Our Ethos and Philosophy

Our Vision

To build Religare as a globally trusted brand in the financial services domain and present it as the 'Investment Gateway of India'.

Mission

Providing complete financial care driven by the core values of diligence and transparency.

Brand Essence

Core brand essence is Diligence and Religare is driven by ethical and dynamic processes for wealth creation.

Clover Philosophy

Traditionally, it is considered good fortune to find a four-leaf clover as there is only one four-leaf clover for every 10,000 three-leaf clovers found. For us, each leaf of the clover has a special meaning.

It is a symbol of Hope. Trust. Care. Good Fortune.

For the world, it is the symbol of Religare.

Our Identity

Religare is a latin word that translates as 'to bind together'. This reflects the integrated nature of the financial services the company offers. The name is paired with the symbol of a four-leaf clover, a rare mutation of the common three-leaf clover. "Hope-Trust-Care-Good Fortune, are all elements that perfectly combine the emblematic and rare, four-leaf clover to visually symbolize the values that bind together and form the core of the Religare vision."

"In the end, all business operations can be reduced to three words; people, product and profits. Unless you've got a good team, you can't do much with the other two."
