Management Discussion & analysis Report

Industry Structure & Developments

The stable economic growth that the country is witnessing is one of the major boosters for the real estate industry. Liberalization of the economy has been driving the sector towards further development. Furthermore, the influx of foreign investments and the growing middle class makes this sector highly attractive offering immense growth potential for the Company's business.

The growing urbanization of the Indian population has sparked an acute shortage of housing units.

RBI has recently started adopting loose monetary policy. Ease in interest rate is resulting in increase in Credit availability for real estate and also decline in EMIs due to the fall in housing finance rates and the availability of tax incentives on housing loans are increasing the need for housing units in cities and towns shall boost the business of the Company in real estate. There is an increasing demand from the growing IT/ITES sector, the retail industry, the entertainment and the hospitality & tours & travel industry as well. The Opportunity is huge.

The Company is planning to operate in a highly fragmented and competitive industry. Our competition varies depending on the size, nature and complexity of the project to be executed. The level of transparency and sharing of data among players is a potential concern. One of the main drivers of growth for real estate is the availability of finance at low rates. The threat of rising interest rates may dampen this growth. Increasing raw material prices is another area of concern. Construction involves a lot of pre-determined revenue valuation. Realization of this revenue is scattered across the period of construction. A significant threat that the real estate developers face is dealing with increase in raw material prices which may lead to spiraling costs. With superior methodologies, prior experience of the board of directors and improved processes and systems, the Company strives to differentiate itself and ensure strong growth and profitability.

Opportunities, Threats, Risks & Concerns

Company has completed merger with which the value of company has increased along with new avenues and opportunities on which company has already started working on. In the years to come company is looking for brighter future and prospects with increased values to stakeholders.
