MANAGEMENT DISCUSSION AND ANALYSIS
INDUSTRY STRUCTURE AND DEVELOPMENTS

Major part of the financial year 2008-09 was adversely hit by the sub-prime related economic slow down resulting in severe recessionary trends in the construction and infrastructure sectors, leading to drop in demand for tiles. Inventories are piling up and prices have comedown. Competition from Imports particularly from China affected domestic market. Many manufacturing units in the unorganized sector suspended their operations. In organized sector too the production levels have come down.

There are signs of improvement in economic conditions domestically and there is optimism that Infrastructure and construction sectors would revive shortly, considering Government's thrust in the Budget to make Huge Public Investments in Infrastructure sector. Steel and Cement industry is already on the path of recovery on the sales.

RESTILE CERAMICS LTD, being a pioneer in vitrified tile and in the business of flooring tiles since 1986 holds excellent reputation in the Industry as high quality producer. The company employs the best practices and highest quality standards in the industry. While it works constantly on quality up-gradation, the company is known for introducing innovative product range on frequent intervals.

Restile is the only brand in Indian market to make 100% of its production as full body vitrified tile. The fierce competition is affecting the quality standards of the industry in general, but at RESTILE quality comes first, the stand vindicated by the repeat purchases from country's corporate customers.

Restile was launched as manufacturers for Fully Vitrified Unglazed and Polished Monolithic floor tiles in smooth, rough as

well as Mirror Polished finishes and commenced commercial production during 1991 with an initial installed capacity of 5,40,000 Sq.mtrs. per annum and subsequently enhanced to 35,00,000 Sq.mtrs at Hyderabad, Andhra Pradesh.

In order to achieve cost competitiveness, Restile started outsourcing Tiles manufacturing by entering into a Contract Manufacturing arrangement with Bell Granito Ceramica Ltd., where the main fuel used is natural gas.

DISCUSSION IN FINANCIAL/OPERATIONAL PERFORMANCE

Production during the year was 8,87,476 Sq.mtrs., higher by 36.85% than the production during previous year on account of higher capacity utilization.

NET SALES : Net Sales clocked for the year were Rs.3668.21 Lacs, higher by 18.54% as compared to Rs.3094.61 Lacs in the previous year.

OTHER INCOME: The other income for the year stands at 39.50 Lacs.

INCREASE IN STOCKS : The closing stock in trade as on 31.3.2009 increased by Rs.495.42 Lacs in comparison with the previous year due to the effects of economic slow down during later part of the year.

TOTAL EXPENDITURE : Increase in expenditure in the year 2008-09 was on account of higher production and increase in the input costs.

MANUFACTURING EXPENSES : Manufacturing expenses were Rs.3124.62 Lacs during the year as compared to Rs.1832.26 Lacs in the year 2007-08. The increase has been on account of change in product mix and higher quantity of production.

ADMINISTRATIVE AND SELLING EXPENSES : There has been an increase of Rs.620.74 Lacs on account of general rise in prices, increase in level of business activity, increase in manpower costs

INTEREST AND FINANCIAL CHARGES : An amount of Rs.96.48 Lacs was incurred in the year 2008-09 against Rs.113.66 Lacs in the previous year. The decrease was on account of prudential utilization of the working capital facilities.

NET PROFIT : Company recorded a net loss of Rs.980.30 Lacs during the year on account of increase in input costs, decrease in average selling prices.

INTERNAL CONTROL SYSTEMS : The Company has adequate internal control systems and management continuously reviews and improves the internal control systems as per the changed requirement. The Company has independent Internal Auditors, who conduct periodical audit and submit their report to CEO. The Company's operations are overviewed by Executive Committee and Audit Committee of Board of Directors.

OPPORTUNITIES AND THE OUTLOOK : Restile has increased the manufacturing capacity by installing state of the art and cost effective production equipment and also planned inorganic growth by outsourcing the manufacturing activity. The continuing adverse effect of the economic slow down has provided an opportunity to the Company to thoroughly review the cost structure and achieve market competitive cost of production. The Government's determination to kick start the economy by increasing budget outlay on development of infrastructure sector, which in turn revives the purchasing power of the citizens and revival of construction sector, would help in restoration of normal growth of Ceramic Tile Industry.

THREATS : Since the vitrified market enjoys consistent growth and assured returns, few companies in the organized and unorganized sector are expected to come up with the latest technology, which may result in pressure on the realizations. Despite the prompt and effective steps initiated by the Government, the dumping of tiles from China and other countries may add further pressure to the realizations. In view of trade practices and the market dynamics being followed in the industry, the Company is compelled to extend larger credit period to the customers. As a result, there is a possibility of increase in the operational costs.

RISKS AND CONCERNS : The Company is consuming petroleum products for firing the tiles. The prices of petroleum products depend upon international market and subject to highly volatility. Some of the competitors who have the facilities of natural gas, tax incentives etc. are dominating the market. There may be a threat from some of the larger capacity players, who have varied range of products, effects and colors to dominate market presence.

HUMAN RESOURCES AND INDUSTRIAL RELATIONS : The Company has its own system to control all its branches and divisions to ensure proper and adequate control, facility, transparency and accuracy. The employer-employee relationship has been cordial. The Company considers the quality of its human resources as its important asset it endeavors to attract and recruit best possible talent and to retain and groom it to meet its needs.

REPORT ON CORPORATE GOVERNANCE FOR THE YEAR 2008-09

In compliance with Clause 49 of the Listing Agreement with Stock Exchanges the Company submits the report on the matters mentioned in the said Clause and practice followed by the Company :

COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE
