SIGNIFICANT OPERATIONAL EXPERIENCE IN INFRASTRUCTURE SECTOR

KEY STRENGTHS

SIPL has over 30 years of experience in infrastructure development. The company's infra projects includes Sealdah fly-over in Kolkata, Moolchand fly-over & Indraprastha underbridge in Delhi, Durgapur expressway, cooling tower at Panipat, suspension bridge at Nepal etc.

COMPETITIVE BUSINESS

KEY CONCERNS

The company is involved in the construction of infrastructure projects. The company may face significant competition and margin pressures from its competitors depending on size, nature and complexity of the project and on the geographical region in which the project is to be executed. The failure to bid competitively may adversely affect its operations. Bidding high will mean it does not win contracts and bidding too low will mean incurring a loss, or operating at very thin margins.

INCREASING DEMAND OF MODERN TECHNOLOGY

The construction industry increasingly demands technical sophistication. The rapid and frequent technology changes can demand high level of capital expenditure.

FINANCING DIFFICULTIES

Financing has been a major problem across the infrastructure sectors. Long term funding has been a problem for banks as they borrow short but need to lend for long-term projects.

LAND ACQUISITION

Land is a pre-requisite for any infrastructure project. A number of projects witness delayed financial closure and postpone commencement of construction due to land acquisition problem. This delay can also impact the project viability.

A HIGHLY FRAGMENTED INDUSTRY WITH INCREASED SUBCONTRACTING

The construction industry in India is highly fragmented. Construction projects often materialize through a number of smaller contracts which mainly depend upon the size of the project and diversified nature of activities involved. As a result, subcontracting is a common phenomenon in the industry.

INDUSTRY SCENARIO:

Finance Minister Arun Jaitley announced a record budgetary allocation of Rs. 2.21 lakh crore for infrastructure sector, in a crucial move to revive investments in the sector with the participation of the private players.

The roads sector alone has been allocated Rs. 97,000 crore as the government plans to award 10,000 kilometres of new road projects in FY17, including Rs. 19,000 crore earmarked for rural roads under the Pradhanmantri Gram Sadak Yojna.

The finance minister announced a series of measures for modernising existing ports and building new ports along India's east and west coasts. He said that initiatives are being introduced to reinvigorate infrastructure sector through Public-Private Partnership (PPP).

2015 did not bring the hoped-for growth in residential real estate. However, the silver lining is that the bad days seem to have bottomed out; sales have picked up in a few cities like Mumbai, Hyderabad and Bangalore. Launches have reduced in cities like Mumbai, slightly lowering the inventory. Developers' initiatives like offering attractive schemes and deal terms, coupled with lowering of interest rates by the Reserve Bank of India (RBI), have activated fence-sitters. In 2016, however, most of these factors will turn positive reversing buyers' as well as developers' sentiments. Here's a glimpse of how the Indian real estate market in 2016 will look like:

Lowered interest rates: The Reserve Bank of India (RBI) has cut interest rates by 50 basis points in two rounds this year. Though the transfer of benefit by banks to their customers is much slower than expected, a few commercial banks are cutting interest rates for home loan seekers, giving the much needed boost to the sector. The positive effects of these cuts will become much more visible for the property for sale in India by the next year as those who are waiting for much deeper cuts will stop doing so and seal the deals.

Easy payment plans: Developers too are changing track to attract buyers into the residential markets. Builders with large debts and piling inventories are expected to ease the process of property investment with easy payment plans for homes. The prevalence of these schemes will help pick up buying properties in many cities as well as towns.

Increased FDI in realty: The government is planning 100 smart cities across India and other such projects similar to the GIFT city in Gujarat. These projects have already garnered huge interest in the NRI and other communities. The government has also made it easier for foreign direct investment (FDI) to flow in to Smart City projects. Such kind of money, in the form of private equity or seed funding, is expected to boost investment in the affordable segment, which will lead to growth in the real estate sector.

The sector has been slow for a very long time now. With enough boost from the government, this state of affairs is all set to change in 2016.

STATE OF THE COMPANY'S AFFAIRS

Pursuant to Sec 134 (3) (i) of the Companies Act, 2013 ('the Act') As we look forward to 2016, the macroeconomic environment is expected to continue to improve. The single-family housing sector pricing and sales continues to strengthen, albeit at a slow and inconsistent pace. These positive macroeconomic parameters could potentially provide a further boost to the strengthening Commercial Real Estate recovery.

FIXED DEPOSITS:

Your Company has not accepted any deposits within the meaning of Section 73 of the Companies Act, 2013 and the Companies (Acceptance of Deposits) Rules, 2014.

EXTRACT OF ANNUAL RETURN :

Pursuant to section 92(3) of the Companies Act, 2013 ('the Act') and rule 12(1) of the Companies (Management and Administration) Rules, 2014, extract of annual return is Annexed as **ANNEXURE 1**.

BOARD MEETINGS:
