MANAGEMENT DISCUSSION & ANALYSIS

INDUSTRY STRUCTURE

PM hopes for good future of Textile Industry

"The textile sector is the second largest provider of employment after agriculture. Thus, the growth and all round development of this industry has a direct bearing on our ability to make our growth process more socially inclusive," Mr. Manmohan Singh Prime Minister of India said :

While speaking at the Tex Summit 2007, Mr. Singh said, "Sops and subsidies will work in currency appreciation as a transient phenomenon. However, in the long run, the industry must adjust itself to the new dynamic."

He stressed that the textile division must regulate from being low cost, low value supplier to high volume, high value supplier, and side by side, it must also originate internationally known brands and labels with worldwide footprint and aspirations.

In this view your company has also started Textile division for converting gray yarn to textile.

I.T. & SOFTWARE INDUSTRY

India's IT, software and electronics companies are confident about prospects for growth of exports in the coming years, with industry leaders saying vast opportunities were opening up in new markets in the Middle East, Africa, South and Southeast Asia and Eastern Europe.

India's domination in the IT and software sector and its growing reputation as one of the world's best outsourcing destinations have created a good basis for future prospects. According to participants in a major export promotion drive by the industry at the just-concluded IT and computer fair CeBIT at Hanover in Germany has cited better growth opportunities for the Indian software companies.

A recent study in UK shows that about 30 companies mounted an impressive show on the latest India has to offer in the areas of computer software and services, IT, electronics hardware and telecommunication equipments. Export business inquiries worth several million dollars have been generated by India's promotion campaign at the CeBIT, the world's largest computer and IT fair, according to ESC.

In the meantime, efforts will be made to step up India's software and IT enabled services' exports to Germany by organizing buyer-seller meets, exchanging IT delegations and fostering contacts with trade organizations.

With the success of India's IT and computer software sector had been so remarkable that many other nations are now trying to copy it. "India is becoming a world hub of brainpower activities and this holds great potential for growth in the coming years."

India's exports of computer software, IT services and electronics products are projected to grow by around 30 per cent during the current financial year to USD 32 billion, according to ESC.

WIND POWER PROJECT

The ministry of new and renewable energy (MNRE) which had introduced generation-based incentive scheme for a maximum of 49 mw for wind power and 50 mw for solar energy is now planning to remove ceilings to unlock the full potential of renewable energy in the country.

The ministry has plans to attract large investments in the wind energy sector from independent power producers by offering a generation-based incentive. It would be a boon to the investors who would not be able to avail of the accelerated depreciation benefit.

SAARC NET LIMITED**ANNUAL REPORT 2007-2008**

However, the incentive was fixed at 0.50 paisa a unit and the total power production eligible for this was only 49 mw a year. Now the ministry wants to lift this ceiling and offer incentives without limit to boost wind energy generation. The proposal is with the Planning Commission.

MNRE also wanted to develop at least 60 green cities in the country with green buildings generating their own electricity, homes with solar power and water heaters, municipal corporations that produce electricity from all sources and convert waste to energy, he said.

FUTURE PLANS

Apart from the above the new management has decided to diversify the business into the area of Generation of Power through the Wind Power in the state of Tamil nadu, for 18 MW in two phases of 9MW each with project outlay of Rs 100 crores. The company is in process to acquire approx 200 acres piece of land in the State of Tamil Nadu. It may be noted that as per latest tax policies the revenue, generation through the wind power project is exempted from Income Tax for a period of 10 years.

Your Company has very ambitious and aggressive plans to enter into the business of hospitality industry & real estate Business. The Presently Company is running its business from Capital of India and Setup its Registered Office at New Delhi.

In view of above SNL has entered into the business of Textile, Power & I.T. We have started the textile trading as job work where our gray yarn is converted to textile. We have planned to set up textile mill after creating our existence in market. We are setting up Wind Power & we are doing tie-ups for land acquisitions. We are in continuation of Software Business. We further going to diversify our existence in the area of currency trading through MCX Stock Exchange.

COMPANY OVERVIEW

In the Statement of Management Discussion and Analysis of Financial conditions and results of operation describing the company's objectives, expectations or predictions may be forward looking within the meaning of applicable securities laws and regulations. The financial statement have prepared in compliances with the requirement of the Companies Act, 1956 and Generally Accepted Accounting Principals (GAAP) in India. Our management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The financial statements have been made on a prudent and reasonable basis, in order that the financial statement reflect in a true and fair manner from and substance of transaction, and reasonably present our state of affairs, profits and cash flows for the year.

FINANCIALS

Despite of adverse market conditions your company could achieve an income of Rs. 2807.25 lacs in compare of previous year Rs. 3133.79 lacs & registered a gross profit of Rs. 46.29 lacs from computer software division, however in textile division due to high raw material cost your company has booked a net loss of Rs. 10.88 lacs, resulting a net profit is Rs. 6.42 lacs. Your directors are continues to search new area of business to maximize share holders wealth.
