managers, Legal Advisors and other intermediaries to offer and issue the QIP Securities to any persons, whether or not they are Members of the Company.

The Board of Directors accordingly recommends the special resolution set out at Item No. 4 of the accompanying Notice for the approval of the Members.

None of the Directors and Manager of the Company is, in any way, deemed to be concerned or interested in the said resolution, except to the extent of their shareholding in the Company.
