## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **INDUSTRY OUTLOOK**

The Steel Industry has assumed vital importance in the Development of Indian Economy. The Infrastructure Industry, Automobile Industry and Road Development Activities are developing enormously.

Your Company has a vital role to play in the developing Economy, as the job orders of de-coiling, straightening, shearing and cutting of varies sizes of Iron and Steel Coils are on the increase during last couple of years.

Due to thrust on infrastructure development by the government of India the Company will continue to get orders on job work.

### **OPPORTUNITIES AND THREATS**

India accounts for 5% of the Global Steel Consumption. The use of steel in railway coaches, wagons, airports, hotels, kitchenware and retail stores has been growing fastly. Ranked 5<sup>th</sup> in terms of crude oil steel production in the steel producing countries, the country's production grew by around 6% in 2010 over by 2009.

The scope for raising the total consumption is huge as the per capita steel consumption in India is only 35kg as compared to 150kg across the World and 250kg in China. With the current rate of ongoing Greenfield and brownfield projects, the National Steel Policy has a target for taking Indian Steel production upto 110 MT by 2019-20.

The major threats for steel industry are hire cost of inputs. The steel prices during the financial year 2010-11 have increased from the average prices prevailing in the previous financial year as well as the quarter ended March 2010 driven primarily by the increase in the prices of input raw materials during the same period. In addition to this, major obstacles are inadequate availability of suitable quality of coal and high cost of energy / finance.

### **RISKS AND CONCERNS**

In spite of growing demand and increase in production of steel products at domestic and global level during the year under review, there exists imbalance in respect of supply and demand. Rising prices of the steel products at global level and domestic market may slow down the demand for steel products. The company has been taking continuous modernization programmed to maintain efficient operation of its Steel manufacturing activities. The Company is facing acute competition in obtaining job orders since the prices of steel plates have gone up. However due to specialized execution of the job orders your Company will continue to get more orders as compared to other competitors.

## **INTERNAL CONTROL SYSTEMS**

The Company has engaged the services of expert consultant to streamline adequate internal control systems to ensure efficiency of machinery and the result is positive.

## **FINANCIAL PERFORMANCE**
