# Chairman's Statement

# Chairman's Statement

There are times, when fate and history come together at a single time, in a single place, in a rare combination of circumstances, to shape moments of crisis. Resilient organizations are able to quickly adapt to such disruptions, while maintaining continuous business operations and safeguarding people, assets and overall customer confidence.

The company is consciously focused on delivering end-to-end solutions for its customers, whether the requirements are for establishing and supporting digital GeoSpatial solutions or designing and creating integrated enterprise IT Infrastructure and applications or creating enterprise-wide BI and Big Data Analytics solutions to enable competitive advantage for customers or to serve Defence and Security markets with deep domain expertise.

The financial year 2019-2020 has been challenging as planned infusion of funds into the company got delayed due to unforeseen circumstances. The company has continued to serve the existing customers globally with solutions to their satisfaction and therefore have been shortlisted by them for their high value procurements which are expected to be finalized in next two financial quarters

The company made an announcement to the Stock Exchanges i.e., the Bombay Stock Exchange and National Stock Exchange of India on May 11, 2019 announcing an investment of ₹ 5,500 crores by an international group "The Streamcast Group". Further in conjunction to this, the company executed Definitive Restructuring Services Agreement (RSA) with Streamcast Group on August 6, 2019 under the terms of which, Streamcast Group will assist Rolta in repayment and restructuring its liabilities including providing financial assistance. However, statutory clearances from the European authorities got delayed due to

various factors, which includes severe global pandemic COVID-19. Recently the international subsidiaries of the company filed voluntary Chapter – 11 proceedings in the United States Bankruptcy Court in Alabama, U.S. on October 29, 2020. The international subsidiaries took this step in order to restructure their liabilities mainly consisting of the bonds that were issued in 2013 and 2014 for USD 500 million and their outstanding interest. As per the requirement of these proceedings, international subsidiaries will submit a plan of reorganization to the Court in Alabama, typically within a period of 4 months from filing and once approved by the Court, this will be implemented subsequently over a period of a few months. The company expect to emerge as a financially strong and viable entity based on a plan approved by the Court to restructure the debt obligations of the international subsidiaries.

The Company continue to work with Streamcast Group so that upon receipt of the necessary statutory approvals, they will support the restructuring of the Company with the necessary investments and settling of liabilities. The company is cautiously optimistic that in the next 6 to 8 months it will be in a position to complete the restructuring and thereby substantially reduce the financial liabilities of the company and its subsidiaries.

Thereafter, the company will again take steps to harness its technology strength to serve the market place with innovation and renewed confidence.
