OPERATIONS:

Your Directors are happy to inform you that your Company's financial performance has improved. The major contribution is the income from property development project at Andheri. The general upward trend in the process industry and the Company's ability to achieve the maximum realization in the sale of its products backed by low-cost procurement have also helped in this regard.

The performance of the Windmill installed for captive power generation has been satisfactory.

The Company is also making developments into high-value added products used in areas such as power and oil, which have good growth potential in the years to come. It has planned to invest Rs.20 Crores for expansion and modernization of its activities and has tied up with its bank for the said investment. This investment will be able to add manufacturing facilities in the field of specialized Stainless Steel Tubes for the power sector, which is presently importing this, as the indigenous market does not have the capacity to cater to this sector. After the implementation of this proposal, this Company will have the largest capacity to meet the demand in the power sector, which is poised for substantial expansion, in view of the Government decision to eradicate power shortage in the country.

ON BEHALF OF THE BOARD

VISHWAMBHAR C. SARAF
CHAIRMAN

Dated : 25th August, 2005.

Management discussion and analysis:

a) Industry Structure and Development:

The present industry structure of Stainless Steel Pipe consists of a few parties in the organized sector and many in the unorganized sector. The organized sector is catering to the quality-conscious market and industrial users whereas the unauthorized sector mainly cater to the ornamental, decorative and other sectors. The industry development analysis is bright for both the sectors as use of S.S. Pipes for processing industry and decorative industries is increasing. Your Company is a manufacturer in the organized sector and has a major presence in the local market and is also an exporter.

b) Opportunities and Threats:

The present high rate of growth in the country, especially of the oil, power and other process industries, assures that the opportunities for Company's products is good. However, there are threats of imports dumping.

c) Outlook:

Outlook for the coming year is positive and the Company is prepared to cater to the increasing demand in the Indian economy

d) Risk and Concerns:

The dollar appreciation has impact on the export viability and it also induces excessive import of finished pipes, which is the major competition. Further the Company's sales prices are all fixed whereas the raw material prices are fluctuating.

e) Internal Control Systems and their adequacy:

The Company has adequate internal control systems in technical and financial fields.

f) Financial Performance:

The Financial Performance of the Company has improved with better capacity utilization and product mix.

g) Human Relations / Industrial Relations:

The Company has maintained good industrial relations and is continuously adding to the human resources of the Company.

These statements are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied.
